With reference to my previous report dated 1 FEB 77, kindly advise your explanation as to what the U.F.O. was. We will be awaiting your reply. Just for your information, no other sightings were reported since 14 JAN 77.

D.D. 15 APR 77

S.U.I.

cc: "M" Division H.Q.

(D.F. SASARABA)Op. 1/o Mayo Detachment
At approximately 10:00 p.m. (P.S.T.) the captioned noted the sighting of a U.F.O. near Elsa, Y.T. Binder advises that he was returning to Elsa, Y.T. from Keno City, Y.T., at approximately 8:40 p.m. (P.S.T.) in his vehicle and alone and as he passed the Silver Spring turnoff he observed a round or oblong very bright clear white light with flames and sparks of the same color. Binder also saw what he thought was a red light on top of the U.F.O. which grew larger and smaller. Binder estimated the altitude to be approximately 4000' and was moving in the valley and Binder estimated the U.F.O. to be approx. 10 miles away from his location. Binder stopped his vehicle and heard no noise what so ever. Binder advised that the movements made by the unknown object was very fast, went up, down, across and in straight lines, when it moved laterally a bright light could be seen a considerable distance behind U.F.O. Binder further advised that he drove to Elsa and advised the following persons of the same who also viewed this U.F.O. Persons are as follows: John Hevesi, Phil Balcon, Wladislaw Jarmul, Stan Labasko, Louis Sisa, Bob Andison and Louis Hochet.

Statements were obtained from Binder, Hochet, Hevesi and Andison and copies are being forwarded along with this report.

The condition of the sky at this sighting was clear, dark and hazy. M.O.T. Mayo, Y.T. advised that the temperature at 10:10 p.m. (P.S.T.) 14 Jan 77 at Mayo was -200', wind N.E. @ 14 knots, also reported no known air traffic in vicinity of area mentioned.

Drago Kokanov, also of Elsa, Y.T. advised that he also saw the U.F.O. described by Binder. Kokanov advises that at approximately 7:50 p.m. (P.S.T.) 14 Jan 77 he was alone and was driving his vehicle in a North-East direction at approximately 10 miles P.S.T. of Stewart Crossing, Y.T. when he observed the unknown object. Kokanov's description was identical to Binder, with the exception being that when Kokanov first saw the U.F.O. it made the movements of a big letter "H" shape. The distance between locations of Binder and Kokanov is estimated to be approximately 42 air miles. Both Binder and Kokanov advise that they viewed the unknown object for approximately 20 minutes before it disappeared. Both also feel that the U.F.O. is a man-made object and not a planet or the like.
All the witnesses mentioned, with the exception of BINDER and KOKANO, advise that the U.F.O. was stationary and didn't move during the time of their viewing. Reliability of all observers is unknown.

Statements were not obtained from all witnesses as there were no irregularities in their observations and also several are European and difficulty would have been encountered with translation to English.

On 15 JAN 77 a telex (M4) was forwarded direct to the National Research Council, Ottawa Ontario, advising all contents mentioned in this report.

As residents of Elsa and here are keenly interested in knowing what the object is (if in fact there is a reasonable explanation), a reply is requested from the National Research Council outlining their analysis. This file will remain U.I. pending a reply from the N.R.C. The lateness of this report is due to not being able to contact witnesses in this case.

(S.H. BAZARABA)Opl.
1/c Mayo Detachment
Friday January 14, 1977 ..... Returning home to Elsa, Y. T. from Reno City ....... Time, approximately 8:40 p.m. .......
Crisp, cold starry night with no moon.

After rounding the curve as I passed the Silver Spring turnoff, straight ahead of me in the distance, I noticed a very bright white light with a smaller red light on top but I kept on driving.

The red light appeared to grow bigger and then smaller, then the whole object seemed to rise up then drop again, I thought it might be some kind of helicopter. I stopped the truck and got out to listen but I could hear no sounds of a helicopter or plane... there was no sound whatsoever. Then I thought it might be some strange vehicle light on the highway coming in from Mayo.....I stood there looking and listening for about a good minute and then realized that the Mayo highway would not be visible from where I stood.

I got back into the truck and drove about 3/4 of a mile and stopped for the second time just south of the Elsa dump, turned off my lights and got out of the truck again. I could hear no sound and the lighted object was too high in the air and too far to my right to be on the Mayo highway.....it appeared to be on this side of Mt. Haldane and about the height of 1/2 way up the mountain.
The white light was oblong, wider than high, and reminded me of a very bright white radiant light shining through a window or sort of a white fireball. The red light on top would get bigger than smaller. The whole object would move up then down, then a bit to the left and then to the right, and from where I stood, it did not appear to cover a big area, only that it moved in all directions. It may have appeared to me to look larger, then smaller, when, perhaps, it was coming this way and then going back. I don’t know. I watched it for 1 or 2 two minutes only and then jumped into the truck and rushed to the Coffee Shop and called out the men there to come and see and we all watched the object for about 5 minutes before the red light flickered and faded and the whole thing disappeared.

Time: approximately 5 minutes to 9 p.m. 

I remember the following men came out of the Coffee Shop to see this light... John Hevesi...Phil Balcom...Wladyslaw Jarmul.... Stan Labasko...Louie Sisak...Bob Anderson...Louis Hochet... there may have been others but I can only remember these.

Drago Kokanov was just returning from Whitehorse and saw it to his left as he drove past Marshdale and on to camp.
JAN 30 1977

On Friday January 14 1977 at approximately 8.55 PM I saw a bright yellow light just below the horizon of Mt. Haldane, it appeared to be giving off different coloured (blue red and yellow) lights, it then disappeared, it did not move its position.

Robert Andison
JAN 30 1977

On Friday, January 14 1977 at approximately 9.10 PM I saw a bright light which was stationery on the left hand side of Mt. Haldane. The light looked to be at the same altitude as Mt. Haldane, it was yellow-orange-blue, it stayed in one place and before disappearing it changed its colours to yellow-blue-green and flame like at the bottom.

Sincerely,

J. Hevesi
STATEMENT OF LOUIS HOCHET RE U.F.O.

On Friday, January 14 1977 at approximately 8.55 I was in the Elsa Coffee Shop when Steve Binder called me outside to see a light. On the left side of Mt. Haldane there was a bright yellow light, approximately at the same altitude as Mt. Haldane. This light was larger than a star and appeared to occasionally dim and then brighten, it was stationary, myself and other men watched this for approximately 7 minutes when it extinguished itself. This light did not shine as brightly as a star.

L. Hochet

Date: January 17
BE ADVISED TWO SIGHTINGS OF UFO IN STEWART CROSSING, YT & ELSA, Y.T.
FIRST SIGHTING AT APPROX. 7:30 PM (PST) & SECOND AT 8:40 PM (PST),
16 JAN 77. FIRST OBSERVER, DRAGO KOKANOV OF ELSA, YT, ALONE, DRIVING
HIS VEHICLE IN A NORTH-NORTH-WEST DIRECTION APPROX. 10 M I. N.E. OF STEWART
CROSSING. 3 CONC SIGHTING BY STEVE BINDER OF ELSA, YT, WHILE DRIVING
HIS VEHICLE TO ELSA, YT FROM KAMO CITY. YT CONDITION OF SKY AT BOTH
LOCATIONS, CLEAR DARK & HAZY. IDENTITY OF OTHER PERSONS WHO OBSERVED
 UFO: JOHN BEYER, PHIL BELLCH; GLASGOW JUARAY; STAN LADAKO; LOUIS
 BLAK; ROB ANDRECH; LEWIS ROGERS. DESCRIPTION OF UFO, ROUND OR OBLONG,
PROJECTING A BRUTISH CLEAR WHITE LIGHT & FLAMES SAME COLOUR AND SHAKE.
BINDER ADVISES THAT HE ALSO SAW A RED LIGHT ON TOP OF UFO WHICH SEEM
LARGER AND SMALLER. ALTITUDE APPROX: 4000 & WAS MOVING IN VALLEYS
ESTIMATED TO B APPROX. 10 M I AWAY FROM BOTH OBSERVERS. IT WOULD APPEAR
THAT BOTH OBSERVERS SAW THE SAME OBJECT. BOTH OBSERVERS REPORT THAT
THEY OBSERVED SAME FOR APPROX 20 M I. ALSO BOTH OBSERVERS ADVISED
THAT THEY STOPPED THEIR VEHICLES AND MADE NO NOISE WHATSOEVER.
MOVEMENTS ARE VERY FAST, WENT UP, DOWN, ACROSS AND STRAIGHT AND
RAN MOVING STRAIGHT THE LIGHT MENTIONED COULD BE SEEN FOR A
CONSIDERABLE DISTANCE BEHIND UFO. OBSERVER KOKANOV ADVISES THEN
HE FIRST NOTICED SIRE, IT WAS A RED LETTER "F" SHAPE. OBSERVER
BINDER ADVISES THAT OBJECT DISAPPEARED AT 9:55 PM (PST). NOT
KAMO TEMP. AT 10:10 PM (PST) AT KAMO -20°C, WIND NE @ 14
KNOTS. BOTH OBSERVERS FEEL THAT THIS SIGHTING IS IN FACT A MAN MADE
VEHICLE OF SOME SORT.
IN VIEW OF THE NUMBER OF SIGHTINGS IN THIS AREA, RESIDENTS HERE ARE
INTERESTED IN KNOWING WHAT OBJECT IS, IF THERE IS A REASONABLE
EXPLANATION. I HIGHLY ADVISE YOUR ANALYSIS TO THE HEREBY NOTED
AD RESS. ALSO IT SHOULD BE NOTED THAT NOT MAY REPORT NO REPORTED
AIR TRAFFIC IN VICINITY OF AREAS MENTIONED.

ROYAL CANADIAN MOUNTED POLICE - GENDARMERIE ROYALE DU CANADA

Unidentified Flying Object - Assistance to National Research Council - Kings County - 15 JAN 77

JAN 25 1977

15 JAN 77

1. At approximately 8:45 PM A. S. T., a U. F. O. was seen at St. Peters West, F. E. I. The complainant was John MOLLIS of Mt. Stewart, and approximately ten people witnessed the object which was described as a yellow object larger than a star, and had a red light from it.

2. The sky at the time was clear and starlit. According to the complainant the object was observed for approximately two hours as it went straight in the air, and down again, and moved off to the west. There was no report of any sound heard, nor any bursts of light from the object.

3. Allan TRAINOR, St. Peters West was spoken to, and he stated that he was one of the ten people who observed the object. He advised that there had been other such sightings within the past week, depending if the sky was clear of clouds.

4. At approximately 9:30 PM, the Charlottetown Airport was contacted and also the Charlottetown Weather Office requesting any knowledge that they might have in the matter. It was learned from the Airport that there was no commercial flights or private flights in that area, and there had not been any for quite some time. They also advised that their radar equipment did not pick up any object. The Weather Office advised that they did not know of any balloon that might have been up, and advised that weather balloons do not carry any type of light, flashing or otherwise.

5. At approximately 10:15 PM a call was received from a Mrs. Raymond HERBERT, New Zealand, P.E.I. She advised that she had seen a light over Souris, bearing an orange or red light. She advised that it appeared to be heading east towards North Lake, P.E.I. The wind at this time was blowing 4-5 miles per hour in an easterly direction.

6. At approximately 11:00 PM while investigating the complaint of Mrs. HERBERT, the writer observed a yellow light in the sky over North Lake. The light was larger than a star, and gave a red flashing light from its upper extremities. The object was watched for approximately 20 minutes, as it appeared to move out to sea in an easterly direction.

7. At 1:25 AM No. Frank MACDONALD from Monticello which is approximately 15 miles west of North Lake contacted this office and advised that he had seen a flashing red light over the shore at Monticello. A patrol was made to Monticello to investigate the previous mentioned complaint, but prior to reaching Monticello the writer was flagged down on the highway by a Leo MACDONALD, approximate age 20, who advised that he had been just driving through Monticello and observed a yellow light and two red ones on the shore at Monticello. He stated that by the time he had stopped his vehicle to take a second look, the lights had...
disappeared. A check was made of the coastline at Monticello, Naufrage, and Goose River which are along the north shore of P. E. I., and there was no light of any description seen except for the light at Naufrage Harbour which is a signal for boats. This is a red flashing light.

8. In the opinion of the writer the object seen at 8:45 PM, 10:15 PM, and 11:00 PM by descriptions given was similar, and quite possibly the same object. It is felt that since the wind was blowing from the west to the east and the object appeared to move from west to east at pre-set times, it was quite possible that the object was a balloon, and did not have its own power, and was driven by the wind.

9. Since the object was witnessed by the writer, it is also felt that the object was a balloon which was placed in the air by unknown persons for a hoax.

ACQUISITIONS PROCEDURE

PUBLIC PUBLICATION

The information contained herein is for public use and is a reproduction of the original slide presentation made by the Office of the Public Works and Government Services Canada. The presentation contains the following elements:

1. A title slide with the words "Canada Public Procurement Process".
2. A slide with the words "Acquisitions Procedures".
3. A slide with the words "Public Procurement Process".
4. A slide with the words "Information for Public Use".

The presentation is divided into two parts:

Part 1: The Public Procurement Process
- The process is explained in detail, including the steps involved in acquiring goods and services.
- The roles and responsibilities of various stakeholders are outlined.
- The importance of transparency and accountability in the procurement process is emphasized.

Part 2: Information for Public Use
- The presentation includes a list of resources and contact information for questions or concerns.
- The audience is encouraged to ask questions and provide feedback.

The presentation is intended to provide a comprehensive overview of the procurement process and to ensure that the public is informed and engaged in the decision-making process.
disappeared. A check was made of the coastline at Monticello, Naufrage, and Goose River which are along the north shore of P. E. I., and there was no light of any description seen except for the light at Naufrage Harbour which is a signal for boats. This is a red flashing light.

8. In the opinion of the writer the object seen at 8:45 PM, 10:15 PM, and 11:00 PM by descriptions given was stellar, and quite possibly the same object. It is felt that since the wind was blowing from the west to the east and the object appeared to move from west to east at pre-set times, it was quite possible that the object was a balloon, and did not have its own power, and was driven by the wind.

9. Since the object was witnessed by the writer, it is also felt that the object was a balloon which was placed in the air by unknown persons for a hoax.

Unidentified Flying Object - Assistance to National Research Council - Kings County 21/22 JAN 77

1. On the above date further sightings were made of the U.F.O. previously mentioned in Souris Detachment File 77-102-1.

2. At 8:30 PM a call was received from Allan TRAINOR, West St. Peters, PEI, advising that he observed a flashing red light over West St. Peters. A patrol was made to the scene by Csts. CONNAD, W. F., MacDonald H. P., TARRANT, and the writer, and the object was observed in the western sky until it disappeared over the horizon.

3. Between the hours of 9:02 AM, 21 JAN 77 and 2:10 AM, 22 JAN 77 numerous calls were received advising that a U.F.O. was being seen in the Eastern Kings area of Prince Edward Island. Calls were received from: Mrs. Raymond HERRIT, New Zealand, PEI; George TRAVERSE, Souris, PEI; Charles Jamieson, Souris, PEI; Mrs. Roland JOHNSON, Souris, PEI.

4. It is the opinion of the writer that although an unidentified light is being noted over Eastern Kings County, P.E.I., there is very little that this detachment could do to rectify the situation. In view of this the report will be concluded.

5. Souris message # S-8 fwd. as required.

An unidentified flying object sighted at 1:30 a.m. (Pacific) time, 63 Jan 77. The sky was clear. Observed by Lee Scott Nielsen of Whitehorse, Y.T. Nielsen was in a motor vehicle and standing on highway at time of observation. He was travelling from Whitehorse to Carmacks and first sighted the object near Fox Lake, forty miles north of Whitehorse and continued to see the object until about five miles south of Carmacks, Y.T. Total time of sighting approximate two and one half hours. The object was round in shape and showed dull white light. It appeared to be about ten thousand feet altitude and moved in zig zag motions. It was seen in the south west sky.

BRKS II RE UFO SIGHTING 23/1/77 11:00 AM

TILLEY DIST ALTA 10 MI S HWY 1 ON SEC HWY 875

BE ADVISED OF THE FOLLOWING INFORMATION. STEVEN KRAKAVA OF TILLEY ALTA ADVISED THIS OFFICE OF INFORMATION. FARM IS LOCATED AT THE ABOVE LOCATION. KRAKAVA OBSERVED THE OBJECT FROM A DISTANCE OF APPROX 600 TO 1,000 FT IN THE CENTRE OF A QUARTER SECTION OF HIS PROPERTY. SIGHTINGS WERE ALSO MADE ON MONDAY NIGHT AND TUESDAY NIGHT THE 25 + 26 JAN 77. THE FOLLOWING PEOPLE ALSO WITNESSED THIS OBJECT IN THE SKY: 1) BILL COOLEY. DUCHESS ALTA 2) HAROLD TORKELSON. TILLEY ALTA 3) JOE VAYRO AND HIS WIFE OF TILLEY ALTA. TORKELSON AND VAYRO LIVE IN THE GENERAL AREA SOUTH OF NO 1 HWY AND COOLEY WAS IT IS BELIEVED VISITING IN THE AREA. DESCRIPTION APPROX 5 FT IN DIAMETER COULD BE LARGER AS NO ONE GOT YOU CLOSE. SILVER IN COLOR GIVING OFF A VERY BRIGHT WHITE LIGHT. THIS OBJECT WOULD COME IN CLOSE TO THE GROUND TURN RED IN COLOR THEN BEAR OFF THE WEST. NO SOUND COULD BE HEARD. KRAKAVA STATES THAT THE OBJECT WAS SO BRIGHT THAT HE COULD ONLY LOOK AT IT FOR A SECOND OR TWO BEFORE HE WOULD GET BLACK SPOTS BEFORE HIS EYES. PATROLS IN THE AREA ON EVENING OF 23/1/77 fail to spot any object. OTHER WITNESSES WILL BE SPOKEN TO. INVESTIGATING MEMBER CST JA YASINSKI.

BROOKS DET
ROYAL CANADIAN MOUNTED POLICE - GENDARMERIE ROYALE DU CANADA

1. With reference to Telex #11 from Brooks Det. dated 27 JAN 77, be advised of the following.

2. At approx. 1100 A.M. on the 23rd JAN 77, HRAKAVA sighted a bright object while feeding his cattle, approx. 14 miles south of Hwy. #1, on Hwy. #675, in the Tilley Dist. of Alberta. This subject sighted the U.F.O. for approx. 30 minutes, however, according to his statement which is attached, could not look at it too long as the light given off, was very bright. At the time, the skies were clear, cool, and no aircraft was noted in the area. HRAKAVA could not hear any sound coming from the object. HRAKAVA, was sincere about reporting the matter, is of good standing in the community, and is not a person who would make up such a story. See attached statement for any further information.

3. At approx. 9:30 P.M. on the 19 JAN 77, Mr. Harold TORKELSON, of Tilley, Dist., Alta., sighted a U.F.O., in the general area that HRAKAVA sighted his. At the time, TORKELSON was accompanied by his wife. Then on the 26th of JAN 1977, again around 9:30 P.M., a U.F.O. was sighted in the Tilley Dist., in the same area where the other one was sighted. Duration of sighting was approx. 5 minutes. See statement of TORKELSON attached here to.

4. Upon further inquiries, it was learned that Mr. & Mrs. Joe WIROVE, of Tilley, Alta., had observed a U.F.O., on the 19th of JAN. 1977 at approx. 6:30 P.M. WIROVE, watched the object for approx. 5 - 10 minutes, and as noted in the attached statement, felt the object was 5-6 miles long. Both TORKELSON and WIROVE, are respected persons in the community and were sincere about reporting same.

5. A patrol by members of this office on the 26 JAN 77 at 9:30 P.M., to where HRAKAVA observed the U.F.O., met with negative results.

6. To date, no further reports have been received by this office from persons in the area in regard to Unidentified Flying Objects. Should any reports be received, your office will be advised accordingly.
At approx. 6:30 P.M., on the 19th January 1977, we noticed a bright object in the south-east of the horizon, approx. 10 miles south of Tilley, Alberta. The sky's were very lightly overcast, however stars could be seen through the cloud cover. At the time of the sighting, we were in the house, located 13 miles south of Hwy. #1 on Hwy. #87S, the Rolling Hills Rd., and 1½ miles east. (SE.16, 16, 13, 4). The object appeared to be circular, with a very bright reddish light in the center, and smaller multicolored bluish and sparkly lights around the outside diameter of this object. The object I would say would be about 3-6 miles away, and appeared to be like an aeroplane wing design. This object would in my opinion be approx. 100 feet above ground level. We watched this object for approx. 5-10 minutes, with the naked eye and also with binoculars. There was no sound to it, and it disappeared, or at least, the lights disappeared very quickly, as I got up, walked about 10', came back, and it object was gone. The object, while we were watching it moved side to side, and very slowly.

(Lt. Col. NELSON) Cpl. Joe WIROVE
Brooks, Detachment Irene WIROVE
At approx. 11:00 A.M., M.S.T., on the 23rd of January, 1977, I was watering my cattle at S.W. 18-16-13-4 W., of the 4th, or approx. 14 miles south of Hwy. #1, on Hwy. #873, and ½ mile west, near Tilley, Alta. I first noticed a bright silver object like polished chrome, about 1500' up in the sky, to the south east of me. I stopped my truck, got out, and tried to have a better look. Just prior to me stopping the truck, the object was coming towards me, approx. ½ miles away, in a straight line, however, it appeared to be tipping, from one side to the other. This object appeared to be a disc shaped (oval), and travelling fairly slow to wards me, however, when I stopped the truck and got out to have a better look, I made a sharp 90° turn, to the South, and accelerated rapidly. When I tried to look at the object, it was very bright, almost as hard to look at, as a welding flash. I didn't see any lights, or any windows on it, just this bright flashing silver light. This object then went over an area, about 2 miles south of me, and then made another turn, and went south west. At this time, I lost sight of it.

After about 20 minutes, I was stopped on side of the road, trying to locate this object again. I noted it flying to the south-east, so I attempted to get closer to it by driving south on the Rolling Hills Rd. When I got there, it (the object) had gone east over the road, and I lost sight of it. It was travelling about the same speed as that of a small aeroplane, approx. 180 mph., however I cannot say for sure. There was no noise, no vapor trail, and no wings on the object. Altogether, I watched this object for approx. 30 minutes, and the sky was clear, no clouds at all.

(L.G. NELSON) Cpl.
Brooks Detachment

Steve MRAKAVA
Statement of Harold TORKELSON, of Tilley, Alta.
Taken 9:30 P.M., 9 FEB 77

I first noticed a bright object in the western Horizon, as I was coming home from Tilley, Alta., at approx. 9:30 P.M. M.S.T. on the 19th of January, 1977. I observed this object for approx. 10 minutes and during which time the object moved directly to the south, and descended below the horizon. The object appeared to be approx. 3-4 miles away in an area approx. 16 miles S.W. of Tilley, Alta. The lights was a bright silver color, then turned a dark red color. There was just 1 light, and was a circular object.

Then on the 26th of January, 1977, the object was observed at approx. 9:30 P.M. M.S.T., in the same general direction as described above. At this time, it was noted to rise from below the horizon, to an altitude of about 1000 feet, and about 2 miles away. At this time, it was very bright, and orange in color, turning to red. This object appeared for approx. 4-5 minutes, and the sky was cloudy, and overcast. The object was circular, however, couldn't distinguish the detail or size. Pete BAER, of Tilley, and Bill COOLEY, of Duchess also saw the object.

Brooks Detachment 

Harold TORKELSON
Information was received that an Edward MORRISSEY of Nine Mile Creek, P.E.I., had reportedly sighted an Unidentified Flying Object on the evening of 24 JAN 77.

25 JAN 77

1. Information was received that an Edward MORRISSEY of Nine Mile Creek, P.E.I., had reportedly sighted an Unidentified Flying Object on the evening of 24 JAN 77.

26 JAN 77

2. At 10:00 A.M. on this date Edmund John Francis MORRISSEY (b. 19-5-51), Nine Mile Creek, P.E.I., was contacted and the following information, as per Operational Manual 1.3.B.22.a, was obtained.

3. MORRISSEY advised that on the evening of 24 JAN 77, at approximately 7:31 P.M., he had spotted two lights, one red the other green, directly east of his residence, at a distance of approximately seven miles, out over Hillsborough Bay in Northumberland Strait. These two lights were directly opposite each other but MORRISSEY very uncertain as to their distance apart.

4. MORRISSEY advised that at the time of the sighting the sky was clear. He stated that upon sighting, he climbed onto the roof of his home with a camera and obtained a number of photographs of the objects. Photos on file. MORRISSEY advised that there was no particular shape to the objects that he was viewing, but that they appeared as two lights, at an altitude of approximately 400 to 500 ft. over the water. The lights remained in a stationary position for approximately 18 of the 19 minutes that he observed them, then they appeared to move directly towards him, then both ascended from view at an extremely high rate of speed and disappeared. MORRISSEY stated that this was the first sighting of this type that he had seen in this area. Katherine Dorothy MORRISSEY advised she had observed the identical sighting as her husband.

5. MORRISSEY is not known by members of this Detachment and therefore his reliability is unknown. However, MORRISSEY appeared to the writer at the time of contact to be rather a high strung, excitable type of individual.

6. Charlottetown Marine Air Radio was contacted in an effort to ascertain whether there had been any planes in the immediate area at the time of the sighting by MORRISSEY, and they advised that there was no aircraft traffic in that area at that time.

7. The Canadian Coast Guard Base, Charlottetown, was contacted and they advised that there was no shipping traffic in that particular area at the time of the sighting by MORRISSEY.

8. A copy of this report is being forwarded to the National Research Council for their perusal and for action deemed necessary.
9. This matter will be as noted hereunder.

Unidentified Flying Object - 24 JUN 77.

25 JUN 77

1. Information was received that an unknown object was encountered by a Private John Francis MORRISON (B. 17-1831), R.C.M.P., was contacted and the following information, as per Operational Manual 135.2.22.a, was obtained.

2. At 1910 A.M. on this date Private John Francis MORRISON (R. 19-3-M-1), R.C.M.P., was contacted and the following information, as per Operational Manual 135.2.22.a, was obtained.

3. MORRISON advised that on the evening of 24 JUN 77, at approximately 7:30 P.M., he had spotted two lights, one red the other green, directly east of his residence, at a distance of approximately seven miles, out over Hillsborough Bay in Northeastern Strait. These two lights were directly opposite each other but MORRISON very uncertain as to their distance apart.

4. MORRISON advised that at the time of the sighting the sky was clear. He stated that upon sighting, he climbed onto the roof of his home with a camera and obtained a number of photographs of the objects. Photos on file. MORRISON advised that there was no particular shape to the objects that he had viewing, but that they appeared as two lights, at an altitude of approximately 450 to 600 ft. over the water. These lights remained in a stationary position for approximately 15 minutes that he observed them, then they appeared to move directly towards him, then he ascended from view at an extremely high rate of speed and dissolved. MORRISON stated that this was the first sighting of this type that he had seen in his area. Katherine Dorothy MORRISON advised she had observed the unidentified sighting as her husband.

5. MORRISON is not known by members of this detachment and therefore his reliability is unknown. However, MORRISON appeared to the writer at the time of contact to be rather a high strung, excitable type of individual.

6. Charlottetown Marine Air Radio was contacted in an effort to ascertain whether there had been any planes in the immediate area at the time of the sighting by MORRISON, and they advised that there was no aircraft traffic in that area at that time.

7. The Canadian Coast Guard, St. John's, was contacted and they advised that there was no shipping traffic in that particular area at the time of the sighting by MORRISON.

8. A copy of this report is being forwarded to the National Research Council for their personal and for action deemed necessary.
9. This matter will be as noted hereunder.

(P.J.E. McCarrthy)
Charlottetown Detachment

M. S. R.) S/Sgt.
1/c Ch'town Det.
On the 27th day of January, 1977, a report was received by this office that Mrs. Margaret VINCENT of Clinton Creek, Y.T., had spotted an unidentified flying object on the 25th of January, 1977.

While on our next patrol to Clinton Creek, a statement was taken from Mrs. VINCENT concerning what she observed. Note that Mrs. VINCENT holds a responsible position in the community and is a very reliable source.

The statement which follows contains all pertinent information as requested by Operational Manual I-3 E22. The date and time of the sighting was 10:30 a.m. Pacific Standard Time, 25th January, 1977. The sky was high overcast. The observer as noted above is a part-time school teacher and wife of the Mine Manager. Mrs. VINCENT was at her home when the sighting occurred. No other persons saw this U.F.O.

The U.F.O. is said to have consisted of a bluish-white to yellowish-white pulsating light travelling up the 40 Mile River in a south westerly direction. The U.F.O. maintained an altitude of 300-400 feet (approximately) above the river ice and followed the course of the River until out of sight which would be approximately four to five miles. The duration of the observation is estimated to be two minutes.

Statement of Margaret VINCENT (b.d. 1-June-27) taken at Clinton Creek, Y.T. on the 2nd of February, 1977, at 3:15 P.M.:

"I Margaret VINCENT, am a part-time teacher (afternoon) at the Robert Henderson School in Clinton Creek, Y.T."

I was working in the kitchen of my house at 514 Boundary Road (located about 100ft. from bank of Forty-mile River) on the morning of Tuesday, January 25, 1977. I was listening to the Radio (CBC, Whitehorse, our only station) when at approximately 10:30 a.m. Pacific Standard Time, the sound of an airplane began to drown out the sound of the interview - but produced no static, etc.

Because my husband who is Mine Manager and usually aware of scheduled air traffic) was away and had not been expecting any aircraft, I rushed out to my back porch, which has a clear view for 4-5 miles up the forty-mile river. I was concerned about identification of any unexpected air craft.
Statement of Margaret VINCENT continued:

CONCERNED ABOUT IDENTIFICATION OF ANY UNEXPECTED AIR CRAFT.

Following the noise I was hearing, I glanced up the river (S.W.) and saw a pulsating light (Bluish-white to Yellowish-white) travelling rapidly (I estimated 4-5 Mi. in 1½-2 Mins.) up the river. It maintained a steady altitude of approximately 300-400 Ft. and followed the course of the river exactly (I have skied frequently up river as far as 8 miles and therefore am familiar with its course). I watched the light, pulsating regularly about the speed of human pulse or slower, till it disappeared from view through the hills surrounding the river valley (4-5 miles). The sky was covered with a light-grey high overcast of cloud, but visibility was clear and it was full daylight at the time of the sighting. Because of the speed of the light, and its distance from me (½ mile distant and 150-200 Ft. higher), it was impossible to determine a precise shape. It seemed to consist of the light (maybe 2-3 Ft. in diameter), and possibly a dark armature to the right, but I am not sure of the latter. It did not seem large enough to carry an adult person. It was definitely not a helicopter, nor a small airplane, though it sounded like the latter.

As soon as the light disappeared from my view I phoned my nearest neighbor, Mrs. George (Stephanie) KINGSTON (2 houses north, but not as close to the river, and any view of the river obscured by trees). She had heard the sound of an airplane, but being busy, had not taken time to look out. No one else in town either saw or heard anything that morning. However, mine is the closest occupied house to the river where the object was travelling.

Several other sightings have been made of similar phenomena by residents of this town since Mid-December. Two men of town maintenance crew saw a similar lighted flying object (but flying higher and in opposite direction) about 9 a.m. (in darkness at that hour) in Mid-December. On the night of Jan. 2 about 7-30 p.m. a similar light was seen by me, 3 other members of my family, and 3-4 neighbours, quite high in the sky over the Fortymile River; it was visible for about 10-15 minutes before it disappeared (about the same location as my sighting of Jan. 25 when it moved out of sight).

Another sighting (similar description) was made over the air- scrip (about 6 Mi. west of town) by Vicki WATSON, but I have not talked with her.

ARB77/8 AT APPROX 9:30PM ON 31 JAN 77 MRS JEAN WIDISH BORN 3 JAN 32
OF ROSENBURG MANITOBA LND NBR NW19-24-3E, REPORTED WHAT SHE
BELIEVED TO BE A UFO. SHE DESCRIBED THE OBJECT AS FOLLOWS:
A) SIZE OF A TV SCREEN
B) RED AND BLUE REVOLVING LIGHT
THE OBJECT WAS SEEN AT APPROX 1 MILE WEST OF HER PLACE AT APPROX
40-50 FT FROM THE GROUND FOR HALF HOUR AND DISAPPEARED FROM SIGHT
BEHIND A BUSH. THE CONDITION OF THE SKY AT THE TIME WAS VERY CLEAR

RCMP ARBORG DET - CST MCMAHON
On the 31st of January 77 at approximately 9:30pm Mrs. Jean WIDISH of Rosenberg, Man., land section MJM19-24-3E reported to radio station CKRC in Winnipeg that her family and herself had seen a UFO.

2. Mrs. WIDISH was contacted on the 1st of February 77 and a statement was obtained from her, which is attached as Appendix "A". She mentioned that during the evening of the 31st of January 77 at approximately 9:30pm she was watching T.V. with her two daughters, Janet (B. 27 Nov 62), Debbie (B. 5 Feb 65), and her husband John (B. 5 Oct 22). One of her daughters first noticed a strange light in the sky through the window and immediately told her parents to look at it. Mrs. WIDISH described the object as follows:

(a) size of a T.V. screen;
(b) red and blue revolving lights.

The object was seen approximately 1 mile west of their residence 40 to 50 feet from the ground. They observed it for approximately half an hour until it disappeared behind a bush. At the time they saw the object, the sky was very clear, it was very quiet and there was no wind. Mrs. WIDISH mentioned that in June 76 her husband had seen the same type of an object at approximately 300 yards but that time the lights were yellow. No further information could be obtained.

3. A patrol of the area revealed no tracks or unusual markings of any kind. Inquiries with nearest neighbours were negative.

CONCLUDED HERE:

(J.L.P. MAHON) Cst.
Arborg Detachment

G.E. Baye #19940 Sgt.
RC 77, Vol. 308
Can you tell me everything that occurred during the evening of 31 Jan 77 concerning the object you saw.

We were watching T.V. and there was a little interference. My daughter saw this thing in the sky. It was roughly 1 mile west of our house. It was turning very slowly. There were red and blue flashers and it was about the size of a T.V. screen. It looked like it landed behind the bushes.

Q. What time did you see this object?
A. 9:30 pm.

Q. Was it clear or cloudy?
A. The sky was clear you could see the stars, it was very quiet, there was no wind.

Q. How high was the object?
A. About 40 – 50 feet.

Q. How long did you see it?
A. A good half an hour.

Q. How did it move?
A. It revolved very slowly.

Q. Did it ever disappear from sight?
A. No, not until it went behind a big bush.

Q. Is there anything else you can tell us about the object?
A. No, I think thats all. My husband saw one last year in June. This one was a lot closer and it looked the same, there was a yellow flasher. This one was 300 yds away.

Q. Who else saw the object last night?
A. John WIDISH, Debbie and Janet.

Sgd: Jean WIDISH

3) OBSERVERS WERE ALBAN CORCORAN - 11 YRS OLD; KENNY CASSELMAN - 18 YRS OLD

4) OBSERVERS LOCATED APPROX ONE MILE FROM SPARWOOD BC

5) OTHER OBSERVERS WERE TWO ADULTS WHO WERE OVERHEARD ON CB RADIO HAVING CONVERSATION ABOUT THE UFO ABOUT THE TIME OF THE OBSERVERS SIGHTING. THESE TWO ADULTS WERE DRIVING DOWN HARMER RIDGE ABOUT FOUR MILES EAST OF SPARWOOD

6) OBJECT APPEARED TO BE TRIANGULAR SHAPE WITH APEX BEING A BLUISH-GREEN LIGHT. THE LOWER LEFT POINT WAS GREEN AND THE LOWER RIGHT POINT PINK. THE THREE COLOURS WERE CONNECTED WITH A LINE. JUST PRIOR TO GOING OUT OF SIGHT BEHIND A RIDGE OBSERVERS STATED THERE WAS A FLASH OF RED LIGHT AT THE BOTTOM OF THE TRIANGLE. TRIANGLE APPEARED TO TRAVEL ABOUT 5000' IN THE AIR IN AN ARCH GOING FROM EAST TO WEST.

7) DURATION OF OBSERVATION APPROX 10 MINUTES

8) REPORT TO FOLLOW

SPARWOOD DET

[Handwritten note: Responsible: a person working on Harmer Ridge near Sparwood -]
Follow-up investigation has been conducted with reference to Sparwood telex despatched 4 FEB 77 to the National Research Council, Meteor Centre in Ottawa. As a result of further sightings on the 5th of February, members of this detachment viewed the lights and concluded that some mining implement belonging to Kaiser Resources was mistaken for the U.F.O. It was therefore determined that a Crane working on Harmer Ridge near Sparwood was responsible. Identical lights appeared on the Crane as was described by those persons who reported the incident.

2. Copy of this report direct to National Research Council, Ottawa.

On 13 JAN 77, Mr. Joe SHAW, Weather Station, Vimy Road, Bible Hill reported to this office that they have had several inquiries from the public reference a light in the West at night. On 2 JAN 77 a co-worker, Earl JEFFREY, 19 Belgrave Terrace, Truro N. S. saw the following at 8:20 P.M. Atlantic Standard Time.

2. Clear
3. Weather Station, Bible Hill, Col. Co., N. S.
4. Nil
5. Brighter than stars
6. Pulsating sphere exchanging colors of red, white & blue.
7. Round, smaller than moon.
8. Approximately 10 minutes
9. Nil
10. Approximately 20° angle from horizon to West.
11. Sphere moved at very slow speed in Westerly direction.

It might be noted that Mr. JEFFREY used to be a pilot and what he saw was neither a star or a plane of any kind.

On 13 JAN 77 Mr. SHAW received a letter from Ruth TOTTEN, Upper Economy, Cumberland Co., N. S. inquiring about a U.F.O. she has been seeing in the West. This prompted him to report same to us.

Cpl E.E. BEST, Parrsboro Detachment obtained statement from TOTTEN. Copy attached.

Telex forwarded on 19 JAN 77.

STATEMENT OF RUTH TOTTEN (B: 08-04-47) OF UPPER ECONOMY, N.S.

20 JAN 77

"Around the end of October of last year I have noticed a round, oval shaped object in the sky in the direction of Cape Blomidin from where I live. There are red and green lights flashing from same; sometimes from the top and bottom and sometimes from each end. It is usually there at dusk and disappears before mid-night. I have heard no noise and it leaves no trail behind it. It stays stationary for quite sometime and then moves slowly away. I have seen it on every clear night since the end of October. When I first see it the object is way up in the sky and at night wears on it gets closer to the ground."

E.E. BEST, Cpl

Ft. Norman, NWT

SUBJECT: Re: U.F.O. sighting in Ft. Norman, NWT.

1. Morris MENNO called this office on the 3 FEB 77 and explained he saw a bright light hovering about the Mackenzie River the night before. A number of other people in Ft. Norman saw the same light. This light would come down from the sky, stay over the river and go back into the sky.

2. On the 6 FEB 77 at approx. 10:00 P.M. Lucy DOCTOR (55 years) saw an object hover over the church. She was with Dianne DOCTOR (9 yrs.). They both ran away from it, turned around, and it was gone upwards into the sky. The sky was clear and the object was about 100 ft. from the ground. It went straight up and down. The object was green in color and had windows on it. They said it made a noise. Diagram App. #1 attached.

3. On the 10th FEB 77, at approx. 9:45 P.M. FREDA ANDREW (15 yrs.) saw an object hover over the old Hudson Bay store. It was about 100 ft. off the ground and flew in a straight up and down direction. Length of observation was about four minutes. The sky was clear. The object was green then changed to dark green. It also made a noise. There were no witnesses. The object also had windows on it as per diagram App. #2 attached.

4. I believe these witnesses are telling the truth. They are the only people who saw the object at a close distance. There are a number of people in Ft. Norman who have seen a bright light at a distance which moves around in the sky. I myself, for one. On the 11 FEB 77 I saw a bright light towards the west. I positioned the light on a telephone pole, and after five minutes the object moved to the other side of the telephone pole, stopped, and after one minute moved behind Bear Rock, a 4-5 hundred foot mountain which is situated where the Bear River meets the Mackenzie River. This occurred at approx. 11:00 P.M. All the above times are Mountain Standard Time.

5. I hope this will aid you in your investigations.

Ft. Norman Det.

Re: U.F.O. Sighting
Slave Lake, Alberta
10 MAR 77

-------------------------------

Dear Sirs:

Enclosed please find self explanatory statements of myself and Cst. P.P. WILLIER concerning the noted sighting.

Yours truly,

(P.E. SCHNEIDER) Cst.
Slave Lake Detachment.

PES/gcp
encl.
Statement of P.P. WILLIER S/Cst.  
Slave Lake Detachment  

U.F.O. SIGHTING  

On 10-MAR-77 approx. 9:50 P.M. Cst. SCHNEIDER called the office stating that he was observing some type of a strange light towards the western sky and that he wanted me to bring the binoculars. He was situated at the west end of Slave Lake on the old #2 highway. An immediate patrol was made to the area and I could see this bright light enroute, when I got there the light seemed to be at its brightest losing altitude in small spurts, all this time various light shades were observed on the object. The colors a predominant reddish shade covering the lower part of the object interchanging with mixed greenish and amberish light towards the middle and top part of the object. This observation was also visible with the naked eye and with clear night with the stars visible, no overcast, the object stood out predominantly in the sky. The object appeared to have a domed top and a rather bellbottom appearance, the reddish lights appear to almost cover the bottom at times appearing intense with a pulsating effect.

At approx. 10:00 P.M. S/Sgt. LALIBERTE was notified and he attended the scene approx. 10 minutes later. By this time the object had travelled in westerly direction a considerable amount losing altitude gradually but still retaining its appearance of lights. At this time it was negotiating its way towards the tree line in the west. We then decided to drive down the road in a open area to obtain a better view. At this time the object was losing altitude and the light burning reddish frequently as it disappeared beyond the tree line. It settled in the west with the light still visible.

(Signed)  
(P.P. WILLIER) S/Cst.  
Slave Lake Det.

PPW/ppw
On March 10, 1977 at approximately 9:40 p.m., I was on patrol in the town of Slave Lake. I was proceeding west on 2nd Avenue. As I approached the intersection of 1st Street N.W., I noted an orange light in the western sky. At first I thought it was an aircraft on final approach as there was a red flashing light on the bottom. However, after I had driven a few more blocks the light was still there and didn't appear to be moving. I parked on the western outskirts of town on old #2 highway and continued watching. At this time, the red light appeared to be pulsating and varying in intensity. I also could faintly discern a green glow on the other side of the object.

I called Cst. WILLIER and requested he attend with the binoculars. He arrived approximately 9:50 p.m. When viewed through the binoculars, a definite shape to the object could be made out. It was cone shaped on the bottom, tapering to a domed top. The entire object was on a 45 degree angle with the red glow concentrated in the lower left corner. The green glow came from mainly the right side but from time to time could also be seen along the top and lower right. The red and green lights pulsed and varied in intensity almost continuously with the main orange colour also doing it on occasion. This pulsating effect was clearly visible to the naked eye.

The object varied in altitude a couple of times and was gradually moving west. At approximately 10:00 p.m. we advised S/Sgt. J.L. LALIBERTE of the sighting and he arrived approximately 10 minutes later. By this time, the object had nearly dropped out of sight below the tree line, so we drove a couple of miles further west. All this time, it was moving further west as well, and the observation from this point was not as distinct as it had been previously. A clear shape of the object was not visible, although the red and green light could still be seen. At about 10:15 p.m. the object disappeared from view, still in a westerly direction.

SLAVE LAKE DET
On 03MAR77 at 10110 PM MST a unidentified flying object was sighted over Slave Lake near Canyon Creek Alta which is 14 miles west of the town of Slave Lake Alta. The sky was very clear with many stars visible. There was also a full moon visible just south of the sighting area. Two known persons sighted the object was Karen Esser of Canyon Creek Alta called this Det Office at the above time to report the sighting. Her residence is approx one and one half miles west of Canyon Creek. She stated she saw the object move in an easterly direction towards Slave Lake Town Site. It then moved in a westerly direction back to her and passed Canyon Creek towards Assineau about 30 miles west of Slave Lake. The other person who sighted the object was S/CST Peter Willier a member of the RCMP stationed at Slave Lake Alta. Willier was at Canyon Creek near the shoreline of the lake when the initial complaint was received. He was immediately advised. He stated at that time that he also had the same light in his view. S/CST Willier gave the following description of the object. He sighted the object about 10115 PM MST 03MAR77 from the shoreline at Canyon Creek Alta with binoculars as it appeared in the west. It had a yellowish light on top and bright reddish lights on the bottom. There seemed to be a movement of lights on the bottom. The object appeared to wobble a bit. It was narrow on the top and wider on the bottom. The object appeared to be just above the horizon. Height was estimated at about 1000 to 1500 feet. The object just appeared to be floating. The object started heading west at first and then westward. It kept getting smaller and started to glow much like the coals of a fire and disappeared. Willier waited while still looking in the same direction. CST Willar and Schneider had begun to proceed to the scene with a camera. Willier waited for a few minutes possibly less than 10 minutes when the light appeared again. It started the same way it disappeared by a faint reddish glow parallel to the lake shore. As it came nearer it was again distinguished a faint reddish light on the bottom and yellowish lights on the top. As it came nearer Willier again noticed this movement of lights. They seemed to be rotating and going off and on in sequence. Picketing the object made no sound either. The first sighting or the second as it neared the lights got brighter and more intense. Again the object went away and the lights again got smaller and smaller until they finally disappeared like before in a reddish glow. The duration of CST Willier's sighting was about 10 minutes. The original caller was Esser stated she had sighted the object about 20 minutes.

Re: Sighting of U.F.O. Canyon Creek, Alberta 3-MAR-77

Dear Sirs:

Enclosed are statements attained from Mr. and Mrs. Walter Esser of Canyon Creek, Alberta. Included in the statements are observations made by these people on the evening of 3-MAR-77 approx. 10:00 P.M. of a reddish light just off the shore of the Lesser Slave Lake. Their younger children Manuelia and Marian also witnessed this sighting, statements were not taken from these children due to their young age. The duration of this sighting was approx. 20 minutes. During this time Mrs. Esser phoned in the sighting to the Slave Lake Detachment approx. 15 miles away.

At this time I was working in the Canyon Creek area when I received the call to investigate this sighting. The duration for this sighting was approx. 10 minutes, it is noted that at the time of observation the sky was clear, stars visible and a full moon accompanied the night. The use of binoculars was implemented on this occasion bringing into effect closer view of the phenomena. A subsequent investigation revealed no further sightings and no more witnesses to this event. Enclosed is a statement I have submitted describing the observations made that evening.

(P.P. Willier) C/Cst.  
Slave Lake Detachment

3-Encl.  
PPW/ppw
On the 03-MAR-77 I was in Canyon Creek, Alberta when Cst. J.D. MILLAR called from the Slave Lake Detachment stating that a woman had sighted a light just west of Canyon Creek and had been observing this object for about 20 minutes. I had binoculars in the vehicle and sighted this object at 10:15 P.M. The lady from Canyon Creek had called in at 10:10 P.M. The object had a yellowish light on top and a bright reddish lights on the bottom. There seemed to be a movement of lights on the bottom. The object appeared to wobbled a bit. It was narrow on the top and wider on the bottom. The object appeared to be just above the horizon and I would estimate its height at about 1000 to 1500 feet above the lake. I had the portaphone with me and kept up a constant broadcast of the movements of the object to Cst. MILLAR Faust Detachment were also copying my broadcast. The object started heading west away from me and getting smaller and smaller. It appeared to glow with a reddish light much like the coals of a fire. Then it dissappeared. I kept watch in the same direction. Csts. MILLAR and SCHNEIDER were proceeding to the scene from the east and Faust Detachment from the west. I waited and watched for a few minutes, probably less than 10 minutes when the object appeared again. It came back into my sight the same way it had dissappeared, by a faint reddish glow parallel to the lake shore. As it came nearer I again distinguished faint reddish lights on the bottom and a yellowish amber light on top. As it came nearer I again noticed this movement of lights. They seemed to be rotating and flickering off and on in sequence, pulsating. The object made no sound either at the first sighting or the second and appeared to be floating. As it got nearer the lights got brighter and more intense. Again this object started to move to the west and the lights again got smaller and smaller until it dissappeared.

At this point Csts. MILLAR and SCHNEIDER arrived on the scene, along with Faust Detachment. The object did not reappear. Duration of sighting approximately 10 minutes. It is noted that the object at times seemed to be losing altitude a bit then bouncing onto its path again.

(PPW/PPW)

Slave Lake Detachment.
I was sitting in my house, all of a sudden my husband Walter drove up and dragged me out. He said "Just come with me". We hurried down the driveway - I noticed a big light in the sky without him telling me. Then my husband asked me to look straight up and look at the stars and he said "Aren't they beautiful - then what the heck is that pointing at the big light in the sky". Then he turned me around and looked at the moon which was in opposite direction to see the difference between the moon and the light and size of object. It was about half the size of the moon. Then my husband told me that he had watched it heading east before. Then we debated what it could be. Then all of a sudden it started moving west. At a slow movement, it seemed to be a big light, like a bright spot light. It seemed to be changing colour - as it kept moving west the further it got the smaller the light went till it disappeared. Then we came back inside. At about 11:00 p.m. the girls and I went down the road but we didn't see it again. I seen this object 3 MAR 77 at about 10:05 p.m. till approx. 10:25 p.m. My girls Manuela and Marion ages 14 and 12 seen this light too, they watched it for about ten minutes and they came in. When I seen it it was about mile from shore and about 2000 feet in the sky.

SGD: Karin ESSER
STATEMENT OF WALTER GEORGE ESSER
TAKEN AT OPPORTUNITY, CORP SLAVE LAKE
ON 07 MAR 77 at 3:19 P.M.

On 03 MAR 77 about 10:00 p.m. at night, right at Canyon Creek store - I noticed a very bright light over the lake in a north west direction - it was moving towards Slave Lake. First I figured it was an airplane coming in for a landing - but it occurred to me that the light was too bright and too big to be that of an airplane - I kept going and the object moved in a westerly direction - just before I got home I stopped my truck got out and noticed that it was going west and getting smaller. I then went into the house got my wife and the two older girls to look at it and we watched it for about 7 to 8 minutes till it disappeared.
The light seemed more reddish than the stars and it seemed to be about half the size of the moon cause the moon was out - and I was looking at it, which was in opposite direction. The light seemed to flicker also, it seemed far out and yet close to the lake - also appeared to be about 2000 ft. in the air - when it disappeared it seemed to go in a straight line getting smaller and smaller, it didn't have any sound at all. When my wife and kids and I were watching it in front of the house it moved westward but it wasn't going fast - like the speed of a small plane - I have seen meteorites fall and satellites in the sky, but this is no comparison.

WIT: S/Cst. P.P. WILLIER
Sgd: Walter ESSER.
FLO5: UNIDENTIFIED OBJECT REPORTED THIS POINT AT 9:20 PM, NEWFOUNDLAND TIME, 13 MAR 77. REPORTED BY HUBERT GENRE OF ANCHOR POINT, NFLD. GENRE OBSERVED OBJECT FROM HOME IN ANCHOR POINT AND IT WAS MOVING IN A NORTH WESTERLY DIRECTION. ALSO SEEN BY CPL. P. T. MCCORMICK, HIS WIFE ALMORIA, CYRIL ROGERS SOCIAL WORKER FOR THE AREA, AND HIS WIFE BLANCH. OBJECT AS SEEN THROUGH BINOCULARS: ROUND, RED ON THE BOTTOM AND WHITE ON THE TOP. IT WAS MOVING IN WESTERLY DIRECTION AND OBJECT MOVED LOWER IN SKY AND DISAPPEARED BEYOND HORIZON AROUND 9:40 PM. HUBERT GENRE ADVISED HE HAS WATCHED THIS OBJECT ON CLEAR NIGHTS FOR THE PAST TWO TO THREE WEEKS. THE OBJECT FIRST SEEN JUST AFTER DARK AND MOVES IN SAME DIRECTION ALL THE TIME AND IT HAS ALWAYS DISAPPEARED ON THE HORIZON AROUND 9:40 PM.

SPR77/3 BE ADVISED THAT ON THIS DATE AT APPROX 6100 AM LUDWIG SIEGEL REPORTED A SIGHTING OF A UFO TO THIS OFFICE. THE TIME OF THE SIGHTING WAS APPROX 6100 AM CST. SKY WAS CLOUDY AND AT 6100 AM DAWN WAS BREAKING. SIEGEL WAS ALONE IN HIS AUTOMOBILE TRAVELING ON PTH 201 4 MILES WEST OF SUNDOWN MANITOBA. SUBJ STATES HE OBSERVED A SAUCER SHAPED OBJECT HOVERING 15 FEET ABOVE THE ROAD. HE PASSED UNDER THIS AND APPROX 2 MILES FURTHER EAST HE MET 3 OBJECTS ON THE ROAD. THE OBJECTS APPEARED APPROX THE SIZE OF A MAN IN THE SHAPE OF AN HOUR GLASS AND APPEARED STANDING ON THE ROAD. SUBJ DROVE STRAIGHT THRU THESE LIGHT FORMS AND OBSERVED THAT HAVING PASSED THRU THEM THEY DIMINISHED IN SIZE AND VANISHED REPORT TO NRC TO FOLLOW.

SPRAGUE DET RCMP

CC LINE ONE REPORTED AT 6130 AM TO OFFICE

NRC OTT
Ludwig SIEGEL (17 MAY 55)  
Sighting of U.F.O.  
Near Sundown, Man.  15 MAR 77

1. Mr. SIEGEL reported to this office at approx. 6:30 AM this date, that he had seen something he believed to be a flying saucer. SIEGEL had been travelling on PTH #201, and between Vita and Sundown, at approx. 6:00 AM he had seen a saucer shaped light form, hovering approx. 15 feet above the road, 4 miles West of Sundown. This object was giving off a pulsating light. The sky was overcast, and dawn was just breaking.

2. SIEGEL continued down the road, and approx 2 miles from Sundown, he observed three objects that appeared to be standing on the road. These objects were again, visible as a light form. They were shaped like an hourglass, and were roughly the same size as a man. SIEGEL drove straight through these and upon looking in the rear view mirror observed that they diminished in size and vanished. Subject became very alarmed and proceeded to his neighbours house and notified this office.

3. An immediate patrol to the scene was made. The telephone call from SIEGEL was confusing and SIEGEL was unsure just what he had driven through, and felt that it could have been people. SIEGEL was picked up and taken back to the scene, however no evidence of any kind of activity could be determined. SIEGEL stated that he had not heard any noise during this occurrence.

4. A statement was obtained from SIEGEL, confirming the above, and he returned to his farm located south of Sundown, Man. SIEGEL is 21 years old, Single, and an immigrant from Germany. He has been in Canada approx. 3 years, and has resided in Calgary, Winnipeg, and has recently moved to Sundown. Little is known about this subject, however from speaking to him, he would appear stable. There were no other witnesses to this event.

5. A copy of this report will be forwarded direct to The Upper Atmosphere Research Section, National Research Council, Ottawa. No copies elsewhere.

CONCLUDED HERE.

At approximately 9:00 P.M. this date, Roger David MILLER, an Air Traffic Controller at Gander International Airport reported sighting an Unidentified Flying Object. Harvey Richard BRINSON, (DB: 29 AUG 50), another Air Traffic Controller who was working with MILLER at the time also reported seeing the object.

The following information is supplied regarding the Unidentified Flying Object:

1. Date and time of sighting - 15 MAR 77, 9:00 P.M. Newfoundland standard time zone.

2. Sky Condition - Clear, 30,000 feet visibility with thin scattered clouds.

3. Identity of Observer - Roger David MILLER (DB: 3 MAY 44)
   Air Traffic Controller, Gander International Airport, Gander, Newfoundland.

4. Location of Observer - Gander Control Tower, Gander International Airport, Gander, Newfoundland.

5. Occurrence of Bursts - The object changed from red to orange to white with slightly varying degrees of brightness intensity.

6. Luminosity - The object varied from the brightness of a star and slightly brighter.

7. Colour - Changed from red to orange to white in a fixed position.

8. Form - One eighth the size of the moon. Spherical with irregular edges.

9. Duration - Four and one-half to five minutes.

10. Sounds - No sounds were heard.
CONTINUATION—SUITE

Roger David MILLER (DB: 3 MAY 44)  PAGE 2

U. F. O. Sighting
Gander, Newfoundland
15 MAR 77

CONTINUED FROM PAGE ONE.

11. Position in Sky — Three hundred and twenty degrees magnetic bearing from Gander Control Tower. Judging from medium size aircraft it would be ten to fifteen miles away with an altitude of two to three thousand feet.

12. Other Observations — The only other observation was that the object disappeared very quickly after the five minute period.

A copy of this report has been forwarded direct to the National Research Centre, Planetary Sciences Section, 100 Sussex Drive, Ottawa, Ontario.

Dear Sir:

8 March 77

On 7 March 1977 at 9:25 PM, Const. J.A. FORTIER received a telephone call from Mr. Tony CAINES of R.R. #1, Spiller Road, Penticton, B.C. indicating that he had just witnessed a brilliant white flash in the sky. It occurred approximately four miles north on Highway 97 over Okanagan Lake at a relatively low altitude (estimate 500 ft). The complainant was on the opposite side of the lake at his residence when he viewed it. It had no definite shape and no movement occurred as it seemed to appear and then vanish in the same spot. The duration of this observation lasted approximately 3-6 seconds and no known explanation justifies the occurrence and Mr. CAINES reliability as a credible witness would not be questionable.

A search of the area was conducted using spotlamps on Hwy. 97 from Penticton to Summerland, B.C., however, nothing further was revealed to indicate what might have caused the flash. Two other phone calls were received from anonymous callers at the same time as the initial complaint.

While checking the area I came upon a Mr. Lester DUNCAN of 324 North Ingleton, North Burnaby, B.C., who was resting in his camper truck at a rest stop on Hwy. 97 just below the Trout Creek Research Station. He claimed that at approximately the same time as the sighting was called in he had heard a strange sound that he described as a "whirring" noise that lasted for approximately 6 seconds. He looked out of his camper and saw nothing however.
Mr. DUNCAN could not ascertain what direction the noise came from and stated it was not very loud. He could not explain further what it might have been and his credibility is fair as he mentioned the noise to me before I told him why I was searching the area.

There are no other witnesses we know of and the flash of light cannot be reasonably explained as it was too bright to have been a flare. There is little information regarding this due to the brief appearance of the light. Further investigation in the daylight of 10 MAR 77 turned up negative as to a reasonable explanation for the occurrence.

Yours truly,

(D.R. MOORE)  Cst.
Fenton Detachment.

Attention: Miss A. Claude

Dear Miss Claude,

Following is a description of what the undersigned believe was a sighting of a "UFO".

On Saturday March 25, 1977 at 10:20 pm we were driving west (35 MPH) on the Ottawa River Parkway, passing Westboro Beach. A strong light was sighted on the southern horizon moving rapidly upwards at about 75 to 80° angle from the horizon towards the south west. It travelled up to the cloud level in less than 30 seconds and disappeared above the cloud layer. A moment later it reappeared going directly to the east (180° from previous course) and maintained this direction for about another 30 seconds before disappearing behind a cloud. The light was many times greater than anything else in our view and its colour ranged from light yellow/orange to dark orange, similar to the colours found in a fire. The only other activity seen in the sky was an aircraft far to the west.

If it is possible, we would appreciate knowing if there were others who also saw this phenomena or an explanation of what occurred. Thank you.

If you have any further questions, please do not hesitate to contact us.

Sincerely,

P.D. Cheney
E. Hunt

Ottawa
Your letter of April 1, 1977 just arrived in my office yesterday.

In reply to your request, we did not receive any other report corresponding to the time and place of your observation. Usually, we do not do any investigations about individual sightings unless they are of special scientific interest to us, because we do not have enough details on the sighting. In your case, were you inside or outside the car when you saw what you describe in your letter? If you were inside, reflection of lights on the windows could be the answer.

UFO's frequently have a natural explanation, many of these are given in the two booklets that I enclosed. I also enclosed a list of books on the subject for your interest.

Yours Sincerely,

A. Claude

Planetary Sciences Section.
HWY 783 PLEASE BE ADVISED AS OF THIS DATE THAT A UFO SIGHTING WAS
REPORTED BY A MS POURIER OF WHITEHORSE. SHE REPORTEDLY OBSERVED
THE UFO AT MILE 941 ALASKA HIGHWAY AT 8:10PM 29 MAR 77. IT
FOLLOWED HER IN HER VEHICLE FOR APPROX 12 MILES AT A DISTANCE OF
A MILE OR MORE. SHE DESCRIBED THE UFO AS:

- ALTERNATING FROM A ORANGE GLOWING BALL TO BLUE FLASHING LIGHTS
- NO SIZE ESTIMATION

TIME ZONE IS PACIFIC STANDARD TIME, THE UFO FOLLOWED THE OBSERVER
FOR APPROX 50 MIN. SHE REPORTS A LOSS OF CONTROL OF HER VEHICLE
DUE TO THIS OBJECT.

THE WEATHER WAS CLEAR, MOSTLY WITH SCATTERED CLOUD COVER - FULL
MOON TO THE SOUTH HIGH IN THE HORIZON, NO FOG, ICE FOG, OR SNOW.
NO NORTHERN LIGHTS VISIBLE EITHER BAROMETER WAS 29.87 AND
TEMPERATURE WAS ~1 DEGREE CENTIGRADE AND FALLING.

THE OBSERVER WAS VERY FRIGHTENED AND SEEMED QUITE SINCERE.
POLICE PATROL TO AREA TURNED UP NEGATIVE SIGHTINGS. SEVERAL OTHER
SIGHTINGS HAVE BEEN REPORTED IN THAT AREA PRIOR TO THIS DATE.

R.C.L. LLEWELLYN, CST
WHITEHORSE HIGHWAY PATROL
C/n called our office on the 29 Mar 77 to complain that she had just seen a U.F.O. The complainant was very upset and the particulars are as follows.

1. The U.F.O. was initially spotted at 8:10 PM at Mile 941, Alaska Highway, it appeared as a large orange ball hovering over her vehicle that was parked by the highway. It began to blink as she approached her vehicle, then it disappeared. As she began to drive, two more lights appeared, now bluish/yellow in color and these followed her to the City Limits of Whitehorse approx. 13 miles. She said that she didn't seem to have any control of her vehicle while this object was following her. It would allow her to drive no more than 30-40 miles per hour even though she had the car going as fast as it could go. The U.F.O. followed her for approx. 13 miles then when she met several oncoming vehicles, it disappeared.

2. Weather was broken cloud and temperature was -1°C, there was a partially full moon and it was towards the south and high in the sky.

3. It is the opinion of the writer that this was a valid complaint. Several patrols were made by the writer to the area, no similar sightings.

4. There is a statement attached written by the complainant.

Statement of Ben Porrier as Witness

My daughter and I had driven some 23 miles north on the Alaska Highway from Whitehorse to see the Mr. Dening about some horses.

As it was early in the driving we left the Toyota truck and went over the Alaska Highway. We did some business and were traveling back to our truck when we saw the first strange light. It was setting in the sky near the mountains in the east. It was orange in color and I got the impression that it was a profound change. This was not an unusual sight. After we had passed the mountain the light was gone.

The sun had just set but it was still very bright out when we started home. I remember the time I was on the road traveling along the Alaska Highway and my daughter said we were going to the truck with me driving. And it was black dark out. That was when the phone hit me.

As we passed the Yukon River we were traveling in the darkness. The light there was a bluish color. This light seemed to start from a point along the road. I tried to pull off the road. There were three high banks along that stretch of road. I think what caused us to have to stop was the fact the brakes were worn.
not suitable. I was having a bad time driving the truck on the roads. Besides, the steering being badly affected, I also had quite a problem.

When the light was abreast my vehicle on my right, I ignored the truck and could only see between 30 & 40 mph. It would disappear behind a hill then I could see 40 to 50 mph. This slight left was often seen in a church of cars leaving from the left around 8:00 pm. Truck did not drive in town until around 9:15 PM. The truck was only a zone about 28 miles.

Last weekend, my husband made drive this stretch of road in the daylight and the brown was not seen so high as they had that night. My daughter is just 9 years old. I hope never to have such an experience as long as I live.

Since then, my daughter and I have had medical problems.

OTTAWA, ONTARIO.

Dear Sirs:  

Re: Gordon J. McDermott - U.F.O. Sighting  

On April 14th, 1977, the captionally noted subject of 4804 Monro Avenue, Summerland, B.C., phone number 494-1173, called this office. He advised that at approximately 4:00 A.M. this date he observed what looked like a red light which appeared approximately six to seven feet long and three feet wide - a rectangular shape. He advises that he could hear a noise from this object which sounded like bacon frying, a kind of sizzling sound. He advised that this object when he first noticed same, was in a vertical position approximately eight or nine miles South-east of his residence from where he sighted the object. He advises that this object, he felt, would have been almost directly over the city of Penticton and would have been at an altitude of less than 4,000 feet. He went on to say that this object then went horizontal and began to move Northward, then increased its altitude to clear the Mountain range on the East side of Okanagan Lake and went out of sight heading in an Easterly direction. McDermott advises he observed this object for twenty to thirty minutes.

2. Enquiries made with Penticton and Penticton Airport Detachments revealed no other persons who observed this object. The sky was clear at the time of the sighting.

3. I have known McDermott for some time and he is an excitable person, however is reasonably reliable. Penticton Airport stated there were no aircraft flying which could have been mistaken for this object.

Yours truly,

(Signed) Sg t.  
i/c Detachment.

NRC OTT
C/n advised that he was contacted by Mr. Bill PLUMMER, address L1: sw12-24-22, R.M. of Gilbert Plains concerning the sighting and hearing of a strange light and beeping sound in the close vicinity of their farm during the past three days, primarily during the late evening hours. HALE and the PLUMMER's taped the beeping sound during the evening hours 10:00 p.m. to 2:00 a.m. the 11 – 12 April 77 and the writer listened to the tapes. Apparently Saturday night around 1:00 – 10:00 p.m. the PLUMMER's heard the loud beeping sound of some instrument just north west of their farm house. The beeps were in series of 5 and then quit coming back in series of 2 and quitting. Each time the beeping sound ceased a bright white star like light appeared and arced to the ground. The PLUMMER's state they heard voices along with the beeping sound. On Sunday the 10 April 77 the beeping sound returned and the beeping sound was again very evident and more consistent than the night before. The star like light followed the sound around moving very rapidly but never very far from the PLUMMER farm. Monday night at 8:00 p.m. the beeping sound returned and the c/n was contacted by the PLUMMER's. A tape recorded was set up and the beeping sound recorded. The noise on the tape was very inconsistent in both strength and rapidity. The light came on each time the beeping stopped. No voice could be heard this time. The sound continued until approximately 2:00 a.m. the 12 April 77. The sound was able to be heard within the house and all the family and neighbours agree the noise was there and could not be explained. Attempts were made by HALE and PLUMMER to sight the object with a flashlight, however were very unsuccessful. The sound spent most of the time above a grove of trees 100 yards north west of the PLUMMER house. HALE states that he feels he was directly beneath the sound and is unable to state what it was. He did not see a light, however there is no doubt in his mind that the beeping sound was coming from some unknown and
unidentifiable object hovering above the trees. Periodically
the sound stopped and started increasing in speed, strength
and loudness. Additionally the beeping sound moved off very
quickly to the west and then returned.

The weather was clear, temperature 35 - 40 degrees F.,
and there was no wind. Observation of sound and light Saturday
9 APR 77 at 10:00 p.m. G.S.T. for approximately 1½ hours.
Sunday 10 APR 77 at 8:15 p.m. to 2:00 a.m., Monday 11 APR 77 at
8:00 p.m. to 2:00 a.m.

Witness to incident and sightings include Ron HALE a
very reliable individual, Mr. & Mrs. Bill PLUMMER, reliable and
respectable farmers and their daughters.

Should the sound repeat itself tonight the PLUMMER's will
contact Dauphin and Cst. CAMPBELL will attend taking our tape
recorder.

Telex sent 5:00 p.m. the 12 APR 77 to National Research
Council.

12 APR 77 Called at residence by Mrs. PLUMMER and advised the beeping sound
8:30 P.M. had returned. Proceeded to location and heard the beeping sound
and recorded approximately 5 minutes of sound. Observed area
for 1½ hours and saw no lights or heard no voices. Sounded
like some sort of bird.
13 APR 77

Took tape recording to Dauphin and had Department of Renewable Resources listen to tape. Phil MENTON, was able to identify noise. He suggested we see Bill WALLEY a well known bird watcher. He felt the call was that of a male Saw-Whet Owl. He will be listening to noise himself over the next few days. If it is an owl it will be this noisy for a month and one half.

14 APR 77

Phil MENTON advises research has revealed nothing further. WALLEY & MENTON will be attending farm on 15 APR 77 to listen to sound and possibly provide more positive identification.

Telex sent to Ottawa advising of new information and developments.

16 APR 77

Mr. Bill WALLEY identified beeping sound as a Saw-Whet Owl. Telex forwarded advising Meteor Centre, Ottawa. No further action being taken by this Detachment. Copy of investigative report forwarded to Research Council, Meteor Centre.

STILL CHUCKLING ABOUT THAT STANDARD DISK I SAW NEW YEARS EVE AT 9 PM OVER WYANDOTTE MICH A FOUR ENGINEED AIRLINER WAS CIRCLING IT OR TRYING TO IT WAS VERY LOW UNDER 20,000 FOOT.

AARP. 8 APRIL 2 AT 1 PM I WAS WAY OUT IN FRONT OF HOME WITH SCOPE AND A NEW NEIGHBOR DOWN THE BLOCK A FORMER SERVICE WEATHERMAN SO HE SAYS LOOKED THRU SCOPE AT A PLANFORM SAUCER WITH A WHITE DOT AT 8 O CLOCK ON IT. (A PERFECT CIRCLE WITH THIN WHITE AND BLUE LINES MOVING AROUND IN IT. SAID SIMPLY ITS NO WEATHER OR SATELLITE.

HAD ANOTHER ONE OVER WINDSOR HIGH.

SAW IT ALSO IN MARCH, A COUPLE OF TIMES THE ONE TOWARD MONROW MICH SSW AT 8 O CLOCK IN EVENING VERY HIGH BUT AT MIDNIGHT I COULD JUST SEE IT ABOVE A TWO STORY BLDG.

P.S. LAST JULY 16 THAT DOUBLE DECK SAUCER THAT CAME OVER FORD ROUGE PLT. AT 4 AM. AND THE TWO GUARDS WENT IN MADE REPORT AND WERE SENT HOME BY MEDICAL DEPT AT 4 PLUS AM THEY LET ME WORK ALL DAY BUT TOLD BRASS TO SEND ME HOME IF I GOT A LITTLE STRANGE. BUT THE ONE GUARD AFTER HE ASKED WHAT THE HECK WAS THAT AND I TOLD IT, WAS JUST A FLYING SAUCER HE SAID I HAD SEEM THEM BEFORE, HE WAS RIGHT I HAD, AND STILL DO. LIKE THE LITTLE EGG WHITE GLOBE THAT WENT DOWN MY HALL AND OUT THE WINDOW WITHOUT HARMING THE SHADE OR WINDOW

BT

NNNN*
NRC OTT
1. Reference is made to a telex sent 17 MAY 77 at 10:00 PM. BOHANAN called the Detachment and advised that she had seen an unidentified flying object. The sighting took place at her residence at 2281 Walker Rd., Prince George, B.C. from 9:55 to 10:00 PM.

2. Tony BOHANAN (37 yrs. old), Wayne BOHANAN (19 yrs old) both of same address and Ron KELLY (16 yrs old) of 1899 Dubois St., Prince George, also saw the object with BOHANAN at 2281 Walker Rd.

3. The object was described as oblong shaped, red in colour, and approx. 40' long, there was a brighter red exhaust-like projection at one end. The object was approx. 1,000 ft. off the ground and moved from north to south. The object stopped and hovered in the middle of the horizon and then climbed straight up to approx. 2,000 ft. and sped off to the south into a group of clouds. The object didn't make any noise.

4. The observers are reliable people and were visibly shaken by the sighting. The writer knows the observers and they aren't people who would state they saw something if they didn't. Canadian Forces Base Baldy Hughes, Blackwater Rd., Prince George (582-1141) was advised of the sighting by the writer.

5. Sgt. APPELL of C.F.B. Baldy Hughes, advised that a Mr. THORNTON, 2401 S. Perrin Heights (962-7434) and a Mr. MADIGAN (962-9196), address u/k, called and advised that at 10:05 PM, 16 MAY 77, they saw a round red ball approx. 7 feet in diameter traveling from northeast to southwest in the sky just below cloud level. The sighting lasted from 3 to 4 minutes.

Dr. A. G. McNamara,  
Planetary Sciences Section,  
National Research Council of Can.,  
Hertzberg Institute of Astrophysics,  
Montreal Rd.,  
Ottawa, Ont.  
K1A 0R6

Dear Dr. McNamara;  

On Friday, 28th January at 19:21 Mr. Ken Shanks, Road Superintendent and Dalton Sproule of Orpah, Ont. were snowploughing the Robertsville Road near the home of Mr. Dave Riddell (see letter of 13th Jan. from Col. A. J. Bauer.) It was snowing and Mr. Shanks saw a sighting behind him but never said anything until he came closer to it and mentioned this fact to Dalton Sproule. It was 1,000 - 2,000 ft. and in a few minutes descended to 100 feet and appeared to be over the home of the Riddell's.

It was reddish-orange in colour and very, very bright. They observed it for 5 minutes and it disappeared horizontally and in an easterly direction. About three-five seconds later Dalton saw a falling star in the same direction.

In view of my last report of the sightings seen by Steven and Raymond Riddell and Ken Reid in nearly the same spot, I thought this sighting should be recorded and reported to you.

Yours truly,

D. Alex McQuaid

Re: Unidentified Flying Object

Several sightings have been made throughout the night of an Unidentified Flying Object. The sightings first occurred about the middle of January 1977 and still persist to this date. It has been sighted by a Cap. HASTINGS, Sturgeon, P.E.I., Cst. F.J. FITZPATRICK, Cst. R.J. BRADLEY and myself in this area. Sightings have been reported all over Eastern Prince Edward Island from Charlottetown, Montague and Souris by citizens and other members of the R.C.M.P.

The object varies in altitude from several hundred feet to several thousand feet. As far as can be determined the object is triangular and emits flashes of red, blue and white light. It generally moves in a north to south pattern throughout the night.

Witnesses are very reliable and I was sceptical until I personally saw it. If any information or explanation is available please forward same.

Montague Highway Patrol

[Handwritten note: (W.O.M.) Sgt. 1/c Det.]
At 19:45 hours on the evening of 12 MAR 77, Mr. Alex MATWICK of 19 Heron St., Kitimat reported to our office that he had seen an unusual light in the sky which appeared to be a reddish-pink flare of some sort.

Several minutes later, an unidentified municipal worker radioed the firehall. Several firemen looked out the window and saw this object as well. People at a party also saw the same object.

Common description: roundish, orange, slow, floating, silent, and visible for 2 or 3 minutes. Comprised of two lights, one above the other. The bottom light disappeared before the top one. One comment made by one observer was that it moved "kite-like".

Other observers were: Mr. & Mrs. Denis KOKER (storekeepers)
Richard McKOWN (Fireman)
Roy GRIEVES (District Foreman)
Tom PERGRISON (Manager)

Reports received on May 24, 1977.

This has been catalogued and entered in our file under the reference number N77/70.

Yours sincerely,

[Signature]

RE: OBJEKT

James Wallace FOGGEE
Complaint of Unidentified Flying Object
Harrietsfield, Hfx. Co., N.S.
20 MAY 77

21 MAY 77

1. Patrolled to Birch Lea Trailer Court, C-3, Harrietsfield, Halifax County, N.S., and contacted the complainant. He advised that he and three other people saw the object.

2. The following were interviewed:

   1. James Wallace FOGGEE B: 13 Oct 12, Harrietsfield, N.S.
   2. Joseph Daniel FOGGEE B: 17 Jan 60, Harrietsfield, N.S. (C-3)
   3. Marie Anita FOGGEE B: 14 Aug 22, Harrietsfield, N.S. (C-3)
   4. Mary Madelene SANPSON B: 22 Aug 19, Harrietsfield, N.S. (C-4)

3. Revealed in interviews:

   Object seen 10:30 - 10:45 p.m., 20 May 77. Sky was clear.
   Observed by: James Wallace FOGGEE B: 13 Oct 12, Joseph Daniel FOGGEE B: 17 Jan 60, Marie Anita FOGGEE B: 14 Aug 22, all of Birch Lea Trailer Court, Harrietsfield, N.S. C-3;
   Mary Madelene SANPSON B: 22 Aug 19, C-4 Birch Lea Trailer Court, Harrietsfield, N.S. C-3.
   Observers were in a private vehicle travelling south on Old Sambro Road, Harrietsfield, N.S. Sighting occurred in front of Conways Auto Salvage. Object was described as ball shape with a tail, bright white light almost blue. Object was quite high in the sky, was quite large when first seen but got smaller as it moved away. The tail of the object was same color as rest of object which would be about five feet across. It was difficult to tell altitude of object as it was so high up. Tail was three to four feet long. The object was stopped when first observed. It started to move slowly then quite fast as it disappeared; it was faster than a jet.

4. All four persons seem fairly intelligent but not overly educated. Wally FOGGEE is retired from railroad and the two women involved were in their 50s. Subjects are average people who were out for a drive and had not been drinking. They are quite positive on what they saw. A check with CFB Shearwater revealed nothing out of ordinary going on.

CONCLUDED HERE.

pictures enclosed.
Here are my reports of U.F.O. sightings, any time I have a sighting I will phone first then fill out a report and send it in, thank you for your time, I hope to be in again sometime to look into files on UFO cases, I will make an appointment.

Thank you,

Bill Goosen

27. Information which, you feel is pertinent but which is not adequately covered in the questionnaire, attach it and provide a narrative of the sighting:

Moved faster than a jet, manoeuvred very fast.
**Report of Unidentified Phenomena Questionnaire**

This questionnaire has been prepared so that you can have as much information as possible concerning the unidentified phenomenon that you have observed. Please try to answer all of the questions.

1. When did you first observe the phenomenon? **THURSDAY**, **APRIL 27**, **1975**

2. What time did you first sight the phenomenon? **3** A.M. **10** A.M.

3. What time did you last sight the phenomenon? **3** A.M. **10** A.M.

4. Time Zone: **Unofficial Standard**

5. Where were you when you saw the phenomenon? **In house in kitchen facing**

6. Imagine you are at the point shown in the sketch, place an "A" on the curve to show how high the phenomenon was above the horizon when first seen. Place a "B" on the same curved line to show how high above the horizon the phenomenon was seen last seen.

---

*National Research Council of Canada/Conseil national de recherches du Canada*
8A. Now imagine you are at the center of the compass rose. Place an "A" on the compass to indicate the direction to the Phenomenon when first seen. Place a "B" on the compass to indicate the direction to the Phenomenon when last seen.

8B. In the sketch below, place an "A" at the position of the Phenomenon when first seen, and a "B" at the position of the Phenomenon when last seen. Connect the "A" and "B" with a line to approximate the movement of the Phenomenon between "A" and "B". This line schematically shows whether the movement appeared to be clockwise or counterclockwise. Refer to smaller sketch as an example of how to complete the larger sketch.
8. Where Were You When You Saw the Phenomenon?

9. If you were in a vehicle, complete the following:

- What Direction Were You Moving?
  - North
  - East
  - South
  - West
  - Southeast
  - Southwest

- How Fast Were You Moving?
  - Did you stop anytime while observing the phenomenon?
    - Yes
    - No

10. Describe the type of vehicle you were in and any details of the sighting:

- Were windows of the vehicle open or closed?

11. How much did other things move?

12. Did you notice any smoke? Yes No

13. Time of Day

14. If yes, sketch the object in the box provided.
16. If there were more than one phenomenon, how many were there? Draw a picture to show how they were arranged. Did this arrangement change during the sighting?

E. Specify the major source of illumination present during the sighting, such as the sun, headlights, street lights, etc., and describe illumination, specify distance to light source.

F. Give a brief description of the phenomenon. Indicate: whether it appeared dark or light, whether it reflected light, or was self-luminous and what colors you noticed. Describe your impression of whether it was solid or transparent, whether edges were sharp or fuzzy, describe the shape or indicate if it appeared as a point or light. Indicate comparisons with other observed objects, like stars, a light or other object in your field of view.

It was dark and had a slight reflection.

14. What Draw Your Attention To The Phenomenon?

- Darkness and speed

A. How Did It Finally Disappear?

I went behind a cloud, then I got camera and took picture of an object coming out of cloud that v.f.o went behind.

B. Did The Phenomenon Move Behind Or In Front Of Something Like A Cloud, Tree, Or Building At Any Time? 

- Yes
- No

Flew in front of cloud then behind a cloud.
15. Draw a picture that will show the shape of the Phenomenon, include and label any details that might have appeared: wings or protrusions, and indicate exhaust or vapor trails. Indicate by an arrow the direction the Phenomenon was moving.

16. What was the angular size? Hold a match at arm's length in front of the object, such as a street lamp or the moon, in the same position. The tip of the match should be one end of the angular size chart. How much of the object is covered by the head of the match? A person able to perform this experiment at the time of the sighting, estimate what fraction of the Phenomenon would have been covered by the match head.
17. Did You Observe The Phenomenon Through A Window Or Other Applicable Data?

<table>
<thead>
<tr>

A. Do You Ordinarily Wear Glasses?  □ Yes □ No
B. Do You Normally Read Anything?  □ Yes □ No

18. What Was Your Impression Of The Speed Of The Phenomenon? Give Estimation Or Speed

19. What Was Your Judgment Of The Distance Of The Phenomenon? Give Estimation Or Distance

20. In view of the volume of data included in this report, it is not possible to give a complete picture of what you saw. In describing your observations, you may have noted some objects which were not included in the report. If so, please describe them in detail.

Spinning.

21. Did You Notice Any Other, Noticeable, Or New Effect From The Phenomenon Or Any Effect On Yourself, Animals, Or Machinery In The Vicinity? □ Yes □ No. If "Yes," Describe.

After sighting from inside, I got my camera and went outside, heard very constant noise, disturbing.

A. Did The Phenomenon Disturb The Ground Or Leave Any Physical Evidence? □ Yes □ No. If "Yes," Describe.
22. Have you ever seen this or a similar phenomenon before?
- Yes
- No. If "Yes," give date and location.

23. Was anyone with you at the time you saw the phenomenon?
- Yes
- No. If "Yes," did they see it too?

A. List their names and addresses.

24. Give the following information about yourself:
- Last Name, First Name, Middle Name
- Address (Street, City, State and Zip Code)
- Telephone (Area code and number)
- Age

Indicate additional information including occupation and any experience which may be pertinent.

HAVE READ MANY U.F.O. BOOKS

25. When and to whom did you report that you saw the phenomenon?

26. Date you completed this questionnaire.
SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN HAVE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS.

1. When Did You First See The Phenomenon? Day: ______________ Date: ______________

2. What Time Did You First See The Phenomenon? Hour: ______________ Minute: ______________ Second: ______________ D.A.M. P.M.

4. Time Zone: □ Daylight Savings □ Standard

□ Eastern □ Central □ Mountain □ Pacific □ Other

5. Where Were You When You Saw The Phenomenon? If In City, Give The Nearest Street Address And Indicate On A Hand Drawn Map The Exact Location. Indicate On A Hand Drawn Map The Exact Location With Reference To An Address In The City, Describe The Weather You Were On Or Nearby And Try To Fix A Distance And Direction From Some Recognizable Landmark.

6. Imagine you are at the point shown in the sketch, place an "A" on the curved line to show how high the Phenomenon was above the horizon, or skyline, when first seen. Place a "B" on the same curved line to show how high above the horizon the Phenomenon was when last seen.

---

National Research Council of Canada/ Conseil national de recherches du Canada
6A. Now imagine you are at the center of the compass rose. Place an "A" on the compass to indicate the direction to the Phenomenon when first seen. Place a "B" on the compass to indicate the direction to the Phenomenon when last seen.

7. In the sketch below, place an "A" at the position of the Phenomenon when first seen, and a "B" at the position of the Phenomenon when last seen. Connect the "A" and "B" with a line to demonstrate the movement of the Phenomenon between "A" and "B". Optionally, schematically show whether the movement appeared to be to the right, central, or left. This is an example of how to complete the larger sketch.

Dear Sirs:

RE: Information on U.F.O. Sighting

At approx. 2:40 AM, 19 JUN 1977, Mr. George LONGSON (BD: 4 APR 36) and Rozalia LONGSON (BD: 19 MAR 36) of 6135 Batteson St., Vancouver, B.C., Mrs. Betty WILSON (47 yrs) and her son Roland WILSON (10 yrs) all sighted a U.F.O. from the WILSON's residence at 1845-12th Ave., Prince George, B.C. The conditions were clear and twilight and the object was described as silver, helicopter-type object with no blades or no sound. It was first sighted at approximately 10,000 ft. to the North then it came down to about 5,000 ft, over Prince George, turned, then went back to about the 10,000-ft. level. It also had multi-coloured lights red, blue, orange, green.

When I arrived, I saw the object they saw at the 10,000-ft. level, however, it looked like a star to me. I contacted Baldy Hughes Radar Station to see if they picked up anything on radar; their radar was not working at that time. No further action required.

Yours truly,

Complaint of U.F.O. Siting
Lower Sackville, Hfx. Co., N.S. (19 JULY 77)

(A) DATE & TIME OF SITING:
12:40 A.M. Daylight Savings, Tuesday, 19 JUL 77

(B) CONDITION OF SKY:
Clear visibility

(C) IDENTITY OF OBSERVERS:
1. David Francis CURRAN, 16 Hillside Dr., Lr. Sackville
2. Maxwell CROUSE, 50 Brook St., Lr. Sackville
3. David L. KERR, 160 Balm Circle, Lr. Sackville
4. Paul Eric KERR, 160 Balm Circle, Lr. Sackville

(D) LOCATION OF OBSERVERS:
Hillside Drive, Lower Sackville, N.S.

(E) IDENTITY OF OTHER PERSONS WHO WITNESSED U.F.O.:
Same as (C) - No others

(F) DESCRIPTION OF SITING:
One U.F.O., square in shape; two windows with two figures in windows with a green hazy light coming from windows. Red, blue, green and white lights around the perimeter.

(G) DURATION OF OBSERVATION:
Approximately 61 minutes.

(H) U.F.O. hovered for five minutes at approximately one hundred feet with no sound, then moved a bit in a semi-circle, then vanished. All of the observers although not drunk, had had something to drink.

Re: Report of U.F.O. sighting
Mile 543, Alaska Highway
Fireside, B.C.

30 Aug 77

Archibald McDonald contacted about his sighting report at Fireside at the Chevron Gas Station where he is owner/manager.

2. He now feels that his initial report was a little hasty as he has since observed the same object on several other occasions in the same position. He now feels his sighting would probably be the planet "Venus". He feels a "bit silly" over the whole thing and said he probably jumped the gun on the report.

3. I spoke with Pat Bohmer of Fireside and she feels McDonald is quite normal. It was also learned that McDonald has a keen interest in Astronomy and U.F.O.'s alike and feels he is quite competent in his assessment of most of his observations.

4. I feel that Mr. A.R. McDonald is sincere in his original report and due to his admissions of overestimation of the situation, is probably more accurate in his planet theory. In conclusion I feel that this sighting doesn't warrant any further investigation.

(R.J.L. Lemeeley) Supt.

(R.J.L. Lemeeley) Supt.

Picture of 'UFO'?

THE PICTURE ABOVE is for believers, skeptics and confirmed non-believers in that much publicized and much debated running television dialogue on 'flying saucers' - or 'UFO's' (unidentified flying objects).

What's unusual about this particular picture is that Mark Kopecky says he took this picture from his second floor porch in Cedar Corners last Wednesday afternoon, about 2:30. Your Record-Herald reproduced the above picture from a colored Polaroid picture that Kopecky brought to the newspaper office Friday afternoon, after phoning the editor Thursday night to tell him about the picture and inquire as to who he should notify. Tampering with a Polaroid picture is by some described as difficult, perhaps impossible.

Kopecky, with his wife and daughter, Kristy, 3 1/2, have been renting the upstairs apartment of Al Schwedler in Algoma for more than a year, having come to Algoma from Racine so he could work in Sturgeon Bay. His father had preceded him to this area, and lives in Lincoln town.

In relating his experience to the Record-Herald, Kopecky said that he was sitting on their back porch with his daughter, who he said first saw the object and said, "Daddy, look!

That he did, thinking that she was on other occasions directing his attention to a bird or other attraction of nature new to an alert young mind. He had his Polaroid camera nearby, he said, because he had just finished taking pictures of the family pet, a cat.

In all Kopecky took three pictures in rapid succession, at different settings, drawing them each out and developing them later, the one reproduced here being the clearest.

Kopecky said that the object was north of the Schwedler's, about half way to the river, which is about 500 feet distant. It hovered, he claimed, about two minutes in the center of an open field toward the river, sort of "drifting," he said.

There was, no sound," he recalled.

If there was one minute, he told a reporter "and it was suddenly gone the next." He said that the picture, under magnification, showed what seemed to be "perforations." Of the disappearance, he couldn't believe it "because of the tree cover.

He told another person that it took off in a flash of greenish-purple, and he thought he noticed light from the object.

Kopecky, admitted, "I don't believe in this stuff, technically," and described the experience as a "funny feeling."

Last Wednesday's Manitowoc Herald-Times carried a story about another reported sighting of a "UFO" at Elmwood, Wis., in Pierce county, west of Eau Claire and almost 300 miles directly west of Algoma. Elmwood is near the western boundary of the state.

A police officer of Elmwood, George Wheeler, was reported by the Manitowoc newspaper to have seen his second UFO in little more than a year.

"I don't know what I saw," he was reported to have said.

BNF77/180 AT 10180 PM 4-6-77 LARGE RED SPARKLING CIRCULAR MASSES OBSERVED TO DESCEND RAPIDLY AND DISAPPEAR NEAR BOW RIVER BEHIND BANFF MINERAL SPRINGS HOSP. VISIBILITY GOOD WITH LIGHT CLOUDY CONDITION. OBSERVER IS ONE MELANIE MANDRYK 87-1-61 OF 107 SPRAY AVE BANFF ALTA. AT THE TIME OF THE INITIAL SIGHTING MANDRYK WAS ON SPRAY AVE NEAR THE HOSPITAL. FLWG INITIAL SIGHTING MANDRYK WALKED BEHIND THE HOSP WHERE FLWG DESC OBJECT OBSERVED IN THE TREED AREA BETWEEN GLEN AVE AND THE BOW RIVER. CIRCULAR MACHINE WITH A CONE SHAPED TOP AND VIDE CIRCULAR BASE FLASHING WHITE LIGHTS COVERED THE TOP PORTION OF THE CONE APPROX 4 FEET WIDE WHILE A RING OF RED AND WHITE FLASHING LIGHTS WERE EVIDENT ON THE LOWER WIDER PORTION APPROX 10 FEET WIDE. ALL LIGHTS APPEARED TO BE REVOLVING. NO NOISE WAS EMITTED FROM THE MACHINE WHICH AT ONE POINT APPEARED TO MOVE CLOSER TO MANDRYK WHO WAS SOME DISTANCE AWAY (EXACT ESTIMATE NOT KNOWN). A DESK CLERK AT THE HOSP, SHIRLEY PEARSON, ALSO OBSERVED THE FLASHING LIGHTS FROM THE HOSP IN THE PRESENCE OF MANDRYK. ON ARRIVAL OF POLICE MINUTES LATER NO EVIDENCE OF SIGHTING COULD BE FOUND. FURTHER CHECK IN AM OF 5-6-77 HAS REVEALED NO PHYSICAL EVIDENCE REPORT TO BE FORWARDED.

PRIORITY BNF AUS UNCLAS
At approximately 10:30 PM, 04 AUG 77, a call was received at the Banff Detachment office from Shirley PEARSON of Banff advising a U.F.O. had been sighted in the area to the rear of the Banff Mineral Springs Hospital. Immediate patrol to Glen Avenue behind the hospital where attending members were met by one Melanie MANDRYK also of Banff, Alta.

MANDRYK advised she had been walking up Spray Avenue at 10:20 PM and was just passing the front of the Mineral Springs Hospital when she sighted a large red circular mass descend rapidly and disappear behind the hospital. Visibility at this time was good. MANDRYK walked to the rear of the hospital which borders Glen Avenue where the following described object was observed in the treed area between Glen Avenue and the Bow River. MANDRYK described same as a circular machine with a cone shaped top and a wider circular base. Flashing white lights covered the top portion of the cone while a ring of red and white flashing lights were evident on the lower portion. Both sets of lights appeared to be revolving. The top portion was estimated at approximately 4 feet wide while MANDRYK estimated the lower portion at approximately 10 feet in diameter. MANDRYK immediately retreated to the hospital where she notified desk clerk Shirley PEARSON. Both women then observed the flashing lights from a rear window in the hospital whereupon PEARSON telephoned this office. Just prior to arrival of police, MANDRYK again left the hospital to the rear and continued to view this object. MANDRYK advised the object appeared to move towards her and at this point she again retreated to the hospital. No noise was emitted from the machine during the course of observation which is estimated at two minutes. On arrival of police shortly after, the area between Glen Avenue and the Bow River was checked on foot with no physical evidence coming to light. A subsequent check of the area during daylight hours in the AM of 05 AUG 77 also met with negative results. No additional sightings were reported.

Upon interviewing MANDRYK and PEARSON it appears their information as they have related is genuine although no physical evidence is available to support same. Information to support the sighting of an object other than a U.F.O. has not been forthcoming. Appropriate action will be taken should further sightings be confirmed.

We were driving west on Highway # 49 around 9:30 - 9:40 P.M. on Saturday, 6 AUG 77, and sighted a orangy flame north west in the sky. At first we thought it could have been the sun shining through the clouds as the sky was dark with rain clouds. As we slowed down driving, this object was flying towards us. It got real big and came so fast we stopped our truck. As we stopped, the object stopped behind the windstrip. It was on the west side and we were on the east. We saw the glow through the trees. We started again and it started to come towards us again. My husband estimated about 60' - 100' long and 30' deep at the centre. We sighted it for approximately 5 minutes. When it left, it disappeared within 30 seconds back towards west-north. We first sighted it approximately 2½ miles from Eaglesham junction on Highway # 49 and it seemed to hover approximately 4½ miles from junction on the north side of the highway. It was a firey orange color and shaped like a upside down saucer. We were approximately ½ mile from it when we were stopped and it was stopped.

I was present with my wife and witnessed the above happening and I agree with her statement.

SIGNED:...
7 AUG 77, Eaglesham

SOOKE 77-54 REL: MRS HARY SCHOOLING - U.F.O. SIGHTING, SOOKE, BC
11 Aug 77 SOOKE DETACHMENT CASE

C/F AT APPROX 81:50 HRS PACIFIC DAYLIGHT TIME 11 AUG 77 SAW WHAT
SHE THOUGHT WAS A U.F.O. THE LOCATION FROM WHICH THE OBSERVATION
WAS MADE WAS NEAR THE CORNER OF MAPLE ROAD AND WEST COAST ROAD
IN SOOKE, BC. AT THE TIME OF THE SIGHTING THE SKY WAS CLEAR AND
SUNNY. SCHOOLING STATED THAT ANOTHER FEMALE PRESENT, WHOSE NAME
SHE WOULD NOT DIVULGE. ALSO, SAW THE U.F.O. SCHOOLING STATED
THAT THE U.F.O. WAS SILVER IN COLOUR, WAS SHAPED LIKE A ZEPPELIN
ONLY SMALLER, HAD RED MARKINGS ON WHAT SHE THOUGHT WAS THE BACK,
MADE A SOFT HUMMING NOISE AND HAD NO TAIL OR WINGS. SCHOOLING
ADvised THAT THE U.F.O. HOVERED OUT OVER THE SOOKE BASIN FOR A
SHORT WHILE AND THEN HEADED EAST. IT SUDDENLY CHANGED DIRECTION
AND HEADED WEST UNTIL IT WAS OUT OF HER SIGHT. IT WAS POINTED
OUT TO SCHOOLING THAT METEOR FRAGMENTS WOULD BE SEEN IN THE SKY
DURING THE NEXT FEW DAYS. HOWEVER, SCHOOLING REFUSED TO BELIEVE
THAT THE SIGHTING WAS A METEOR FRAGMENT. NO OTHER INFORMATION
WAS ABLE TO BE OBTAINED REGARDING THIS INCIDENT.

"We were driving west on Highway # 49 around 9:30 - 9:40 P.M. on Saturday, 6 AUG 77, and sighted a orangy flame north west in the sky. At first we thought it could have been the sun shining through the clouds as the sky was dark with rain clouds. As we slowed down driving, this object was flying towards us. It got real big and came so fast we stopped our truck. As we stopped, the object stopped behind the windstrip. It was on the west side and we were on the east. We saw the glow through the trees. We started again and it started to come towards us again. My husband estimated about 60'-100' long and 30' deep at the centre. We sighted it for approximately 5 minutes. When it left, it disappeared within 30 seconds back towards west-north. We first sighted it approximately 2½ miles from Eaglesham junction on Highway # 49 and it seemed to hover approximately 4½ miles from junction on the north side of the highway. It was a firey orange color and shaped like a upside down saucer. We were approximately ½ mile from it when we were stopped and it was stopped."

SIGNED: [redacted]

"I was present with my wife, and witnessed the above happening and I agree with her statement."

UAR/REED
ELI ANDROSCUK, LIVING 9 MILES SOUTH AND 2 EAST OF SEBA BEACH ALBERTA, Reported a Luminous U F O IN THE NE CORNER OF THE SKY. FIRST SIGHTING AROUND 9:10 AM AT ABOUT AN ESTIMATED 1 MILE DISTANCE. AT ONE POINT IT CAME QUITE LOW BELOW A HILL AND THE HORIZON 1/8 TO 3/4 MILE FROM SUBJECT. NO CLOUDS IN SKY. OBJECT APPEARED MOSTLY IN THE AREA OF THE SUNDANCE THERMO ELECTRIC PLANT NEAR WABAMUN.

R C N P EDMONTON
At 4:05 A.M. on the 13 AUG 77 a complaint was received of an U.F.O. sighting at Seba Beach, Alberta. The complainant, Eli ANDROCHUK of Forestburg, Alberta, was calling from 9 miles south and 2 miles east of Seba Beach, Alberta. He stated that he saw an U.F.O. above the Sundance Power Plant near Lake Wabamun, Alberta.

An immediate patrol was made to the Sundance Power Plant. Arrival at the plant was at approximately 4:35 A.M. on 13 AUG 77. The results of the search near the plant and the surrounding area was negative. The search was concluded at 5:20 A.M. on 13 AUG 77.

In Appendix "A" the location of the sighting is indicated as number 1 and the Sundance Power Plant as number 2.

The U.F.O. was sighted on 13 AUG 77 at approximately 3:00 A.M. near Seba Beach, Alberta, which is in the Mountain Standard Time Zone. The sky was clear during the time of this sighting and it remained clear. Visibility was very good.

The object described by ANDROCHUK was like a star but much bigger and it was emitting much more light. The object was circular and about one quarter the size of a full moon. A white light was shining at an angle from a central point. The light at times changed density. ANDROCHUK did not hear any sound.

The object was observed moving up, jiggling and moving horizontally. ANDROCHUK gave a statement describing what he saw. This statement is attached as Appendix "B".

ANDROCHUK stated that he was not really a believer in U.F.O.'s. However, he thought his sighting should be reported.

ANDROCHUK's mother, Helen, who lives at the location of the sighting also saw the object. Mrs. ANDROCHUK speaks very little English.

ANDROCHUK seemed sincere.
STATEMENT OF: Eli ANDROCHUK

C/o Dominion Bridge
Forestburg, Alberta

At approximately 3:00 A.M. on 13 AUG 77 while driving from Edmonton to visit my parents near Seba Beach, Alberta, I noticed an object in the sky where the Sundance Power Plant lights are. In that area there was a really bright clear white light instead of the usual red lights of the chimneys. I watched the lights while driving. At this time I was about five miles south of Highway No. 16 heading south. I watched it. It wasn't moving as an airplane would be moving. When I turned east I was able to observe the object more often. It went down and went up. That really attracted my attention. When I arrived home it was near the horizon and it disappeared on the other side of a big hill which forms the horizon at this point. Then it came up again. I then watched it for ten minutes. It moved up, jiggled, more horizontal action than vertical. It was slowly rising. At this point I figured that I would wake up my mother. She came out. We watched it for 20 - 25 minutes. It was jiggling but slowly moving to the south and rising. At this point which was about 3:30 A.M., I gave up. My mom went to bed. I called the RCMP and informed them of what I had seen. After this, I again went to watch it. It had moved south but the light intensity did not change. It had risen one quarter up the horizon. The shape and size was the same. It watched for a minute. It was still going south and moving to the south and was still rising. I then went to bed.

My experiences with sonar control of producing visual sightings of audible sound. My only experience that I can mention not in confidence at this moment would be the one approximately on or about June 73 at 865-14th Ave. Lachine Que. Time 12:00 noon, while taking a bath I visualized in a hazy but quick and to the point manner a

Diagram 1)

N77/10

Just visual but sensory.

Multicolor star two to three feet over my head. I paid no attention to this phenomenon what so ever except to pass it off as unusual eye shadow. Now that I think about it, it seems as if my body sensed a projected field of some sort just over my washroom.

More and detailed material available and much more important to come after we agree to the type of correspondence to be used.

Thank you.
A) These I assume 'sonar control experiments have been carried out on a friend of mine who was unsure of how the visuals & sounds he experienced came about.

1st SIGHTING.

DATE: JUNE 73
TIME: 10.00 AM

Type: Visual & Whole
Place: 300 Avenue Lachine Plaza

INCORPORATION WITH OPENING OF PLAZA

Attracted him with this image at a height of two storeys the size of a 8” diameter.

Sound of whipingwind in distance.

Hazy or smoky image

Sound audible was of who voice in ear, saying "Now we have you."

FIRST: THREE COLOUR CIRCLE Appeared to be spinning
SECOND: THE CROSS SHAPE formed
THIRD: THE COBRA formed

Cobra looked as if slithering down and then appeared face to face with him. "Or so seemed" in attack position and hypnotic state.

"Vanishes" (seen under hash beer, hash, mood)
2ND SIGHTING.

DATE: Sept. 73
TIME: 11 P.M.
TYPE: VISUAL + NOISABLE
PLACE: 1ST Ave. MACHINE QNS + HIGHWAY 2

THE SOUND OF PURSATING WINDS IF CAUSED BY QUICK MOTION OF THIN WIRE OR WILLOW STRAND WOKE UP INDIVIDUAL AS THOUGH BECKONING HIM TO ITS DESTINATION. WHEN INDIVIDUAL LOOKED OUT OF WINDOW HE SIGHTED AS THOUGH THERE WERE 2 OBJECTS HOVERING OVER TENSION WIRES AGAIN APPROX 2 STOREYS HIGH AND 8 INCH DIAMETER.

THE FOOTBALL-LIKE OBJECTS
BLACK IN COLOR
OMED LISENCE PLATE
WITH ADDITIONAL FLASHING LIGHTS.

PERSON HAD HAD ENOUGH OF THESE SIGHTINGS SO WENT TO B.D.O.

ALSO UNDER THE INFLUENCE OF HASH + ALCOHOL.
3-4 sightings

Date: 1975
Time: 9:00 P.M.

Type: Visual + Audible

Places:
- Deckin Ave, Tor. Harbour Front Area
- Broadview & Danforth Riverdale Park Area

Wings: Black

Tail: Yellow

Object: Silver

Holes: Smoking

Hazy & Smoky

Missile Sound

"Also under influence of hash & tobacco"

Many more sightings have occurred but only audible
Always ending in "Don't tell anybody"
Those sightings of my friends happened first in Lachine Quebec 1973. Mine were prior to this but more to the aspect of physical control than audible/visual.

My family history stems from Ukraine, my uncle Alexander Malitzki was imprisoned in Siberian Tails for 15 years now.

I have heard of Soviet sonar control experiments and am wondering if I and friends could be Guinea pigs. Also, am wondering if by controlling sonar frequencies man can protect pictures from audience sound using the atmosphere as screen & if it is possible to control the physical not only in its biological functions but in its logical functions.

I am sincerely looking forward to hearing from you on this matter and do have much, much more data on my own experiences if held in complete confidentiality.

P.S.

Sorry can't be more explanatory or meet.

P.S.P.

Believe me, my friends are beginning to worry about me. Sorry not me though, I'm sure of my comprehensions.

Letter in File 4712-5
addressed to Cst. Radcl
On the 4 SEPT 77 at approx 8:00 P.M. the c/n called our detachment office advising that something had landed in his field causing marks in his wheat field.

On the 5 SEPT 77 at approx 11:00 A.M. the writer attended at the c/n's farm and in conversation with the c/n he stated that something had landed in his field causing large circles. He showed the writer these large circles which measured 15" in diameter and had pushed the wheat in a counter clockwise circle compressing it very tightly. I took pictures of these circles which numbered about six in various parts of his field.

On the 6 SEPT 77 I went out to the c/n's farm again where he showed me some more of these circles in his un-cut portion of his wheat field. He stated by judging the size of the wheat head, these circles were caused over the last week and a half. In this field, there were no tracks leading to these circles. To date I have found no explanation of what could have caused these circles. This report and pictures are being forwarded to Mr. A. CLAUDE of the Nat. Research Council in Ottawa for his information.

COPY EDMONTON ACC

OPERATOR AT WATSON LAKE AERADIO(Y-T+) RECEIVED A TELEPHONE CALL TONIGHT IN REGARDS TO A POSSIBLE U.F.O. SIGHTING IN THE VICINITY OF LIARD RIVER. B.C.(5985N 12618) REPORT REPEATED AND FORWARDED TO YOU READS AS FOLLOWS TIM OROURKE CALLED FROM LIARD RIVER AT 10:56 PM YST SUNDAY, SEPTEMBER 16, 1977 SAYING THAT ALONG WITH TWO AMERICAN AIR FORCE PEOPLE STAYING AT HIS LODGE, HE HAD JUST BEEN WATCHING FLASHING RED, BLUE, AND WHITE LIGHTED AIRCRAFT AT ABOUT 20,000 FEET OR HIGHER. THEY WERE IN THE WEST NORTH SECTOR OF THE SKY AND SEEMED TO BE BY MANY SMALLER AIRCRAFT CONVERGING ON A LARGER AIRCRAFT AND APPARENTLY DOCKING. THEY APPEARED TO JUMP FROM RIGHT TO LEFT AND BACK AT A REMARKABLY UNUSUAL SPEED. UPON QUERIYING ONE AMERICAN MILITARY TYPE, HE TOLD ME THAT IT WAS HIGHLY UNLIKELY THAT IT WAS AN AMERICAN MILITARY HIGH ALTITUDE, MIDAIR REFUELING EXERCISE. THE PHENOMENA WAS SPOTTED AT ABOUT 10:00 AM ON SEPTEMBER 17, 1977, AND HE CALLED AT 11:30 PM ON THE 16 OF SEPTEMBER AT WHICH TIME TIM O/OURKE CALLED ME AT WATSON LAKE AERADIO.

I THEN TOLD MR. O/OURKE THAT I WOULD CHECK THIS WITH EDMONTON. I THEN QUERIYED EDMONTON ABOUT HIGH LEVEL TRAFFIC AND THEY HAD NO TRAFFIC IN VICINITY AT ALL. MR. O/OURKE THEN CALLED BACK AND REPORTED THAT THE LARGER AIRCRAFT HAS DISAPPEARED AND ONE SMALLER AIRCRAFT HAD DEPARTED TO THE WEST, ONLY TO BE REPLACED BY FOUR (4) MORE SMALLER ONES FROM THE NORTH WHO SEEM TO BE JUST HOVERING AT THIS POINT AFTER RISING. WHAT APPEARED TO BE STRAIGHT UP FROM THE HORIZON.

THE WEATHER MAN AT WATSON LAKE TRIED TO FIND THE LIGHTS AND DID NOT SEE ANYTHING. THE RADIO OPERATOR IN FORT NELSON ALSO ATTEMPTED TO SPOT THE LIGHTS WITH NO LUCK. HE REPORTED THERE WERE CLEAR SKIES WITH A VERY SMALL AMOUNT OF AURORA BOREALIS IN THE NORTHEAST SECTOR. THE SKIES WERE CLEAR AT BOTH WATSON LAKE AND LIARD RIVER WITH NO AURORA REPORTED AT EITHER STATION. MR. O/OURKE'S PHONE NUMBER (NO. D.O.D.) IS COAL RIVER EXCHANGE (B.C.) NO. -4441 +. MR. O/OURKE OWNS THE LIARD RIVER LODGE LIARD RIVER B.C.

END OF REPORT

UPON WATSON LAKE

NRC OTT

NOT OTT
1. At approximately 11:20 a.m. this date, Mr. GALLANT reported
he had spotted an unidentified flying object at approximately 7:00 a.m.
ADT. Mr. GALLANT was contacted and he advised the object which he
described as oval shaped with three windows, grey in color, was larger
than any airplane he had ever seen and had no audible sound. He also
advised that Margaret FETERS and Arthur GALLANT had also seen this object.

2. Arthur Gregory GALLANT (B: 1 MAY 20), was contacted and he advised
he had also seen this object in the clear sky from his home in Rusticoville.
He stated the object was east of his home and described it as oval in
shape, greyish color, about 1000 feet off the ground. He stated he could
not estimate the speed it was travelling as he had only glanced at it
and felt at first it was a cloud until he talked with his neighbour, Mr.
Lawrence GALLANT.

3. Margaret FETERS (B: 23 MAY 15) contacted and she advised that
she had seen this object from Highway #13 in Mayfield and it was travelling
in a north easterly direction. She described it as a smoky colored object
with a black spot in the middle. She felt it was approximately two feet
long and 1000 feet off the ground. She observed the object with her
brother Lawrence GALLANT for approximately 3-5 minutes.

4. The weather office in Charlottetown was contacted and they
advised they didn't send any weather baloons up and had no idea what the
object may be. The weather office at CFB Summerside advised they had
no weather baloons up either and could provide no assistance as to the
identity of this object.

5. It is felt by the writer that the reliability of the above
persons as witnesses to the UFO is questionable. It might also be noted
that Arthur Gregory GALLANT, a reported witness, was of the opinion the
object was a cloud until talking it over with his neighbour.

6. No further action will be taken on the matter at this time as it
is felt by the writer that the object in question was in all probability
a cloud.

SS137 ON 9/OCT/77 AT APPROX 12:30 AM. ROSEMARY ANGER OF BEDEQUE PEI CALLED THE SUMMERSIDE DETACHMENT OFFICE AND ADVISED THAT WHILE ON ROUTE TO THEIR HOME SHE AND HER TWO DAUGHTERS HAD OBSERVED AN UNIDENTIFIED FLYING OBJECT AT DAY'S CORNER. PEI AT APPROX 11:50 PM ON 9/OCT/77. AT THE TIME OF THE SIGHTING, IT WAS RAINING QUITE HEAVILY. MRS. ROSEMARY ANGER AND HER ELDEST DAUGHTER, KIM GREENCORN, AGE 21, NOTICED A LIGHTED OBJECT TO THEIR LEFT AND AHEAD OF THEIR VEHICLE. THE OBJECT APPROACHED THEIR VEHICLE AND THEY WERE ABLE TO OBTAIN A GOOD LOOK AT SAME. ANGER STATED THE OBJECT APPEARED TO BE SIMILAR TO TWO LAMPSHADES INSIDE A WIDE 'V'. ENCIRCLING THIS OBJECT WAS A SOR T OF GLOW AND OVER THE TOP A MIST. ANGER STATED IT PASSED RIGHT OVER HER VEHICLE AT A HEIGHT OF APPROX 50 FT AND WHILE DOING SO THERE WAS A SORT OF BOOM AND THEN A LOUD SCRATCHING SOUND. ANGER THEN LOST SIGHT OF THE OBJECT. THIS SIGHTING ONLY LASTED A FEW SECONDS. THE YOUNGEST DAUGHTER IN THE VEHICLE, ECHO ANGER, DID NOT SEE THIS OBJECT. HOWEVER, ALL THREE PERSONS HEARD THE SOUND.

Rosemary ANGER
Sighting of Unidentified Flying Object
Day's Corner, PEI - 1 OCT 77

1. At approximately 12:30 a.m., Rosemary ANGER of Bedeque, PEI called this office and advised that while en route to their home she and her two daughters had observed an unidentified flying object at Day's Corner, PEI at approximately 11:30 p.m. on 1 OCT 77. At the time of the sighting, it was raining quite heavily. Mrs. Rosemary ANGER and her eldest daughter, Kim GREENWOOD, age 21, noticed a lighted object to their left and ahead of their vehicle. The object approached their vehicle and they were able to obtain a good look at same. ANGER stated the object appeared to be similar to two lampshades inside a wide "Y" with the light from the two lampshades being brighter than that from the "Y". Encircling this object was a sort of glow and over the top a mist. ANGER stated it passed right over her vehicle at a height of approximately 50 feet and while doing so there was a sort of hiss and then a loud scratching sound. ANGER then lost sight of the object. This sighting only lasted a few seconds. The youngest daughter in the vehicle, Echo ANGER, did not see this object. However, all three persons heard the sound.

2. Cst. R. W. Allan and Cpl. D. G. Butt patrolled to the area of the sighting with negative results. Cst. J. J. Bark and myself also made a patrol to the scene with negative results.

3. There were no further sightings reported.

CONCLUDED HERE:

Cst. (K. G. Gock) #30136
Summerside Detachment

(C. B.) S/Sgt. 1/4 Detachment
U.F.O. REPORT

Report telephoned to NRC by the observer, Mr. Dawson, on Oct. 11, 1977.

The following verbal account was recorded:

Location: Central Newfoundland, from a boat on a small river 8 miles south of the Gander River bridge on the Baie d'Espérance Bay.

Observer: Mr. Barry Dawson (Ottawa phone number: 821-1762)
ECMP Corporal, retired.
Private pilot for 15 years.
At present, postmaster at Metcalfe, Ontario.

Observations:
Sky completely clear. Glanced up while rowing. He was alone. Noticed what appeared to be a high flying jet with short contrail. About 45° above horizon on a bearing of 265° mag. (obtained from his compass). However, after 10 minutes it had not changed position so he concluded that it was not a jet.
No discernible shape except that it was roughly conical or fan shaped, with the apex at the top and the base at a lower elevation angle.
He watched it for 35 minutes. Saw a brief glint from it occasionally.
He checked with a couple of local meteorological stations to see if radiosonde balloons had been released, but details did not match well.

Commentaries:
The description is very much that of a high altitude balloon. The last known research balloon launch in Canada was 26 Sept. from Red River, Man. Balloons are supposed to have command or terrain cut-downs but there have been known to fail and the balloons to stay up for a long time. Such derelict balloons could drift from almost anywhere in the northern hemisphere. Before September the dominant high altitude drift was E-W, wind speed observed in September, and the drift became W-E. If it was a derelict balloon it could have come from almost anywhere and would be difficult to trace. CM

Dear Sirs:

Re: Unidentified Flying Object

Enclosed for your information, Salmon Arm Detachment correspondence dated November 2, 1977.

Yours truly,

[Signature]

T.M. Gardiner, Supt., M.
Officer In Charge
Criminal Investigation Branch
District 2 - "E" Division

cc NGO 1/c Salmon Arm Detachment
1. On 14 OCT 77 at approximately 10:14pm, Pacific Daylight Time, a telephone report was received at this Detachment informing that a mysterious flying object was spotted approximately 10 miles South of Salmon Arm B.C. The object was described as a bright light bulb shaped, white light, with no tail. The light appeared to bounce around in the sky for approximately 15 minutes, then came down to the ground. The altitude of the object, when first sighted along with the exact area it appeared to come down in is unknown.

2. The incident was reported by Christine THIELMAN (16 yrs) of Grandview Bench Rd., near Salmon Arm B.C. THIELMAN was at her home approximately 15 miles South East of Salmon Arm at the time of the sighting. The sky was clear at the time.

3. Police patrols were made immediately after the report was received, along with subsequent patrols for a few days following, and nothing was found. Enquiries with Air Traffic Control in Kamloops and Vancouver revealed that no aircraft were over this area at the time of the sighting. No other reports were received from other persons in regards to the U.F.O.

4. In view of the above and the lack of anything further to indicate what the object was our file will be as here-under noted.
