Subject: UFO REPORT

TO: INTELLO (Thru ~~Adm/Info~~) 6/44/AIE

Report from Mrs Joyce Johnson <sup>42</sup> Newcastle St, MORRISSET, phoned through to OO 1400 28SEP85 ph 731064.

Time of sighting - Approx 2120, on Thurs 26SEP.

A large flashing oblong red light move from Northish to Westish from her place. It then stopped, reversed, then repeated the procedure before disappearing to the West.

Caller had seen this before (2nd SEP) but her husband had discouraged her from reporting it. NO WONDER !!

Caller insisted she knew what an aircraft looked like and that this light was too large and rectangular to be an aircraft.

NOA

Received a call from Mrs Johnson on 1 Oct 85:

Woman reported a good number of sightings on Thursday, Saturday and Sunday nights. On way home from club Sunday!

Abn Milpogor. Anyway referred her to the local UFO research group,

Pls see if you can find something on this. <sup>we will set follow up</sup>  
INTELLO through ADMIN30 <sup>J</sup> ADMIN30

1. Between 2005 hours and 2035 hours on 23 Sep 85, I received a number of telephone calls regarding an unusual object seen in the eastern sky. The names of the people who rang, the reported time of the sighting and a brief description of what they saw are as follows.

a. Mr H. Kerr of Maitland, 2000 hours. A bright green light larger than a falling star was seen due east of Maitland.

b. Mr Duncan of Glenewethers (ph 631937), about 2000 hours. A green light with a ball in front and a coloured tail, lasting about 4 seconds was seen east of Glenewethers beach. The object fell from about 45° to around 35° elevation. The flashing lights of an aircraft were seen in the general vicinity a short time later.

c. Radio ZKO. - enquiring whether any UAS reports had been received.

- d. Mr G. Priestly of Buldelah Police Station, around 2005 hours. A white light, like a gas lamp was seen on a hill to the west of the highway (Pacific?), near the Old Teagardens turn off. A green light, like a plane but larger, was sighted east of the highway on the south side of Waterholes Gap.
- e. Police Radio, Newcastle rang to enquire if any OAS reports had been received.
- f. Mr P. Monk of Charlestown (ph 4311#7), about 2005 hours. A big ball with a tail was seen in the eastern sky travelling NE-SW.

2. Submitted for your action.

Subject: UAS - 5 Sep 85

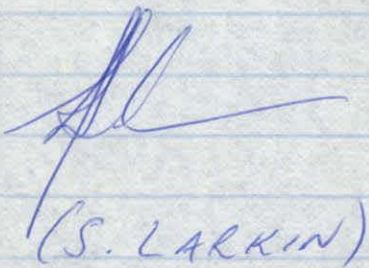

Reference: A HQOC ASI 3/A/5 Vol I

1. Following the sighting of a UFO by civil ATC radar and RAAF 3CRU a Mirage was launched to investigate. Attached is a report by the pilot identifying the object as a balloon.
2. In order to determine the origin of this balloon I have spoken with various civil and Service ATC authorities as follows:
  - a. RAAF Sector 4 Brisbane (civilian counterpart)
  - b. DOA Air Safety Branch Brisbane (Ted Towell, 2531363).
  - c. DOA Air Safety Branch Sydney (Joni Wayne, 2111056; and
  - d. Superintendent Airway Operations Sydney (Warwick Biggs).

None of these authorities have or appear to intend to investigate the incident more fully to determine the balloons origin. Joni Wayne did offer that from its description the balloon appeared to be an old type, no

longer in use in Australia.

3. Being of a flight safety nature these ATC authorities are responsible for any further investigation. Since the matter is not of a National Security nature no further action is required in regard to UFO's as laid down in Ref A.

(Write on this side only)

Subject: UNUSUAL AERIAL SIGHTINGS - 14 JULY 1985

NOA

1. Inquired at the Wilkintown Met Office and spoke to Mr Jeff Smith and then Mr Larry McGrath in Sydney.

2. Mr McGrath reported that on the 14th July he had received a number of similar reports and in response had tracked an object on radar. Since it was drifting with the wind at 15-20kts he deduced it was a balloon. However since it produced a significant radar print he assumed it was a research balloon which can carry up to a 5 tonne payload. He checked a number of authorities but could not determine if it was launched by any of them. Notams did not warn of any such launching. Mr McGrath suspected that it may have been launched at Penrith NSW. A police witness reported seeing a 'radio package' beneath the object and this tends to substantiate the balloon theory.

3. Have rung callers 4 & 5 on the attached minute & give them the above explanation. Radio 2BE apparently announced an explanation the following day.

 ADMIN

A UFO sighting was reported to the orderly officer at 2210 on 22 MAR 85. Details are as follows:

Name : Ms Jill Noxey

Address : 113, Janet St. Merewether

Phone No : 635157

Time of Sighting : First appearance @ 2100 HRS

Description : Looked like red and green stars, situated above Nobbys beach. When suggested it could be reflection of lights of a boat ms Noxey said she'd considered this but refuted it.

Situation : Viewed from Church St. looking down at harbour - above Nobbys beach.

 Details: Several shining objects in westerly direction, some lowering, some moving rapidly. Time of sighting 1412 Hrs.

b. Caller: Mr. John T. Lawrence  
 Address: Main Rd Heddon/Greta  
 Phone: 373067  
 Details: Several lights mostly white with orange, blue and green flashes sighted over Cessnock area over past few evenings. Several residents have also commented to the reporter. Sightings continue for several minutes but disappear on approach of a/cft. Time of sighting 2200 hrs.

2. Both callers appeared strongly concerned over the sightings and were genuine. Further investigation is recommended.

Subject: UNUSUAL AERIAL SIGHTING

INTELLO (through ADMINISO)

1. At 2130 hours on 29 Dec 84, Mrs Lavis of 13 Curry St Wallsend (Phone 559301) reported an unusually bright light, stationary, in the sky, looking West from her home. The object was observed for approx. 30 minutes before making her call. No further details were available because of cloud; however, Mrs Lavis stated that the object was like a very bright star.
2. The only other point of interest is that her daughter was also present at the time.

INTELLO (through ADMIN50)

1. At 2030 hours on 30 Dec 84, Mrs Robyn Bear of 2 Centre Ave, Blackalls Park (ph 594047) reported an unidentified aerial sighting. She apparently saw a bright white unblinking light in the one o'clock position west of Toronto moving south. This occurred at 2020 hours and continued for 10 minutes until hidden by clouds.
2. While Mrs Bear was making her report I could hear giggling noises in the background. She explained that it was her children (?) making fun of her. The children also saw the light.

REF UFO sighting 13JAN85

1. At approximately 2135 on Sunday night 13JAN85 I received a call from Mr John Syles of 27 COOPER ST, CESSNOCK reporting an unusual aerial object. He stated that he and three others were on their verandah when they observed a small light moving rapidly across the sky from west to east in an erratic fashion. First detection was at ~~2128~~ 2128 and faded at about 2130. Mr Syles says said it was not an aircraft or a satellite.
2. Mr Syles sounded sane, unemotional and sober. The phone number he gave me is not listed in the book, however he did answer when I called back. His home phone no. is 90 6264 and work no 98 7684

Subject: UNUSUAL AERIAL SIGHTING.

DPE 9506

TO INTEL  
THROUGH ADMINSO.

1. The following is a report of an Unusual Aerial Sighting by Mrs. Edwards of Raymond Terrace (telephone number 675642), as received by the orderly officer at 172130K AUG 84.
2. The UAS was observed from Mrs. Edwards backyard at 172100K. It was bright red and was visible for approximately 10 minutes, during which time it moved from the southern sky to the north, the west, then the east before disappearing. It re-appeared soon after - bigger and brighter, "twice the size of Venus", with a flashing white light on one side.

<sup>LOOSE</sup>  
(Write on this side only)

Subject: UNUSUAL AERIAL SIGHTING REPORT

INTELO (through ADMINISO)

1. In accordance with Orderly Officer Instructions, the following Unusual Aerial Sighting Report is provided.

2. Callers Details.

MR R. HAMSON  
72 INDUSTRIAL DRIVE  
MAYFIELD

3. Time of Sighting. 1840 hours on 10 JUL 84

4. Description of Sighting. The caller sighted a formation of stars, approximately 9-12 in number, travelling over the moon in a VIC formation from East to West (his right to left). He also described the stars as a 'bunch of lights'. There appeared to be one main, large star at the lead of the formation and the trailing stars almost appeared to be towed by the lead star although there appeared to be nothing interconnecting them. The caller's wife and daughter also experienced the sighting which lasted for approximately three minutes until the moon was covered by cloud

5. When asked if any of the stars were still there he advised that the large one and several smaller ones were there but not in any formation and they had stopped.

6. The sighting occurred when the gentleman was returning from his garage. He had used a torch on his way to the garage but the torch would not operate on the way back to the house during the presence of the formation but did work when he was back inside the house.

7. I would estimate the caller to be a middle aged gentleman. He was concerned when I asked for his name and address that the information might 'leak out' but reluctantly provided the information. He sounded genuine.
