Thought what the use of making them there sometimes a perfectly logical explanation for it - moon, airplane, helicopter. I must add that being a former pilot, I had got to run across an aircraft like this one. Then when the red disc appeared I tried to make a joke of it to myself, "You encounter of the third kind - very funny house, you know you don't believe in these things." Then I, I had the feeling that the red disc would see me with its blue center it looked like an eye. I wanted to wake some one up but couldn't cold sweat, heart racing etc. I don't think I have ever felt so frightened by anything. It was a very eerie feeling. The entire distance from the highway to town probably took about 3 minutes or less, it seemed like hours. When I got to the church corner it appeared to be about 120° angle in relation to it. So it was straight up and it was quite near the shoreline, maybe 2000 feet altitude (very rough estimate). Then I asked Beryl to wake up & look at this, quick, having gotten ahead of myself somewhat. In order for her to see it she had to lean out of the seat and look up through the windshield, while she was doing that it vanished. Just disappeared.
There was some fog in the sky but very shallow. There were stars and a few northern lights. At this point, one begins to try to deduce what this is. I had concluded that it wasn't the moon because of the light. I had to drive very slowly because of the ice. Then the light stopped moving. The moon-shaped object grew into a full-moon shaped round light not really shining, but quite a bit like the moon-yellowish while. Then moving out from behind it came a red glowing disc with a blue glowing center. So how we have a lighted wisp of long red legs, a moon-like disc, and a red, blue centered disc. Then the whole issue moved forward away and stopped. It moved very rapidly in a westerly direction. Then the red disc shifted forward in a slow motion type of way, back behind, into the moon-like disc and the moon-like one went back the way it had been when I first saw it. The discs had caught up to the definite shaped leg wisp. Then also, at this time, appeared to be some kind, of exhaust trail behind it. Then it performed the entire process over again twice.

Now, my reaction to this went through quite a series of changes. First of all, all the other occupants of the car were sleeping. At first I
This time I had gotten up from bed to let the cats out the kitchen door. Directly in my line of vision, probably slightly north of east over my father-in-law's hay shed, but behind it over the lake at about 120° vertical (or more) was a large white light shining like a Star, but bigger. It was triangular. A triangle and seemed to pulsate. There were red-type sparks or beams coming off the top point. The triangle would flare out then go roundish. It appeared to be settling down in a swinging degree of motion like a sheet of paper that had been released in the air. It was lowering. Then I started back to go tell my husband, then turned back again to look and make sure I wasn't seeing things. It was still there. When I told him he said it was still there at 6:00 am when the alarm rang that he would see it. (He doesn't like to be waken up by anything!) So I went back to bed and got up at 6:00 and it then looked like just a very bright star but had moved about 45° around the sky and was much higher in the sky. My husband saw it then I agreed that it couldn't possibly be a star as it looked big and close. Very bright.
It kept rising higher into the sky and getting smaller and seemed to have a fog or more around it. We looked at it through binoculars and it was a definite object. (This was about 7 a.m.)
The light through the binoculars was glaring, like molten steel, and very white. We watched it until 8:45. It was then longer than the stars. At 9:00 a.m. it had disappeared because of cloud cover.

Dec 14.

Some one as above, since we got up a little later we saw it at about the same time, in previous description and also followed the same path as the day before.

BOM90 REPORT OF U.F.O. SIGHTING IN CATALINA. TRINITY BAY, Nfld. at 00:06 10-31. Sky at the time was very clear. The sighting was observed by Mrs. Irene Lodge, Mr. John Jeans, Mr. David Lodge and Mr. Albert Haynes, all of CATALINA. Observers were located on the shore road in CATALINA. Description of sighting is as follows: OVAL SHAPED WITH FLASHING LIGHTS - RED, BLUE AND PURPLE. Altitude estimated at approx. 8000 FT. Above the Harbour in CATALINA. Observation was for approx. 15 minutes, when it disappeared it just went straight up into the sky. It is felt that this may have some connection with the recent sighting on Random Island near Clareville, Trinity Bay, Nfld. Witnesses were interviewed shortly after sighting. No indication of Alcohol or anything else that may have influenced the sighting.

Further to our priority Telex No: GB 565 dated 78 NOV 06, an additional investigation has been conducted. The four observers were contacted and statements obtained.

2. These four statements are attached as:
   - APPENDIX "A" - Statement of Eldred MESSHER
   - APPENDIX "B" - Statement of Pauline MESSHER
   - APPENDIX "C" - Statement of James BROWN
   - APPENDIX "D" - Statement of Jacquelyn MATTHEWS.

3. During the time of this sighting, a number of sightings had taken place in the Clarenville, Nfld., area. There was a great deal of publicity; as a result of which, people were seeing all sorts of objects which were later identified as stars.

4. One of these objects was pointed out to myself and viewed. The object was stationary and was seen in the same spot for several nights during the observation period. It did appear to have white, red and blue lights on it. Several of these objects were seen by the writer and by other people. They were in different locations and all were stationary. At the time of this particular sighting, the members of the Detachment on patrol did not sight the reported object.

5. The four witnesses are not known as to their reliability. They all appeared knowledgeable and gave basically the same story. BROWN has problems with his eyesight - he has trouble distinguishing colors. MATTHEWS did not really take a long look at the object, as she stated she was afraid and, therefore, just looked at it once in a while. There were no confirmations of this sighting from anyone else in the area.

6. In view of the foregoing, no further action will be taken at this point unless requested.

"CONCLUDED HERE."

"There was me, my wife Chickie, Jim BROWN and his girlfriend Jackie MATTHEWS, just out riding around. We turned up on Corte Real.
That's when Chickie looked up and said 'What's that?'. I kept going ahead to get clear of a street light and then I pulled off onto the side of the road. I saw two bright blue lights flashing. They seemed to be oh the bottom. It seemed to be heading in a North West direction. Then I chased it towards the Centennial Centre. When on the back road, the object stopped and then I stopped. I started to flash the car lights and the object did the same. The blue lights were flashing. It seemed to have a string of yellowish lights right around it. There was a red light on the top but it wasn't blinking very fast. Where it had stopped, it seemed to turn around and started to come towards the car. It started to come down lower, from an altitude of approximately 500 ft. to about 200 ft. It was roughly 1000 yards away. I knew it was not an aircraft because I could not hear any noise coming from it. The car was still running but it is very quiet when idling. When it came towards us, it stopped for a few seconds and then moved off to the left. It headed towards Spruce Park and then off towards the Docks. When it left, it turned off all of its' lights except for one bright flashing blue light and the red one.

When it went towards the Dock, I lost it in the lights. 'I don't know if it went up or down. The object travelled at various speeds. I did see an aircraft going towards the Base before I saw that object.

The sky had a slight overcast. This was about quarter to two in the morning. I was not drinking before, during, or after the sighting. The two women were nervous with what they saw. The object flashed its' lights at the same speed as I flashed the car lights."

1959 hours

SGD: Eldred A. MESHEN
"I was in a car with James BROWN, my sister Jackie MATTHEWS and Eldred MESHER. We were just driving around and we turned up Corte Real and were up by the Pentecostal Church. I looked up and said, 'I suppose that's a U.F.O.' At that time, when I first looked up and seen it, it was just a light. Everyone else saw it and we decided to follow it. The object went up towards the Centennial Centre so we followed it. At that time, Eldred was driving the car. He started blinking the car headlights on and off, high beam and low beam. The object stopped before we got to the Centennial Centre. We stopped as well. As Eldred flashed the car lights, the object flashed its lights at the same speed. Then, it seemed like the object turned around and came towards us. It had all its lights turned off except for one which seemed like a bright blue light. The object dropped and then came towards us. It came so close and stopped again. We were blinking lights and it was blinking lights at the same speed. That's when I told Eldred to shut off his lights because I didn't want it to come any closer. When the lights were off, it left. It went up towards Spruce Park. It was about two minutes before it disappeared. We watched the object for about ten minutes. When it left, it had a bright, red light on and flashing blue lights. The two blue lights were on the bottom. A red light was on the top. The dirty white lights were around it. The object seemed to be shaped like a plate on a plate. I am quite sure that it was not a plane. I don't drink. I was a little nervous with what I saw."

STATEMENT OF: James Hubert BROWN (DOB: 56 MAR 26)
61 Palliser Crescent
Happy Valley, Labrador
1978 NOV 14

"I was driving around in my car with Eldred MESHER, Jackie MATTHEWS and Chickey MESHER. Eldred MESHER was driving. This was about quarter to two in the morning. We were just past the Pentecostal Church on Corte Real. I saw something up in the sky. It was shaped round or sphere like. It was all lights at first. The object started to move towards the Centennial Centre. It was moving slow. We decided to follow it. Eldred was flashing the car lights on and off and the object flashed its lights too.

When the object flashed its lights, it seemed to have only two lights on at the time. We drove so far and the thing just stopped all of a sudden. Then we stopped. The object turned around in one spot and came towards us very slow. When it stopped, it seemed like it turned. As it came towards the car, it seemed to be getting lower. Then it stopped again directly ahead of the car and was blinking one light. It was about 200 yards up by this time. It stopped there for about a minute or two and then it left. It was still going slow. When it went on the outside of Spruce Park, it seemed to disappear quite fast.

I could not hear any noise at all. It was a bit overcast that night. That object was not a plane. I am certain of that. I hadn't been drinking at the time - either before or after what I saw. I do have problems making out colors but my eyesight is good with my glasses. I was wearing my glasses at the time."

APPENDIX "C"
"I was with my boyfriend, Chickie and Eldred MESHER. The first part of the night we were looking for U.F.O.'s and we couldn't see them. And about twenty to two we were taking Chickie and Eldred home. Chickie looked up and she saw something and asked if it was a U.F.O. and Eldred said yes and we chased it up the Transmitter Road. We started blinking our car lights at it and it started coming towards us and blinking its lights too. I would only look at it now and then because I am pregnant and I was afraid. So the last I seen of it, it was up towards the Spruce Park area and it disappeared. It was down that low, I was in the back seat and all I had to do was look straight ahead and I could see it. It was round shaped. All I seen was a red light on the bottom, yellow lights around the sides and blue lights but I don't know where they were. I am certain it wasn't a plane or helicopter. I have never seen anything like it before. I wasn't drinking at the time.

NAME: Michele GINGERA
ADDRESS: Box 388, Jasper, Alberta
TELEPHONE: 852-3536 DOB: 18AUG65

Please complete the following questions in longhand.

1. Date and time of sighting (include time zone).
   78 NOVEMBER 07, 8:25 p.m.

2. Condition of sky (clear, cloudy, hazy).
   The sky was very cloudy and it was raining hard.

3. Identity of observer.
   Michele GINGERA

4. Location of observer at time of sighting.
   We were on Geikie Street, right across from the church.

5. Identity of other persons who saw U.F.O.'s.
   Linda KIRCHHOFER & Lori KIRCHHOFER

6. Description of sighting (shape, colour, altitude, movement, number of objects).
   The shape was round, colour was green and red, movement - vertical and horizontal, alot higher than town, but lower than Signal Mtn.

7. Duration of observation.
   It lasted about 2 minutes and then disappeared.

8. Any other relevant information.
   We were at KIRCHHOFER's house when the lights went off and on three times and all the lights were out on Geikie Street. We left to go to the hockey game, beside church, Lori shouted "Look" - we turned around and saw something like a UFO. We stood and looked for a minute and

National Research Council of Canada/ Conseil national de recherches du Canada
RG 77, Vol. 309
then ran to KIRCHOFER's house. Mr. and Mrs. KIRCHOFER came outside but by then it was gone and the lights came back on.

THE END
Please complete the following questions in longhand.

1. Date and time of sighting (include time zone).
   Tuesday 78 November 07 about 8:30 p.m.

2. Condition of sky (clear, cloudy, hazy).
   The sky was fairly cloudy at the time.

3. Identity of observer.
   Lori KIRCHOFER

4. Location of observer at time of sighting.
   My home - 317 Geikie St. Jasper, Alberta

5. Identity of other persons who saw U.F.O.'s.
   Michele GINGERA, Linda KIRCHOFER
   Colleen KIRCHOFER (she just saw light flickering).

6. Description of sighting (shape, colour, altitude, movement, number of objects).
   It was a round, green object, jotting back and forth, there was only one object.

7. Duration of observation.
   The thing looked like it was flickering off and on really fast.

8. Any other relevant information.
   The thing had a touch of red around it (the outside of the object).

SUBJECT: UFO REPORT

REF: GFAO 71-1

A. 8 NOV 76 0015Z
B. CLEAR
C. AIR TRAFFIC CONTROL
D. CFS GOOSE BAY (MAIN BASE)
E. MELVILLE RADAR STATION PERSONNEL
F. VISUAL SIGHTINGS WERE IN THE NORTHERN PART
OF NEMOSPHERE, ROUND CLOWING A FLASHING RED,
REPORT OF UFO SIGHTING ON 78-11-10 AT ABOUT 18:50 PM
ON THAT DATE A UFO WAS SPOTTED BY TWO LADIES IN OUR DET AREA
IT WAS A CLEAR NIGHT AND THE TWO LADIES THAT SAW THIS OBJECT WERE
A MISS PHYLIUS POWELL OF GOOSE COVE AND A MISS SHIRLEY MURRIN OF
ST ANTHONY NEWFOUNDLAND. MISS POWELL WAS DRIVING HER CAR AT THE
TIME ALONG ONE OF THE MAIN ROADS IN THE RURAL AREA FROM THE COMM
UNITY OF ST LUNAIRE Nfld. THE TWO LADIES DESCRIBED THE OBJECT
AS BEING A BRIGHT LIGHT WHICH CAME UP FROM BEHIND THEM AND THEN
ALONG THE PASSENGER SIDE OF THE CAR. IT LIGHTED UP THE INTERIOR
OF THE VEHICLE AND IT FOLLOWED THEM FOR A DISTANCE OF ABOUT 7 MILES
RIGHT INTO THE TOWN OF ST ANTHONY, WHERE IT THEN LEFT THEM AND WENT
UP INTO THE SKY. THEY DESCRIBED ITS SHAPE AS THAT BEING SIMILAR
TO A "SHOE SHOE", THE CENTER OF THE OBJECT WAS A BRIGHT LIGHT
YELLOW IN COLOUR AND THERE APPEARED TO BE REVOLVING COLOURED
LIGHTS AROUND THIS YELLOW LIGHT. THE COLOURS ON THE OUTSIDE
WERE GREEN, RED, AND WHITE. THEY OBSERVED THIS OBJECT FOR ABOUT
85 MINUTES. ALL THIS TIME IT FOLLOWED ALONG THE CAR AT A SPEED OF
ABOUT 85 MILES AN HOUR AS THIS WAS THE SPEED THAT MISS POWELL SAID
THAT SHE WAS DRIVING TO TRY AND GET AWAY FROM IT. THE PASSENGER
OF THE VEHICLE, MISS MOJOIN ALSO STATED THAT THE LIGHT FROM THIS
OBJECT WAS HOT AND THAT SHE COULD FEEL IT ON HER ARM WHICH SHE
SAID GOT NUMB FROM THE HEAT. THIS WAS ALL THE INFORMATION THAT
THEY COULD GIVE AND BOTH WERE VERY SERIOUS ABOUT THE WHOLE THING.

TREAT AT APPROX. 1000 HRS ON 78-11-10 AN UNIDENTIFIED FLYING
OBJECT WAS SITED OVER HICKEYS HILL, TREPASSEY, Nfld. BY DONALD
WALSH (HIGH SCHOOL TEACHER FROM TREPASSEY, Nfld). WALSH
IMMEDIATELY REPORTED THE SIGHTING TO CSTS. NIPPARD AND POWER,
WHO ALSO VIEWED THE OBJECT AND REPORTED IT TO THE NCO 1/C CPL.
HILLIER. AT THE TIME OF THE SIGHTING THE SKY WAS CLEAR. A
DESC. OF THE OBJECT IS: SMALL, SHAPE UNIDENTIFIABLE WITH RED,
GREEN AND WHITE FLASHING LIGHTS. OBJECT WAS IN A STATIONARY
POSITION OVER HICKEYS HILL, TREPASSEY, Nfld. FOR APPROX 45
MINUTES. IT THEN MOVED TO THE WEST AND DISAPPEARED INTO THE
HORIZON. APPROXIMATELY FIVE (5) MINUTES LATER IT REAPPEARED
AND SEEMED TO DECREASE ALTITUDE EMITTING A SOMewhat BRIGHTER
WHITE LIGHT. THE OBJECT THEN GAINED ALTITUDE AND TRAVELLED
ACROSS THE SKY AT A VERY HIGH SPEED. THE OBJECT WAS VIEWED
FOR APPROXIMATELY 1 HOUR.

Dear Sirs:

Re: Mrs. Edmond ROBICHAUD
Complaint of Seeing a U.F.O.
Acadie Siding, Kent Co., N.B.
78-11-12

Further to our Rogersville Detachment's telex #36 of 78-11-13, attached please find a further report and statements on this sighting.

Forwarded for your information.

Yours truly,

W. J. Hunter, Supt.
Office i/c "J" Div. C.I.B.

Attachment
On the above date Mrs Edmond ROBICHAUD called this office at approximately midnight stating that she had observed between 2300 hr and 2345 hr a strange flashing light in the sky.

2. The condition of the sky at the time was clear.

3. The observers at the time were in Mrs Edmond ROBICHAUD’s residence in Acadia Siding, three kilometers south of Rogersville, N.B.

4. It is the first time this incident occurred. The object was noticed travelling East and West and finally went upwards until it seemed to have changed into a star.

5. The luminosity of this object was bright red and bluish-green, flashing. The object was shaped circular but as it was approximately one mile from the observers a precise description was impossible to make.

6. Other witnesses were Larry ROBICHAUD and Sandra ROBICHAUD, children of Mrs Edmond ROBICHAUD.

7. On this date at approximately 1800 hr Lt. DEAN of C.F.B. Chatham was advised of this incident. He stated that approximately 2300 hrs a Vaudou plane travelled in the area that the U.F.O. was seen. But this particular plane doesn’t have blue or green lights. It has red light and the clearance lights are flashing. Radiogram no.: 56 was forwarded to National Research Council in Ottawa regarding this.

8. Please find attached statements of Mrs Edmond ROBICHAUD and Larry ROBICHAUD. Statement of Sandra ROBICHAUD not available as she is now in Saint John, N.B. If required statement will be obtained from her.

Last night around 11:00 p.m., my daughter, Sandra, said look at the plane. I said no it isn’t a plane, it’s a U.F.O. It was like some flashing lights; red and blue. It was like as if it was changing colours. We didn’t see any form. It was further than the hydro lines, more than a mile. It was going in the direction of East and West, it went up and at the end it looked like a star and it stopped in the sky. Around 1:00 a.m. when I went to bed it was there, it was a star.

Q. Did you ever see anything like that before?
A. No.

WIT: J.E.D. HACHE, Cat.  (SGD) Mrs. E. ROBICHAUD
Acadia Siding, N.B.
78 NOV 73
1707 hr

VOLUNTARY STATEMENT OF: Larry ROBICHAUD, (DB: 26 FEB 60),
Acadia Siding, N.B.

Last night I was watching T.V. when my sister said
what's that, a plane. I looked and said yes. Then I
came in the kitchen and they kept on watching it. And
then when I started watching, it moved East and then it
moved West and gradually climbed and after that I taught
it was a bright star.

Q. How long did it take from the first time you saw the
object to the time it stopped?
A. About ¾ of an hour.

Q. How was the object shaped like?
A. Circular, it was round and had red lights flashing
and bluish-green like blinking lights.

WIT: J.E.D. HACHE, Cat. (SGD), Larry ROBICHAUD

WIT: J.K.D. HACHE, Cst. (SGD) Mrs E. ROBICHAUD
CAROL ON 13NOV 75 AT APPROX 1400 HRS NFDL TIME, ELIZABETH MCKIBBON A NURSE FOR THE INTERNATIONAL GRENFELL ASSOCIATION, BLACK TICKLE, LABRADOR WAS LOOKING OUT THE HOSPITAL WINDOW ALONG WITH NURSES AID, HELITA DSON, IN AN EASTERN DIRECTION WHEN THEY SAW A BRIGHT RED CIRCULAR SHAPED OBJECT HIGH IN THE SKY. OBJECT WAS SURROUNDED BY A RED GLOW AND GAVE OFF A JET PLANE TYPE OF TRAIL BUT MUCH SHORTER PRIOR TO THIS OBJECT HAD BEEN STANATORY FOR APPROX 1/2 HOUR AND WAS VIEWED BY THOME WITH BINOCULARS. A SECOND SIMILAR TYPE OBJECT ONLY LARGER WAS ALSO NOTICED BY THEM AND WHEN BOTH WERE IN MOTION APPEARED TO BE ON A COLLISION COARSE WITH EACH OTHER. HOWEVER ON HEARING EACH OTHER THEY CHANGED DIRECTION AND HEADED FOR AND UNUSUAL DARK GREY CLOUD FORMATION WHICH DISAPATED ON THESE TWO OBJECTS GOING THROUGH THEM. EARLIER THIS SAME AFTERNOON AROUND 1300 TO 1400 MR ROBERT CLARK, SAM HOLWELL ALONG WITH JESSE TURNBULL AND FAMILY OF THE BLACK TICKLE AREA, NOTICED FIRE BALLS HITTING THE GROUND IN THE BLACK TICKLE AREA AT MARTINS POND. THESE FIRE BALLS BURNT APPROX. 1 ACRE OF BOG LAND AROUND THE RING OF MARTINS POND. THE AREA WAS LATER CHECKED BY MISS MCKIBBON ALONG WITH SCHOOL TEACHER STEPHAN MACDONALD AND BERNARD DSON. HOWEVER THERE WAS NO DEGREE TO BE FOUND. SKY WAS VERY CLEAR AT THE TIME WITH THE EXCEPTION OF THE UNUSUAL GREY CLOUD FORMATION. NUMEROUS RESIDENCE SAW THESE OBJECTS. MARTINS POND IS BLACK TICKLE'S WATER SUPPLY AND SOME RESIDENCE ARE SHOWING SOME CONCERN.

CARTWRIGHT DET
KEVIN L. SIMMS OF ST. ANTHONY, NFLD. REPORTED THAT ON 78-11-14 AS HE WAS GOING TO BED HIS WIFE CALLED HIS ATTENTION TO AN OBJECT WHICH SHE SAW IN THE SKY. HE SAID HE WATCHED THE OBJECT WITH THE NAKED EYE FOR ABOUT TEN MINUTES AND THEN BEGAN OBSERVING IT WITH A PAIR OF BINOCULARS. THE NIGHT WAS CLEAR (CLOUDLESS) = 346 AND VERY BRIGHT WITH A FULL MOON. WHEN THE OBJECT WAS FIRST SIGHTED IT WAS ALMOST DUE NORTH AT AN ESTIMATED ALTITUDE OF 5000 FEET APPEARING TO LIE ABOUT IN THE AREA OF THE QUIET BRANCH ROAD INTERSECTION. THE OBJECT MOVED SLOWLY EAST ABOUT 30 DEGREES IN THE TOTAL TIME. THE ONLY OTHER NOTICABLE MOVEMENTS WERE VERTICAL POSITIONING MOVEMENTS, SUCH AS MIGHT OCCUR IF IT WERE HUNTING FOR A DESIRABLE POSITION. THE OBJECT DID WHAT APPEARED TO BE A STATIONARY TUMBLING ON ITS AXIS: AT FIRST THE WHOLE OBJECT KEPT CHANGING COLOURS; MOVEMENT OF LIGHTS OF RED, BLUE AND WHITE AS THE OBJECT MOVED AWAY IT WAS A LIGHT RED AND BALL SHAPED. ACCORDING TO MR. SIMMS THE OBJECT LOOKED LIKE A ONE-LAYER CUT OF A CRYSTAL SAMPLE WITH LIGHT SHINING THROUGH IT AND HE SAID IT THEN TURNED INTO A SHAPE LIKE THAT OF A PROVERBIAL FLYING SAUCER WHICH WAS THE SHAPE IT WAS IN MOST OF THE TIME IT WAS BEING OBSERVED.

THE OBJECT WAS OBSERVED UNTIL 11:45 A.M. BY MR. SIMMS WIFE AND HIS TWO CHILDREN.

NRC OTT
OE
On 18 November, 1978, at 2030 hours, Mr. O'BRIAN contacted this office, advising that there was a U.F.O. over his property. Mr. O'BRIAN's property is approximately 20 miles East of Prince George, B. C.

At 2110 hours, Cst. K. G. HEIDEMA arrived at O'BRIAN's residence, and Mr. and Mrs. O'BRIAN gave the following account of the sighting:

The entire family was in the basement, playing darts. Mrs. O'BRIAN came upstairs at approximately 2010 hours to get something to eat and noticed a bright light to the east. Mrs. O'BRIAN called the family upstairs, and everyone watched it from the large living-room window.

They describe the light at first as a bright red, and then it appeared to move closer, and the colour appeared to be a fire orange-red. The lights were extremely bright, almost like the light cast from an arc welder. The field where the U.F.O. appeared to be hovering is cleared, and approximately 8 acres in size.

O'BRIAN stated that the lights lit up the entire field almost as though it were daylight. The U.F.O. appeared to be approximately 85' to 100' above the ground, and remained above the field for what O'BRIAN feels was approximately 15-20 minutes. When the U.F.O. left, it went towards the south.

O'BRIAN advised that while they were watching the U.F.O., he turned off all the lights in the house to make the residence less obvious.

Both O'BRIAN and his wife describe the physical appearance of the U.F.O. as:

"Circular in shape, with three large lights inside. These three large lights were extremely bright and remained stationary. The outside ring of lights changed colours from orange-red to bluish in colour. The U.F.O. did not make any audible noise, as O'BRIAN stated he opened the window, and could not hear anything."
Mr. O'BRIAN and Cst. HEIDEMA conducted a search of the field where the U.F.O. appeared to have been, however, nothing at all was disturbed. There was no indication of any snow being blown by any turbulence, no snow knocked from the top of trees, etc.

O'BRIAN could not give an accurate estimate of the size of the U.F.O., due to the fact that it was hard to establish its distance from the house, however, he feels it was approximately 100 ft. in diameter.

3. The weather conditions at the time of the sighting were:
   Clear visibility; Cold, -30°C; 3/4 moon (very bright); no wind; fresh snow on ground (approximately eight to ten inches).

4. Mr. O'BRIAN seemed very sincere in his reporting of the U.F.O. He appeared to be a rational person, and it is doubtful that he or his family would fabricate their report.

DETAILS TAKEN BY: Sgt. McLean

Florence

oc/n phoned and advised that he and his wife had viewed a bright light in sky for approximately 6 minutes. Time was 5:04 AM this date. Atlantic Std. time.

DEC 02, 9:10

1100 hrs. - I spoke with Mrs. MacDONALD on telephone. She described the light as roughly triangular shaped, pulsating bright then dimming, appeared about 1/2 size full moon, was observed in So. west direction from their house and appeared below cloud level.

There were stars visible and sky partly cloudy. After 6 mins. or so the light faded out, then came back slightly and then disappeared for good. Maintained lookout to be sure cloud was not in way, but sure this was not case. Light did not appear to move location while visible to she & her husband, Mr. & Mrs. MacDONALD believed to be reliable.

At 1800 A.S.T., 78-12-02, Mr. Phillip SMITH, B25Jun43 of Mackerel Cove, Lower Tantallon, Halifax County, N.S. reported the sighting of an unidentified flying object. He described it as; a soft white light in the shape of a "big halo", donut shaped with a center of yellowish brown. He stated that it was very low to the water about 200 feet and fluttering downward. There was no sound coming from the object as it disappeared behind the trees.

2. After numerous attempts to contact this individual since the happening, he was finally located on 78-12-08. Subject was interviewed and the following clarifications are included. When he initially reported the sighting it was not at 1800 but at 0035 AST that he actually witnessed the UFO. He stated that it was a clear night, he had just returned home and was taking the groceries out of the car. Stated that it was a single UFO about ½ mile out over the water. It appeared "ghostly" and did not look solid, heading in an easterly direction, out the St. Margaret's Bay towards the ocean. He thought it was just over the water about 100 feet in height. He was unsure of the size of the object. The center of the UFO appeared to have yellowish brown spot. He advised that none of his neighbors saw the UFO.

3. Subject was a school teacher but is presently employed as a TV repairman. He appears honest and there is no reason to doubt his story.

4. There were no other reports of UFO's on this occasion. The location is just off the No. 333 highway, approximately 25 miles from Halifax in a south westerly direction on the St. Margaret's Bay.

Claudia
HP78/158 ATTN PLANATORY SCIENCES SECTION AT 11:45 AM THIS DATE A CALL WAS RECEIVED BY THIS OFFICE FROM MARGARET DESJARLAIS ADVISING THAT SHE ALONG WITH 81 OTHER PEOPLE HAD SEEN AN UNIDENTIFIED OBJECT IN THE SKY AT THE EAST PRAIRIE METIS COLONY. THE OBJECT WAS FIRST SIGHTED AT APPROX 5:50 AM BY A DEBBIE DESJARLAIS WHO WAS A PASSENGER IN A VEHICLE AT THE TIME. THE OBJECT WAS DESCRIBED AS A LARGE OVAL SHAPED OBJECT GREEN BLUE AND RED IN-COLOR. THE OBJECT WAS OBSERVED AT A DISTANCE OF 50 TO 100 FT AND TWO PHOTOGRAPHS WERE TAKEN BY NISS DESJARLAIS WITH AN INSTAMATIC CAMERA. THE OBJECT WAS IN FRONT OF THE VEHICLE AND MAINTAINED THIS DISTANCE FOR APPROX 3 MILES. THERE WERE SEVEN OTHER PEOPLE IN THE VEHICLE AT THE TIME OF THE SIGHTING. THESE PERSONS THEN WENT TO A RESIDENCE WHERE THEY OBSERVED THE OBJECT TRAVEL DOWN THE ROAD FOR ANOTHER HALF A MILE AND HOVER IN THE AIR. AT THIS TIME WITNESSES STATE THAT THEY OBSERVED A BEAM OF LIGHT FROM BENEATH THE OBJECT TO THE GROUND. THE OBJECT WAS TIMED BY ANOTHER PERSON AND HOVERED IN THIS POSITION FOR 10 MINUTES. TWO VEHICLES LEFT THE RESIDENCE AND WERE REPORTED TO HAVE BEEN CHASED BY THE OBJECT. THE FILM FROM THE CAMERA THAT WAS USED TO TAKE PHOTOS IS BEING BROUGHT INTO OUR OFFICE. THE TOTAL OBSERVATION TIME WAS APPROX 1 HOUR. FOR ANY FURTHER INFO PLS CONTACT CST LG WAGNER.

GAN 21)

1) UFO SIGHTING 78/12/20 - 0020 HRS NFLD STANDARD TIME.
2) CLEAR SKY GOOD VISIBILITY.
3) GILBERT HEFFERN 14 GRIEVE CRES., GANDER, NFLD B1S50CT21
4) DRIVING WEST ON TRANS CANADA HIGHWAY IN THE AREA OF BENTON,
   NFLD, APPROX 12 MILES EAST OF GANDER.
5) JUDY MARIE HISCOCK 65 HAWKER CRES., GANDER, NFLD B1S7JNOS.
6) OBJECT DESCRIBED AS OVAL SHAPED WITH TWO BRIGHT LIGHTS (SIMILAR
   TO LANDING LIGHTS ON AN AIRCRAFT) APPROXIMATELY 20 FEET BETWEEN
   WHITE LIGHTS. NO NOTICEABLE NOISE. OBJECT OBSERVED APPROX 90 SECONDS
   FROM A MOVING CAR. OBJECT FIRST NOTICED APPROXIMATELY ONE HALF
   MILE SOUTH OF TCH AND IT APPEARED TO COME OVER AUTO AND HOVER
   FOR A SHORT TIME AND THEN WAS LOST FROM SIGHT. MR. HEFFERN ADVISED
   THAT HE FIRST THOUGHT OBJECT TO BE A PLANE BUT AFTER FURTHER
   OBSERVATION CHANGED HIS MIND. HE ADVISED THAT HE PANICKED AND IN-
  CREASED HIS SPEED FROM 55 MPH TO APPROX 85 MPH UNTIL HE ARRIVED
   GANDER.

- GANDER DET
UNQUOTE
GRAND FALLS TELECOMMS
At 0100 hours this date, Mr. Gilbert HEFFERN of 14 Grieve Cres., Gander, Nfld., contacted Gander Airport Detachment and advised that he and his girlfriend, Judy Marie HISCOCK of 65 Hawker Cres., Gander, Nfld., had seen an Unidentified Flying Object in the sky in the area of Soullis Brook on the Trans Canada Highway approximately twelve miles east of Gander. The object was first noticed by Mr. HEFFERN approximately one half mile South of the Trans Canada Highway. It appeared to travel over their auto and hover for a short period of time and was lost from sight. Mr. HEFFERN advised that when he first noticed the object he thought it was an airplane but after looking at it further he changed his mind. Object was observed for about one and one half minutes from a moving vehicle. He advised that he and his girlfriend panicked shortly after noticing object and he increased his vehicle speed from 55 MPH to about 85 MPH until he reached the town of Gander. Object sighted at approximately 0030 hours.

2. When this call was received at Gander Airport Detachment, S/Cst. M. ROWSELL contacted the Air Traffic Control Tower at Gander International Airport. The Controllers working at the time advised that they had not seen anything out of the ordinary during their shift. They did advise, however, that an Eastern Provincial Airways flight had arrived at Gander International Airport at approximately the same time the U.F.O. was sighted. The Controllers also advised that this flight had made its approach to Gander Airport from the area of Soullis Brook and would have been flying fairly low in that area.

3. The object seen by Mr. HEFFERN and Miss HISCOCK was described as being oval in shape with two bright lights (similar to landing lights on an aircraft). These white lights appeared to be about twenty feet apart and several red and blue lights appeared to cross the object between the bright white lights. No noise noticed from object. The weather at the time of this sighting was clear and calm and visibility was excellent. The stars were visible.

78 DEC 23

4. Message forwarded to The National Research Council, Meteor Center this date.

5. The only explanation for this sighting is the possibility of the E.P.A. flight having been mistaken for a U.F.O. It might be noted that object was observed for a very short period of time from a moving vehicle by two people who admit that they were panic-struck by what they saw. The vehicle from which object was observed was also travelling at a high rate of speed. No further explanation for sighting at this point.

CONCLUDING NOTE:

#0004
1. A U.F.O. sighting was reported to this office on 78-12-05 at 2300 hours, Pacific Standard Time. Conditions were clear and cold, no clouds overhead, no moon. The temperature was -18°C, with little wind.

2. Sighting was reported by Edward George ESAU (DOB: 38-10-08), Box 28, Summit Lake, B. C., phone: 965-7736. Object was observed from his livingroom window.

3. Witnesses to this sighting are:
   - Emily Joan ESAU (DOB: 46-11-10), Box 28, Summit Lake, B. C., phone 965-7736, wife of Edward ESAU.
   - Norman NADON (DOB: 39-12-11), same address, NADON is a boarder at this residence.

4. The house is 22 miles north of Prince George, B. C. on Highway 97. It is on the south side of the highway, just before Summit Lake. The large livingroom window faces west across Summit Lake. The place is hidden from the town by trees and a hill.

5. All three people were in the livingroom of the house on the date in question. Edward got up to check the thermometer, which is on the right side of the window. The object was to the southwest, and appeared, to be the size of a light-bulb, white in colour. Emily and Norman watched the object with Edward. It appeared to be approximately 100 feet above the tree-line, but the distance could not be ascertained. Edward thought it might be 4 or 5 miles away, Norman thought approximately 30 to 40 miles away. The object got larger, and as it did so, it turned orange in colour.

6. Edward got a pair of binoculars and he and Emily watched the object. It appeared like a half-moon, with the flat portion horizontal. The left part of the curve appeared jagged almost like a flame burning. It was approximately 2½' to 4' in radius. NADON went outside, but could hear no noise. After approximately 5 minutes, the object started dropping and getting smaller. It eventually disappeared, leaving a pink glow in clouds in the southwest, some distance away.
7. Enquiries with town people and neighbours were negative. There are no other witnesses to this incident. It appears that the object was some distance away, as it left a glow in distant clouds. As stated earlier, the sky was clear in the immediate Summit Lake area. No other reports were received at this office with respect to this particular sighting.

8. Edward ESAU works for the British Columbia Government in Corrections Services. His wife is a housewife. NADON works for a caterer north of Summit Lake. None of them have a criminal record, or record of mental illness. They had not consumed alcohol or drugs in the last couple of days. They appeared like intelligent, normal people, and I feel that they definitely saw something.

No further action taken.

Concluded here.

Murray Douglas P. BULMER - et al -
UFO Sighting
Sheffield, Sunbury Co., N.B.

1. DATE AND TIME: Sighted on 79-01-20 by Murray Douglas Patrick BULMER at approximately 4:15 am. Later five other individuals at the BULMER's house also saw the object.

2. CONDITION OF SKY: Condition of the sky was clear and there were many stars out.

3. LOCATION OF OBSERVER: The observer's position was initially in Oromocto, N.B. on the Oromocto Bridge. Later sighted at his residence in Sheffield, N.B., 5 miles from the bridge, east on the Trans Canada Highway (#2).

4. OCCURRENCE OF BURSTS: Only one object was sighted.

5. LUMINOSITY: Luminosity of the object was brighter than the surrounding stars. Seemed to project a light of varying intensity.

6. COLOR: Color of the object was bluish white.

7. FORM: It's size seemed to be larger than the stars in the sky. It appeared to be oval in shape when sighted by the naked eye. When seen through binoculars it appeared to be two spheres resting adjacent to each other.

8. DURATION: The object was observed for a period of approximately three hours, 4:15 am - 7:15 am.

9. SOUNDS: There was no apparent sound transmitted by the object.

10. POSITIONS IN SKY: It appeared at a level lower than the other stars and about 100 feet above the top of the trees. It appeared to travel slightly to the south when observed over a period of time.

11. ANY UNUSUAL OBSERVATIONS: The light it projected seemed to change quite drastically in its intensity. It should be noted that all people observing the light gave approximately the same description.

UFO SIGHTING THIS AREA:
DATE AND TIME OF SIGHTING: 11-79-FEB-24 AT APPROX. 2300 HRS
CONDITION OF SKY: CLEAR
OBSERVER: NAME: WHITE/GIC: ROCKWELL
ADDRESS: 4010 DULEY CRESCENT, LAB. CITY, NFLD
PHONE NR 944-7302
LOCATION OF OBSERVER AT TIME OF SIGHTING: HIGHWAY NR 520 NEAR THE NEW LABRADOR GOLF COURSE, LABRADOR CITY, NFLD

CST G ROBINSON LABRADOR CITY DET RCM POLICE

OBSERVERS: NAME IS ROCKWELL WHITE
At approximately 10:40 p.m. on 24th of February, 1979 EDT Mr. Rocky WHITE of 4010 Duley Cres., Labrador City, Nfld., reported seeing an UFO in this area. At the time of the sighting the sky was very clear.

The observer was standing on the highway looking towards the West. He reported seeing a large object with lights in pairs about 30 to 50 feet apart. The lights were dull not unlike a house or plane light. He reported watching the object for about 30 seconds until it went out of sight behind a hill.

Mr. WHITE stated the object was oval shaped with eight lights which seemed to be in pairs. The object hovered over the top of a hill and then moved slowly down the side of the hill until it went out of sight. As it was dark he was unable to say what color the object was.

Mr. WHITE then drove approximately one mile further up the highway and saw the object again. At this time another vehicle came along and Mr. WHITE stopped along with the other vehicle and they both saw the object. We don't have the names of these people as Mr. WHITE was so excited he didn't get their names and they didn't report the incident.

They watched the object until it went out of sight into the trees. There was a noise so they left the scene immediately. Mr. WHITE then reported the incident to our office and a patrol was made to the scene by Cst. D. CHISHOLM and Cst. R. F. CUTHBERT of this Detachment, however, there was no sign of the object upon their arrival.

On the morning of the 25th of February, 1979 Mr. WHITE went to where he thought he saw the object go down. He went by ski-doo to see if he could find any trace of it. He examined the whole area with negative results. A local resident flying over the area on this same date was requested to look for anything strange. He reported that nothing strange was apparent.

Mr. WHITE is known to a few members of this Detachment and he is considered to be a very reliable person. However, we were unable to find any evidence to confirm his sighting. This report is being submitted for your information.

I/C  

Labrador City Detachment
At approximately 18:40 p.m. on 24th of February, 1979 EDP Mr. Rocky WHITE of 4010 Dalby Cres., Labrador City; Nfld. reported seeing an UFO in this area. At the time of the sighting the sky was very clear.

The observer was standing on the highway looking towards the West. He reported seeing a large object with lights in pairs about 30 to 50 feet apart. The lights were dull not unlike a house or plane light. He reported watching the object for about 30 seconds until it went out of sight behind a hill.

Mr. WHITE stated the object was oval shaped with eight lights which seemed to be in pairs. The object hovered over the top of a hill and then moved slowly down the side of the hill until it went out of sight. As it was dark he was unable to say what color the object was.

Mr. WHITE then drove approximately one mile further up the highway and saw the object again. At this time another vehicle came along and Mr. WHITE stopped along with the other vehicle and they both saw the object. We don't have the names of these people as Mr. WHITE was so excited he didn't get their names and they didn't report the incident.

They watched the object until it went out of sight into the trees. There was a noise so they left the scene immediately. Mr. WHITE then reported the incident to our office and a patrol was made to the scene by Cst. D. CHISHOLM and Cst. P. F. CUTHBERT of this Detachment, however, there was no sign of the object upon their arrival.

On the morning of the 25th of February, 1979 Mr. WHITE went to where he thought he saw the object go down. He went by ski-doo to see if he could find any trace of it. He examined the whole area with negative results. A local resident flying over the area on this same date was requested to look for anything strange. He reported that nothing strange was apparent.

Mr. WHITE is known to a few members of this Detachment and he is considered to be a very reliable person. However, we were unable to find any evidence to confirm his sighting. This report is being submitted for your information.
TIME/PLACE OF SIGHTING: January 26, 1979, 0950Z, SENNEVILLE, P.Q.

DURATION: approximately 10 - 15 secs.

NUMBER & TYPE OF WITNESSES: Mrs. Linda Jones, housewife, Senneville, P.Q.

NUMBER OF UFOs: 1

DIMENSIONS: approximately size of oval dinner plate at arm's length

COLOUR: object ring or donut shaped...yellow color...very bright white around

SOUND: low pitched hum pulsating when it disappeared

ALTITUDE: slightly below tree top level (trees across from house about 200 to 300 ft away)

SPEED: approximately height of trees 40 -50 ft., object seen through upper branches

PLEASE PUT AN 'X' NEXT TO THE APPROPRIATE ANSWER

WEATHER CONDITIONS

DESCRIBE AREA OF SIGHTING:

CITY • SUBURBAN • RURAL • INDUSTRIAL • COMMERCIAL • RESIDENTIAL

DID THE SIGHTING OCCUR NEAR ANY OF THE FOLLOWING LOCATIONS?

RESERVOIR • LAKE • RIVER • MILITARY INSTALLATION • POWER STATION/POWER LINES •

OTHER (PLEASE EXPLAIN) Not far from TQ HWY 40 and MacDonald's College

WHERE WAS THE OBSERVER(S) AT THE TIME OF THE SIGHTING?

OUTDOORS • INDOORS • IN A CAR • IN AN AIRPLANE • OTHER (PLEASE EXPLAIN)

HOW DID THE UFO ATTRACT YOUR ATTENTION?

SOMEONE CALLED IT TO YOUR ATTENTION • HEARD A SOUND • AN ANIMALS REACTION

SAW AN OBJECT • SAW A LIGHT • ELECTRICAL INTERFERENCE • DON'T KNOW

OTHER (PLEASE EXPLAIN) •

WHERE WAS THE UFO WHEN YOU FIRST NOTICED IT?

IN THE SKY • TREE TOP LEVEL • ON THE GROUND • OTHER (PLEASE EXPLAIN)

CHARACTERISTICS:

witness woke up at 0950Z (according to lighted digital clock on bedside) to feed and change young baby. Noted that bedroom was extremely lighted up. Everything in bedroom bathed in bright milky colored light. Went to the window and saw a donut or ring shaped object, yellowish color shining this bright light through window. Witness woke husband up. Husband noted object shut off light being shut off and at this point low, pulsating hum heard for about 4 secs. Husband did not see object or associated light but confirmed he heard the sound. Main witness under unable to get back to sleep. Very anxious and puzzled.

SOURCE: Comments on back please •
During the day, Mrs. Joncas told her sister of the sighting and was advised to call the Sunday Express Newspaper as they knew someone who would take down a report. Editor of the newspaper called me to give telephone number of witness, Howard Dovtonick and I went to interview the witness the following Sunday and took down a more detailed report (in personal files). Witnesses requested that this observation should be reported to someone in scientific or government circles, although they were unaware if anyone collected such reports. We advised them that the NRCC might be interested and therefore assured them that their observation would be relayed.

According to our information (NOTAMS) Valcartier launching Radiosonde Balloons Mondays, Wednesdays and Fridays at 115Z. However we are doubtful that this was the cause due to overcast conditions at 2000 ft. Balloon float levels 100,000 ft.

Observational data does not appear to conform to fire ball activity or bolides.

Possibly ball lightning.

R. Sapienza (UFO CANADA)
FLWG REC'D FROM GOLDEN DET QUOT'I:

GLN/0008 RE: UNIDENTIFIED FLYING OBJECT GOLDEN BC 79-02-20:
ON 20 FEB 79 AT 2148 HRS MOUNTAIN TIME 3 PEOPLE AT DIFFERENT
LOCATIONS OBSERVED A BRILLIANT YELLOW LIGHT. THIS OCCURRED
APPROX 20 KMS SOUTH OF GOLDEN NEAR THE COMMUNITY OF PARSON BC.
THE SKY WAS CLEAR AT THE TIME OF THE SIGHTINGS:

THE FOLLOWING PERSONS OBSERVED THE FLASH OF LIGHT:

1. ARNOLD BENTY, CAMPBELL ROAD GOLDEN BC 348-2350 BENTY WAS JOGGING
ON CAMPBELL ROAD AND OBSERVED A BRILLIANT YELLOW LIGHT WHICH LASTED
FOR APPROX 15 SECONDS. IT CROSSED THE DOG TOOTH MOUNTAINS.

2. RUSSELL SCHULTZ, OF HIGHWAY 95 GOLDEN BC 348-9271. SCHULTZ WAS
WORKING IN HIS BACKYARD WITH HIS BACK TO THE DOGTOOTH MOUNTAINS.
HE TURNED AROUND AND NOTICED A BOLT OF YELLOW LIGHT ABOVE THE
MOUNTAINS.

3. WILLIAM WARDWELL OF PARSON BC 348-2383. WARDWELL WAS IN THE
VICINITY OF WADDEN RD AND NOTED A BRIGHT LIGHT ABOVE THE DOGTOOTH
MOUNTAINS. THIS LASTED FOR APPROX 2-3 SECONDS.

CST JOHNSON GOLDEN DET FILE 79-0464 UNQUOTE

NELSON S/DIV
1. On 19 Feb 79 Miss Melanie BREWER (B:63-11-27) reported to our office that she had seen a U.F.O. 79-02-16. When asked why she did not report it then she stated that she hadn’t planned to do so but made the report on instructions from her mother. The sighting took place between 10:30 p.m. and 10:45 p.m. Time is estimated by BREWER and is subject to some possible change. The weather was cold and the sky was clear. Miss BREWER was accompanied by Miss Deanna SARTOR (B:61-10-12).

2. The sight was first noted on the Old Airport Road located on the west side of Yellowknife within the city limits. The start of the sighting is marked #1 on the attached map. The solid red line shows the direction of travel of the vehicle the two girls were driving and the end of the red line (marked #2) is where they last saw the U.F.O.

3. It was described as round and glowed as a white light. It moved at tree top level and was by itself. It was viewed by the girls for an estimated 6 minutes.

4. As can be seen by the attached map the Yellowknife Airport is just west of the road the girls were travelling on. Checking with aeroradio revealed that a Wardair Dash 7 aircraft departed the Yellowknife airport at 10:50 p.m. that night. The broken red line on the map shows its general route of departure. It is to be noted that the Wardair flight crossed over the airport road from left to right as did the U.F.O. as described in the attached statements. The aircraft then crossed over the cemetery as did the U.F.O., And then crossed highway #3 as did the U.F.O.

5. The area around the cemetery and stock lake is quite wooded and used quite often by ski-dos during the day and the night. At night their lights can be seen flickering in the trees as a person drives his vehicle down this same road.

6. The aircraft and ski-doo possibility was mentioned to the girls but they both feel that this is not what they saw. They say that the object travelled at an erratic speed, sometimes as slow as the vehicle they were travelling in and then would spurt ahead and wait for them to catch up.

CONTINUED Page 2

National Research Council of Canada/ Conseil national de recherches du Canada
These are two impressionable young girls who could very easily think they saw something which was not what it appeared. There were no other reports of a U.F.O. that night and the airport tower which was manned at the same location a half mile away saw nothing out of the ordinary. The girls were, however, very cooperative when questioned and appeared to be honestly trying to describe what they think they saw.

Yellowknife Detachment
A flashing, white light flying just above the street. The size is hard to tell but it wasn't very big. The time was somewhere between 10:30 and 11:00. We first saw the object by Naunest Automatics on Old Airport Road. It was on the left side of the road and crossed to the other side just above the cemetery. It followed us and just before we reached the T in the road to go to Janet, it stopped flashing and crossed the road in front of us. It was kind of round and not very big. It continued following us until we were almost at Janet then it just disappeared. We looked for it but we didn't see it again.

Melanie Brewer

This is the statement of Melanie BREWER (27/4/63)

0 pm

19-21-21
It was about 10:30 Friday night, and I was driving out towards the airport. Melanie Bruce was with me. I looked outside the left hand side of the van and I asked Mel if she saw it and she said yes. It then went over to the right as I turned the corner and it was situated above the cemetery. We were going to go down there, but we decided not to because of the object. We turned right and headed towards the turn off for Grant and YK. As we were heading along, that stretch it was just above the tree tops on the left hand side. We turned off at the turn off towards Grant and we lost it just at the bottom of the hill. We turned around and headed back for town. We looked for it, but it was gone. At one point do we were heading towards the turn off to Grant it stopped flashing for a minute and, you could see sort of a white circular shape.

Deanna Sartor
Reported U.F.O. Sighting
Yellowknife, N.W.T. 79-02-16

1. On 19 Feb 79 Miss Melanie BREWER (8:63-11-27) reported to our office that she had seen a U.F.O. 79-02-16. When asked why she did not report it then she stated that she hadn’t planned to do so but made the report on instructions from her mother. The sighting took place between 10:30 p.m. and 10:45 p.m. Time is estimated by BREWER and is subject to some possible change. The weather was cold and the sky was clear. Miss BREWER was accompanied by Miss Deanna SARTOR (8:61-10-12).

2. The sighting was first noted on the Old Airport Road located on the west side of Yellowknife within the city limits. The start of the sighting is marked #1 on the attached map. Dear Sirs:

Re: Melvin CHOMA - UFO Sighting
Bienfait, Sask., 79APRO8

Please find attached a copy of report of a UFO sighting submitted for your information.

encl.

(R. MARUSKY), Sgt.
Estevan Det.
1. C/N called to advise that he and Lyle WHEELER, Jeff WHEELER, and Greg WHEELER, all of Bienfait Sask., observed a object in the sky over Bienfait, and were of the feeling that this was an unidentified flying object. The object was blue and red in colour, surrounded by a white haze. C/N went on to say that they first saw the object coming in from Estevan, at a very low altitude, and remained stationary over Bienfait for some time. C/N requested that a member attend.

2. A patrol made to c/n res. Upon arriving, the c/n pointed to a star like object high in the sky, stating that this was the object that he and his friends had seen earlier.

3. The object was observed for some time, with the aid of binoculars. The object was very high in the sky, and was very bright, giving off a red colour at various times. No blue light was observed. The object did not move but remained stationary.

4. Estevan weather station advised, and they stated that they have recorded earlier in the season, about a similar form, and that with the aid of a telescope, and with a little investigation on their part, it was decided that it was most likely the planet Venus.

5. C/N advised of findings, but the c/n still remained firm on what he saw. As investigating member, it is felt, that with all considered, that the object is most likely to be a star. This decision was made after observing the object for some time, and talking to the weather station. However, it should be noted that this event should not be taken lightly as it was discovered, that members of Torquay Det., have seen similar objects in the past.

CONCLUDED HERE.

Dear Sir:

Re: Unidentified Flying Object

Sighting of UFO in region of Southern Ontario in the area of Scarborough, the following information has been accumulated:

2. Weather conditions overcast, dark with low cloud.
3. Mr. Russell DOW and Mrs. Ann DOW of 58 Porchester Drive, and Mr. Gus PAPADOPOULOS, 56 Porchester Drive, observed the object.
4. Sighting made from front doorstep of 58 Porchester Drive, Scarborough, facing southerly direction.
5. The sighted object was circular with 3 to 4 bright white lights projected around the shape. Altitude: seemed higher than jets that frequent area. Movement: stop and go fashion for approximately 3 minutes then fast motion upward at which time the object instantaneously disappeared.
6. One object sighted which left vapor-like streams trailing.
7. Duration of sighting 3½ minutes.
8. Observers further noted object emitted no engine sound.
9. The witnesses reliability is reasonably sound.

Yours truly,

S. V. Barron, Cst.,

At cottage or Lower Buckhorn Lake (near Pittsburgh), we detected two objects traveling in spaces, large, luminous, without facing earth.

At 01:30, 2 July, we noticed two highly illuminated objects - one triangular with rounded corners, the other a more normal shape.

Watched them for 5 to 10 minutes without moving, without a讨论, no close. They simply disappeared.

- Darker than the moon.
- Larger than the moon, visible from a distance.
- Stayed in the sky for an hour and a half.
- No lights or afterglow.

(End)

Déclaration de Roger R. BRIDEAU, DN: 21 FEB 54, demeure à Pont Landry, NB. Adresse: C.P. 874, Tracadie, NB. Tel: 395-5692.

Quand j'ai vu ça la première fois en haut de la butte, le premier effet c'était comme un coucher de soleil. Comme une grosse boule rouge. Je me suis dit en moi-même ça ne se peut pas il est 2:20hrs du matin. Ça faisait penser plus je m'approchais comme une grosse grange qui était en feu dans la nuit, mais c'était trop haut pour être ça. Plus j'avançais plus elle avançait elle aussi. Plus que j'allais vite plus elle allait vite elle aussi. Je la suivait. Elle suivait tout le temps sa ligne droite, toujours au-dessus des fils au-dessus des poteaux de téléphone. C'était très gros, gros comme le magasin continental. Après ça elle s'éloigna mais à mesure qu'elle s'en allait il y avait quelque chose qui rafallait en-dessous ensuite je l'ai perdu de vue complètement, mais la première chose je l'ai vu de nouveau. Il avait un char devant moi, j'ai passé le char je l'ai suivi elle s'en allait tout le temps à même distance toujours au-dessus des poteaux de téléphone. J'ai continué, je montais à Allardville. Quand j'ai arrivé à la butte de la tour, en haut de la butte, là je l'ai vu elle était bien loin mais elle était arrêté. C'était fait pareil comme une soucoupe volante mais bien rouge, rouge au complet, à la grandeur et tu voyais comme la bosse dessous puis c'était rouge comme le feu. C'était rouge comme quand tu allumes une cigarette et que tu souffles dessus c'était rouge comme ça.

Q. Quelle température qu'il faisait ce soir là?
R. Il faisait très noir. Il n'y avait pas de lune.

Q. Quelle grosseur que tu dis que c'était cette affaire là?
R. Comme le magasin continental. Comme le magasin au complet.

Q. Comment c'était haut?
R. Comme 15 à 20 pieds plus haut que les poteaux de téléphone.

Q. Quels sont les mouvements qu'elle faisait?
R. Des fois tu le voyais qui prenait l'air et tu le perdis de vue. Mais la dernière fois que je l'ai vu tu voyais qu'elle était bien arrêté dans le ciel puis je la voyais, je savais qu'elle était loin, je la voyais toute comme il le faut.

Q. As-tu entendu du bruit?
R. Non aucun bruit.
Déclaration de Roger R. BRIDEAU, DN: 24 FEB 54, demeure à Font Landry,
NB. Adresse: C.P. 874, Tracadie, NB. Tel: 395-5692.

Q. Qu'est-ce que tu as remarqué la forme?
R. Quand elle était arrêtée, c'était pareil comme une soucoupe volante que tu vois à la télévision.

Q. Comment de temps l'as-tu observé?
R. Au moins 5 à 6 minutes.

Q. Avais-tu pris la boisson?
R. Non pas une goutte de boisson. Je m'én allais à Bathurst.

Je finissais de travailler. Je suis waiter dans un cabaret, le Kô-Ko Lounge à Tracadie, ça fais 7 ans que je fais cela.

Q. As-tu d'autres chose à ajouter?
R. Il paraît que Fernand LOSIER la semaine passée a vu la même chose. Il a suivi de Tilley Road à St-Pons.

Il n'y avait aucun reflet. Il n'y a eu aucun bruit ou aucune explosion.

6. ROUND IN SHAPE. BRIGHT RED LIGHT ON TOP. RED LIGHT WAS CONSTANT TWICE TWO BRIGHT WHITE LIGHTS WERE ACTIVATED FOR APPRORIMATELY 15-20 SECONDS OBJECT APPEARED TO HAVE RED LIGHT ON TOP WITH GREEN LIGHT ON BOTTOM. WHITE LIGHTS AROUND CENTRE WHICH APPEARED TO BE PORT HOLES. OBJECT REMAINED IN A STATIONARY POSITION FOR 20 - 30 MINUTES FROM FIRST SIGHTING

7. 20 - 30 MINUTES

8. AFTER STOPPING VEHICLE ON HIGHWAY FOR APPROXIMATELY 15 SECONDS, OBJECT WAS OBSERVED TO LEAVE AREA AT HIGH RATE OF SPEED

GST GREEN - RCMP DETACHMENT, STETTLER, ALBERTA
While proceeding EAST on Highway 12 towards TEES, the following was observed by the writer and my 16 year old daughter:

A bright red light was observed above the noted location, after observing the light for approximately 10 minutes, two bright white lights were activated, this lasted for approximately 15-20 seconds, it was felt at first that the lights were those of a passing aircraft. I continued to observe the light noting at the same time that as I approached the light was not moving but was in a stationary position. After approximately 10 minutes the two white lights were again activated, as I approached TEES the object was noted to have a circular shape and consisted of the red light on top with white lights around the centre with a green light on the bottom. The object was in view for a time period of 20-30 minutes from the first sighting until it left the area at a very high rate of speed.

The weather conditions at the time were as follows:

Sky- Some cloud and prior to sighting it had been raining however the sky was clear.

SECORD ALSO STATED THAT YOU REALLY HAD TO BE LOOKING IN THAT PARTICULAR DIRECTION TO SEE IT.

J.N. HACHEY, CST.
CAMPELLOTT COUNTY DET.
On the 19 day of July, 1979 at approximately 23:15 a call was received from the above captioned reporting that his wife and him had just seen a U.F.O. Secord stated that he was looking in a southerly direction through the kitchen window when he saw in the sky a light just about the same size of the North star but brighter. He then called his wife and they observed it for about 20 minutes. Secord got interested in the light when he noticed that the sighting was moving. He said that the light was standing still for a while then moved to the right very quickly then stopped. Then it moved back to the left at the same speed. The same movement was also noticed going up and down. Secord stated that the light seemed to always go back to the same place in regards to the tree from where he had pin-pointed the sighting.

79-08-15

On this date both Secords were visited and a statement was taken from them and attached to the report.

J.N. Hachey, Cat.

McCarthy, Sgt. A.O.K.

C.O. 80th Division
On the 19th day of July 1979 at approximately 23:15, I was inside
the house looking through the kitchen window. The window in the kitchen
goes South West. I saw a light slightly larger than the stars; slightly
larger and brighter than the North star. It was moving erraticly. At
first, I thought it was an helicopter but there were no visible other
light such as red or green lights. I observed it for about 20 minutes.
It was moving at different angles but always coming back to the same
point. It was moving too fast to be a plane or any known flying object.
The sky was all clear that night, there was no clouds. At one point
while I was observing, I noticed a plane go by about 10 minutes through
the sighting and the sighting to compare with the size of the green and
red lights of the plane, the sighting was slightly smaller. I did not
see it disappear all I know is when I went to see it later, it was gone.

All the time of the sighting I was with my wife and we decided to call
it to the police in case somebody else would have seen it or if anyone
knew what was going on.

On the 19 day of July, 1979 at approximately 23:15 I was getting ready for bed when Nick called me from the kitchen. He asked me to come see something. I looked out the kitchen window with him and I saw it. To me, it looked like a large star, just about the tree line. It was moving. It was not moving all the time, just periodically. It would dash away then come back to where about it started going up and down, side ways. It seemed so far away that in order to move the way it did, it would have to be going at a tremendous speed. I went outdoors with the binoculars it seems that I could see redish light but without the binocular I could not see any redish lights. I observed it for just about 20 minutes and then we turned away then turned back and it was gone.

J.N. Hachey - Lorna J. Secord

Dear Sir:

Re: Kimberley WARREN
   Report of Sighting U.F.O.
   Heatherton, Antigonish Co., N.S.
   79-07-24

The attached report from our Antigonish Detachment
refers, and is forwarded for your information.

Yours truly,

[Signature]

D.E. Christen, Supt.
Officer in Charge
Criminal Investigation Branch

Encl.
Kimberly WARREN
Report of sighting U.F.O.
Heatherton, Antigonish Co., NS
79-07-24

1. Further to our message forwarded to NRC Meteor Centre, Ottawa
   24 July 79 via telex number 033-3715

2. Message forwarded on that date read as follows:

   (1) Date: 79-07-23
   Time: 2245 hours (Atlantic Time Zone)

   (2) Condition of sky: clear

   (3) Observer: Miss Kimberly WARREN
       (54 years old)(Insurance Agent)
       ADD: 1015 24th Ave., North West
            Calgary, Alberta
       Temp.ADD: 48 Cloverville Road
                 Antigonish, Nova Scotia

   (4) Location of observer at time of sighting:
       Heatherton, Antigonish County, N. S.

   (5) Witness: Lucille CHAISSON
                (26 years old)(Secretary)
                ADD: 5A Silverwood Drive
                     Antigonish, Nova Scotia

   (6) Description of sighting:
       - No object shape available
       - Observed three lights. Two bright lights continually shining on either end. Lights were white in color. One flashing light in the centre. This light was less bright and flashed at about 15 second intervals.
       - Altitude could not be determined. Described as not very high.
       - Movement of object: was back and forth in form of an arch.

   (7) Duration of sighting was 7 - 8 minutes.

   (8) Reliability of witnesses - unknown.

3. Attached to this report, also are statements taken from the witnesses who reported seeing the unidentified flying object.
4. The actual sighting took place at approximately 2245 hours on the 23 July 79. The report did not come through our office until two hours later, because of some hesitancy on the part of the observer. Both observers felt they may have a problem convincing authorities to believe them. After a fair amount of convincing by their friends the report was filed at this point.

5. Complainant was interviewed at some length at this time and gave the information supplied in the original message. This information was reconfirmed the following day when statements were taken from both observers.

6. Both observers described very vividly the sighting of three lights which hovered over the Heatherton area. The three lights were described as two very bright ones on either end with a flashing light in the centre.

7. At the first sighting the observers were proceeding west on Highway #104. The first impression was a helicopter; however, the length of time it was stationary appeared somewhat unusual. After viewing it for five to seven minutes, they stopped their vehicle and got out. Once outside they could hear absolutely no noise, but felt the object should be close enough to hear any motors. They could see absolutely no structural design of any object to which the lights might be attached.

8. The lights, then began to move gradually out towards George Bay and disappear from their visibility into the Northumberland Straight. Once the object started to move, it was described as picking up speed at a tremendously fast rate.

9. This sighting was determined to be around 2245 hours.

10. At 2300 hours a Mr. Jack MACPHERSON, of MacDonald’s Trailer Court, Antigonish, N. S., was at his cottage near Malignant Cove, Antigonish County, N. S. MACPHERSON and his wife, Patricia MACPHERSON, both reported seeing the same or a similar object. Their description was identical to the one given by WARREN and CHAISSON. They did not see the object move. During their sighting it remained stationary for approximately 6 to 10 minutes. They returned to their cottage temporarily for about 2 minutes and when they returned outside there was absolutely no sign of the lights anywhere.

11. MACPHERSON reported his sighting to be over Cape George, Antigonish County, N. S. This would put his sighting approximately 25 miles north of the original sighting by WARREN and CHAISSON and 18 miles west of his own position. The direction of travel stated by the original observers, would coincide with the sighting by MACPHERSON.
12. MACPHERSON also reported seeing two objects at the same time. The second set of lights were further out to sea and he could not be so precise on his description or exact location. Felt it would be about five miles or more west of the sighting over Cape George.

13. There were other sightings also reported, however, no further information could be learned. Information received described the sightings as previously outlined by the four mentioned observers.

14. Reliability of original observer is unknown. Mr. & Mrs. MACPHERSON however, are known to be very reliable.
It was on the evening of the 23rd of July 1979 at about 10:45p.m. It was about five miles east of Heatherton, we were coming from Cape Breton. We saw some lights flashing and Lucille said "What's that?". I didn't know but didn't feel it to be a plane because it wasn't moving. It was about this time we both realized we didn't know what we were looking at. We kept looking at it as we were driving along the road and then stopped the car in Heatherton. I got out to look at it and told Lucille to turn the car off and see if we could hear anything. The object started moving towards the ocean but it wasn't moving in a straight line but more in the form of an arch. It then kept on going out of sight so we got in the car and drove away.

2. When we first spotted it, what caught my attention was the flashing light. Then there were the two bright outside lights that appeared to be much brighter than the one in the centre. The flashing of the centre light wasn't consistent, it would flash fast some times and not as fast other times. I don't know how high it was but lower than a plane. At first we thought it was a helicopter.

(Signed) Kim Warren
Last night at about 10:45pm we were travelling west on the 104 Highway in the vicinity of New France. This would be just a short distance east of Heatherton. The first thing that got my attention was the blinking light. At first we thought it might be a star because it was a beautiful clear night. Then there were the large lights beside it, so we drove on a few more miles still watching it as we were travelling. The lights still appeared to be stationary so we decided to stop and investigate further. About a minute after we stopped, it started picking up speed with the light still flashing but not at regular intervals. At first when the object started to move it did not go in a straight line but in the path of an arch. Then when it did pick up speed it went very fast in a straight line in a northerly direction towards the water.

2. There was absolutely no noise that we could hear coming from the object. I have no idea about the height it was hovering but about the same as a helicopter. That was why we shut off the motor of the car to try and hear any motors on whatever. The only thing we could see were the two large bright lights on either end and the flashing one in the middle. Could not see any shape of the object other than the lights.

**Details:**

Sometime during the month of June 19 at approx. 1:30 am (date unknown) an outsider called and wanted to report a U.F.O. seen by him and one of his friends. The night before call had been received. He gave me his name and phone number and told me that someone from his department would call him. Message was given to Mr. Tom Bray, who was to contact the party who had called.

**Action Taken:**

The next day, night shift guards were questioned to know if they had seen anything unusual during the night and they all said no. On Friday 27th, Mr. Mainville recalled having seen something during that period (mid June 19) and finally decided to make a report on this matter.

**DETAILS:** La date de l'observation est incertaine, à cause de l'hésitation, à rappeler ce fait. L'hésitation a été causée, pour d'être ridiculisée par certaines personnes trop négatives. Ma décision a été prise, par rappel que le lieutenant J. GUY, avait reçu quelques heures avant, un message, rapportant l'observation faite par 8 témoins d'un objet non-identifié près de CANADAIR et que le Lt. GUY nous raça ce fait sur le matin, soit, après mon observation. Donc, peut-être, cette observation à une certaine importance pour CANADAIR ou autre.

**ACTION TAKEN:**

Je certifie que ce fait récent, est véridique. Et j'aimerais avoir la permission de rapporter ce fait à une équipe de spécialistes de UFO, QUÉBEC, à rez pour connaître leur opinion.

FOLLOWING RECEIVED FOR RELAY FROM GOLDEN DET RCMP:

AT APPROX 2010 HRS, 79-08-15, WE RECEIVED A REPORT OF AN UNIDENTIFIED FLYING OBJECT FROM A MR. DON FRANZEN, 533 - 18 STREET, GOLDEN B.C., PHONE 344-6346.

MR FRANZEN STATED THAT FROM HIS RESIDENCE HE COULD SEE A ROUND OBJECT HOVERING BY MT. MOBERLY WHICH IS APPROX. 10 MILES NORTH EAST OF GOLDEN, B.C. THE OBJECT FLASSED COLORS OF RED, GREEN, BLUE, WHITE AND SOMETIMES YELLOW. WHEN THE WHITE LIGHT APPEARED IT WAS EXTREMELY BRIGHT AND LIT UP THE MOUNTAIN. THE OBJECT WAS OBSERVED FROM APPROX. 30 MIN. AND ON OCCASION WENT BEHIND THE MOUNTAIN RETURNING TO THE SAME POSITION.

THE SKY AT THE TIME OF THE SIGHTING WAS CLOUDY, MR FRANZEN WAS THE ONLY PERSON REPORTING THE SIGHTING.

Dear Sirs:

I would like to report the following meteor:

A) The date was August 2, 1979. The time was 0456 GMT.

B) The sky condition was as follows: 5000 scattered (4/10 S.C.), estimated 8000 broken (4/10 A.C.), 28,000 overcast (2/10 Ci). By my own observation, the moon was dimly visible.

C) We were standing at the north eastern edge of the racetrack located on the exhibition grounds, Vermilion, Alberta.

D) No bursts were observed.

E) The luminosity was very bright, comparable to high beam headlights.

F) The color was bright white.

G) Being that we were quite a little ways away, the size is hard to relate. I would compare it to about the size of a 25c piece held quite close to you. The tail extended perhaps ten or twelve inches behind that.

H) The duration was about five seconds.

I) No sounds were heard.
J) It was first sighted approximately straight north of us and if I had been flying, I would have said it was about 1:30 high. It was traveling east to west in an almost horizontal plane. It disappeared while still on about the same plane as when we initially saw it, though it was over into the north west by this time. Whether it burned up or went behind a cloud I don't know.

K) The only thing that I can say was unusual about it was its size. I have seen hundreds of small meteors while flying, but I have never seen one this size before.

I hope that this can be of some help to you.

Yours truly,

John Rogers

The C. Co.,

I am not sure if we were thinking about the same thing in our original discussion, but the idea of a plan of management, which was raised, is still relevant.

It seems clear that a clear plan is required to ensure an effective management of resources. The plan must be flexible enough to adapt to changing circumstances, and it must be well thought out to ensure that all aspects are covered.

As I mentioned earlier, a clear plan will also help in streamlining the process of running the organization.

The plan should be reviewed regularly to ensure that it is still relevant and effective.

I believe that the plan we are discussing is a step in the right direction. However, we need to ensure that it is well communicated to all stakeholders and that everyone is aware of their role.

I would be happy to discuss this further with you.

Thank you for your time and consideration.

Yours sincerely,

[Signature]

Date: [Insert Date]
I called, but there was no answer.

Along the shore several other boats were drawn up. The scene resembled that of a military review.
This experience lasted 5-8 min approximately by my watch. We ruled out fl. on our fire because of the duration of the experience, plus "ili" re-appearance in the distant cloud. As we descended to land at Simpson airport, the rolling, red and white, energy ball, disappeared into the orange sky of the setting.

I am reporting this to you as I feel it is my duty to do so. You may keep this for your records. We felt that we were very fortunate. This thing could be so fortunate.

The pilot is [Redacted], Ont.; telephone [Redacted].

He can usually be reached mornings 9 a.m. to 12 noon, with the exception of Wed. and Sat. and Sun.

Should you wish to contact him regarding this matter, please use discretion, as his young wife is intensely jealous of him, and very protective of 3 young children. She does not respect him or his rights. She opens his mail and interfere with the phone calls. Try to meet
for the time being at least, should you not be able to speak with him privately. If he cannot speak freely, leave your name and number and he will return your call. Or better still, phone or write me, and I will relay your message to him. This later method would be more reliable. The pilot hesitated informing me of this sighting due to his material set up. He is presently proceeding with divorce proceedings however, that is not yet completed. Your cooperation would be most

Dr. Ian Hellyday  
National Research Council  
Ottawa, Ontario

Sir:

On August 19, I was with a group of friends camping beside the Spanish River, north-west of Audley. At 9:45 pm we observed a bright light, larger than a star, moving approximately south to north with a long, fiery tail. About 4 minutes after it passed we heard a boom.

Could you give me any information about what we might have seen?

Thank you.

[Signature]

Sincerely,

Jane Brennan

[Note: Satellite report attached, signed 24th August 1979]
To whom it may concern,

On August 19th at 9:45 am, at 78° 17' W, 46° 37' N, at Lac des Jardins, PQ,

we were having supper on site when I noticed a fire ball going across the sky from South West to North East approximately 25° above the horizon. It was visible for about 45 seconds. It was white, had no trail and left no smoke or sparks or trail behind it in the cloud. It was so bright that it looked to be about 4 to 5 times brighter than a full moon. In size, and the tail was about 15 to 20 times as long as it was. There was no sonic boom and it was travelling level with the horizon.

Yours truly,

Charles Campbell

Ontario
1. This date, Albert E. HENDERSON, 5 Hartley St., Brockville, Ontario, advised that on 79-08-29 at 22:00 hrs., on the Hwy. 401 at River Rouge, Quebec, he spotted a U-shaped, yellowish-orange light in the sky. He said the object divided, consolidated and, at times, was in three separate layers. He stated the object was ahead of his vehicle and on the north side of Hwy. 401, and that it disappeared at Riviere Beaudette, Quebec. He said he had it in sight for approximately 25 miles and could not gain on it. His wife, Helen, and a friend Jane Kendrich, who was visiting from Britain, also witnessed this object.

2. The following information is being submitted in accordance with OPS Manual 1.3.E.22.a:
   
   (1) Date & Time of Sighting: 79-08-29 - 22:00 hrs.  
   (2) Condition of Sky: Cloudy.  
   (3) Identity of Observer: Albert E. HENDERSON, 5 Hartley St., Brockville, Ont.  
   (4) Location of Observer at Time of Sighting: Between River Rouge and Riviere Beaudette, Quebec.  
   (6) Description of Sighting: U-shaped, yellowish-orange, just below clouds, straight line, parallel with Hwy. 401. Ones.  
   (7) Duration of Observation: Approx. 20-25 minutes.

3. It should be noted that Mr. HENDERSON is a practising lawyer in Brockville. Other than this fact, the writer is unable to form any conclusions on the reliability of the witnesses. A copy of this report is being forwarded direct to National Research Council, Planetary Sciences Section, 100 Sussex Drive, Ottawa, KIA OR6 for their information and any other action they deem necessary. No further action being taken this point.

CONCLUDED HERE.

1. This date, Albert E. HENDERSON, 5 Hartley St., Brockville, Ontario, advised that on 79-08-29 at 22:00 hrs., on the Hwy. 401 at River Rouge, Quebec, he spotted a U-shaped, yellowish-orange light in the sky. He said the object divided, consolidated and, at times, was in three separate layers. He stated the object was ahead of his vehicle and on the north side of Hwy. 401, and that it disappeared at Riviere Beaudette, Quebec. He said he had it in sight for approximately 25 miles and could not gain on it. His wife, Helen, and a friend Jane Kendrick, who was visiting from Britain, also witnessed this object.

2. The following information is being submitted in accordance with Ops. Manual I.3.E.22.a:

   (1) Date & Time of Sighting: 79-08-29 - 22:00 hrs.
   (2) Condition of Sky: Cloudy.
   (3) Identity of Observer: Albert E. HENDERSON,
                              5 Hartley St., Brockville, Ont.
   (4) Location of Observer at Time of Sighting: Between River Rouge and Riviere Beaudette, Quebec.
       Jane KENDRICK, Britain.
   (6) Description of Sighting: U-shaped, yellowish-orange,
                                 just below clouds, straight line, parallel with Hwy. 401. One.
   (7) Duration of Observation: Approx. 20-25 minutes.

3. It should be noted that Mr. HENDERSON is a practising lawyer in Brockville. Other than this fact, the writer is unable to form any conclusions on the reliability of the witnesses. A copy of this report is being forwarded direct to National Research Council, Planetary Sciences Section, 100 Sussex Drive, Ottawa, KIA 0N6 for their information and any other action they deem necessary. No further action being taken this point.

CONCLUDED HERE:

(B.R. Dauphinage) Cpl.,
1/c Detachment.
On September 01, 1979 Cornelius BLANCHARD of Cold Brook, Newfoundland, DOB: 39 APR 03, called this office advising that last night around 00h30 he observed a strange phenomenon.

2. Mrs. Rita BLANCHARD stated that she thought she heard a noise outside her window. The noise sounded like a screech. When she looked through the window there was a reddish light in the clouds.

3. The lighted object dropped and in about five minutes it appeared to be down to the top of the trees. The object was about 500 feet from the house. The light would disappear and shortly afterward, would reappear in the same area. This was observed by both Mr. and Mrs. BLANCHARD.

4. Mrs. BLANCHARD stated the object appeared to be about 20 feet wide while Mr. BLANCHARD stated that the object was about 3 to 4 feet wide. He stated the object was like looking into the sun. The colour of the object was that of the sun setting in the evening.

5. BLANCHARD searched the area the next day but did not notice anything out of the ordinary.

6. A check with the weather station revealed there was light rain at the time, winds southwest at 15 knots, and temperature 19°C.

SUBJECT

RE: U.F.O. SIGHTING

Beverly CROUSE and Marcella CROUSE of Branch LaHave, Bridgewater,
Nova Scotia reported they observed a very bright red ball, which was very high
in the sky and a bit larger than the sun, for a duration of approximately
four seconds.

Date and Time: - Friday, 7 Sept. 79, 11:00 P.M.
Atlantic Standard Time

Condition of Sky: - Clear

Location of Observer: - 6 Miles away - in their house

The object lasted for 4 seconds and then became smaller and
vanished. The witnesses appeared to be normal and sober. They are both in
their early thirties. A patrol was sent to the area but nothing unusual could
be found. Reporting this for your information purposes.

From a Canadian Forces Station in Sydney, NS, a report was sent to the RCGC/National Defence Operations Centre in Ottawa, ON. The report was submitted to the National Research Council of Canada for the Herzberg Institute of Astrophysics.

The report is classified as UNCLASSIFIED, and it is a UFO report dated SEP 79.

The report includes the following details:

- Subject: UFO
- Location: Reservoir Rd, Sydney, NS (539-8443)
- Observers: Mr. and Mrs. Murphy, Reservoir Rd, 539-9350
- Description: Object was oblong in shape, with varying colors: red, green, yellow, flashing very bright.
- Movement: Object was seen moving up and down very quickly at times to the horizon. It appeared through a X300 power telescope and was rotating, with what appeared to be two headlights.

The report is signed by A. Claude 2026 SK.

UAR/REED
Identified as a Meteor.
31 juillet 79, 23:30 → 1 août 79, 4:30
près d'un lac - 45 m° N d'Ottawa
particulièrement nuageux.

- A semblé être un satellite mais à l'horizon
  orbité sous les nuages (?)

- Personne a signalé 3 fois avec une lampe de poche - L'objet s'est rapproché en approchant
  à environ 150 pieds, ressemblait à ce moment à
  une sphère de quelques de 100 ft. diamètre
  à 200-300 ft en hauteur. Immobile. A quelques
  minutes puis repart doucement.
  Rouge vif, brillant, sans être aveuglant

Total: 15 min

Son: aucun
Date of sighting: 16 September 1979

Condition of sky (clear, cloudy, haze, etc.) clear

Location of observer (as precise as possible) traveling in car between Newport MS and Ville MS, via Hwy 101

Name of observer: Gwenyth Phillips

Name and addresses of others also observing:
1. Wayne Phillips (same address)
2. 
3. 

Description of sighting:
1. Shape - Not discernible - only lights could be seen
2. Size (compared to a known object) 
3. Colour(s) (including any changes) red, green, white lights
4. Altitude (in degrees above the horizon) (a) at first sighting 30° (b) at last sight 130°
5. Movement: (a) direction it was going NE-75° (b) speed rapidly (c) hovering (if any), height, duration, etc. yes - at 80° to horizon for several minutes (d) any change in speed yes
6. Number of objects observed one
7. How long was it observed approximately 1/2 hr.
8. Description of any sounds heard all

9. Was the sighting seen
(a) through a glass window Yes/No (b) from a car Yes/No (c) in the open Yes/No

被列入未知来源的进一步报告。
10. Other information and narrative report.

Our attention initially was drawn to an object with a white light flashing red about 30° to the horizon. These lights seemed to cross the highway at a relatively low altitude. All of a sudden a green and red flashing light appeared on the same object, and after several minutes it again became only a red and white light. It seemed to go parallel to our direction. As we approached Windsor N.S., the object changed altitude very quickly and only a red light was noticeable at about 800° to the horizon. The object appeared to be hovering. Within moments this object moved across the sky to approximately 130°—almost instantaneously. At this point the red flashing and white light were visible—the white light being very intense. The object again moved parallel to our automobile throughout the remainder of our drive.

To the Editor:

I wish to report my sighting of a U.F.O. The date was September 25, 1979, and the time was 4:25 A.M. The condition of the sky was brilliantly clear. As I watched, looking eastward from my ground level bedroom window, it hovered just over a field, across Pleasant St.

This large field is between two houses, near the corner of Western St, located on Pleasant St., in Sutton, Quebec. The light was a shimmering, white one. Its form was circular, and there was no sound. (My window was open.)

Location in the sky was low enough to have the sighting lost for a few seconds, because a Hydro pole blocked the viewing. As for duration of time it hovered, I think about 2 minutes would be a close timing. I was further impressed by its subsequent ability to suddenly then gain altitude, which caused me to move to another window, looking southward. By then, it was up with the stars, moving southward, then out of sight.

Yours truly,

Dorothy H. Taylor
(Mrs. R. B. Taylor)

IT IS REQUESTED THAT E DIV NOTIFY THE N.R.C. AT TELEX NOS. 053-3715 CONCERNING THE FOLLOWING SITING OF A U.F.O.

AT APPROXIMATELY 00120 HOURS, 79-10-05, DAYLIGHT SAVING TIME, REG. NO. 29294 CST A.B.M. MILLER, SIGHTED THE FOLLOWING U.F.O. WHILE HE WAS PARKED IN HIS POLICE CAR ON LAC LE JEUNE ROAD, KAMLOOPS, B.C., CLOUD COVER AT THE TIME OF SIGHTING LIGHT, 4/10THS OF WHICH COULD NOT BE SEEN THROUGH. AT THIS TIME A DULL ORANGE LIGHT WITH THE APPEARANCE OF A FLARE APPEARED IN THE SKY APPROXIMATELY 1/2 MILE WEST OF THE POLICE CAR AND REMAINED THERE FOR APPROXIMATELY FIVE TO TEN SECONDS AND THEN DISAPPEARED. ABOUT THIRTY SECONDS LATER A HUGE CRAFT APPEARED TO APPEAR DIRECTLY OVERHEAD OF THE WRITER WITH A SUDEN BURST OF EIGHT TO TEN EXTREMELY BRIGHT LIGHTS. THE THING REMAINED STATIONARY FOR APPROXIMATELY TEN TO FIFTEEN SECONDS AND THEN HEADED EAST AT AN EXTREME RATE OF SPEED. WITHIN TWENTY TO THIRTY SECONDS IT DISAPPEARED FROM SIGHT OVER THE MOUNTAINS NEAR MT. LOLO. WHEN IT FIRST WAS SIGHTED AND WHEN IT PROPELLED EAST NO SOUND COULD BE HEARD FROM IT.
WHILE THE CRAFT WAS OVERHEAD AND AFTER IT LEFT, CST OTTO, WHO WAS NEAR LAC LE JEUNE TURN-OFF, ADVISED HE SMELLED A STRONG ODOR OF SOMETHING SIMILAR TO A FUSE FLARE.

SEVERAL MEMBERS AND A NUMBER OF CIVILIANS SAW THE CRAFT WHILE IT WAS MOVING, HOWEVER NO ONE SAW IT STATIONARY.

MOST REPORTS INDICATE IT WOULD HAVE BEEN APPROXIMATELY AT CLOUD LEVEL WHICH WOULD BE 1/4 TO 1/2 MILE HIGH AS IT APPEARED TO LIGHT UP CLOUDS AND SMOG AS IT TRAVELED.

THE WHOLE TIME IT MOVED, IT APPEARED TO BE ONE CRAFT, AS ALL THE LIGHTS REMAINED IN PROPORTION THE WHOLE DISTANCE.

IF IT WAS ONE CRAFT IT WAS A MINIMUM OF 1000 FEET IN LENGTH AND HAD A TAIL APPROXIMATELY 100 FEET.

THE SIGHTING HERE APPEARED AT 00120 HOURS, SALMON ARM ADVISES IT WAS SIGHTED AT 00188 HOURS AND REVELSTOKE REPORTS IT AT 00130 HOURS. ALL REPORTS INDICATE IT WAS APPROXIMATELY 1/4 TO 1/2 MILE OFF THE GROUND AND APPROXIMATELY 1000 FEET OR MORE IN LENGTH.

MT. LOLO RADAR BASE WAS ADVISED OF THE OCCURRENCE, HOWEVER WOULD NOT OFFER ANY FURTHER INFO.

NORAD HQ WAS CONTACTED AND ADVISED THAT THE SIGHTING WAS THE RE-ENTRY OF A RUSSIAN SPACESHIP.

IN VIEW OF THE FORGOING A REPORT WILL NOT BE SUBMITTED UNLESS OTHERWISE REQUESTED. UNQUOTE

PLEASE ADVISE IF A FURTHER REPORT WILL BE REQUIRED.

Dear Sir,

1. Date: 79-10-22
   Time: 20:00 Hrs.

2. Condition of sky: Clear sky.

3. Witnesses:
   - Mr. Albert MAILLET (Tel. 532-5481)
     Tipperary St., Shediac, West. Co., N.B.
   - Mrs. Albert MAILLET,
     Same As Above.
   - Son of above two previous persons and his friends.
   - Mr. Arthur CORNIER - 19 Gallagher St.,
     Shediac, West. Co., N.B.

4. Above witnesses were at or near Mr. Albert MAILLET's residence in Shediac, N.B.

5. As per witnesses, there were five or six objects flying at an altitude of approximately what an helicopter flies, objects would have a yellow light under it which would make it impossible to described the shape of the objects. Objects were proceeding North.

6. Approximately 15 minutes.

\[\text{N79/106}\]
7. There were other unknown witnesses to this U.F.O. Information revealed that witnesses were reliable.

Yours very truly,

**REMARKS**

C. LYNDON

Cst. R. Lamb

---

C. called office advising that approx. 10 minutes ago he saw a ball of fire in the sky. C. saw nothing before the fire and nothing after. C. also did not hear any noise previously, such as an airplane, etc.

Cst. Lamb advised

1725: Air Sea Rescue (732-4141) advised, requested to check if they had any info on overdue planes. Negative at this time would check further and advise.

C. could not give any location other than behind (North) of Yale.

1755: Air Sea Rescue called advising checks done. Vancouver Air Traffic control negative. Believed it may possibly have been a landing light being turned on or a flash from sun hitting an aircraft.

Cst. Lamb Advised.

C.L.

Talked with Cst. Dersch in regards to this matter, he advised that Cst. Leyh had seen item in sky also. At this time it appears same was probably a meteor or something similar.

Attended and talked with C. in Yale. He stated that he only saw a flash of white light and that it quite possibly could be a meteor. He was quite happy with action. Unless further is learned this file will be

CONCLUDED HERE.
