UNCLASSIFIED

COUNTRY: MOROCCO

SUBJECT: UFO Sighting over Agadir, Morocco

REPORT NUMBER: 1865 0011 67

DATE OF REPORT: 18 January 1967

PROJECT: MOON DUST

REFERENCES: HSO 0029 JAN 67

DATE OF INFORMATION: 11-12 January 1967

PLACE AND DATE OF ACQ: Rabat, Morocco

PREPARED BY: 16 January 1967

EVALUATION SOURCE: INFORMATION

SOURCE: Local press

SUMMARY:

1. This report forwards translations of two articles which appeared in the Petit Marocain, 11 January 1967. Each article is separately identified as to source. Although the two articles are very contradictory, the coverage afforded this sighting demonstrates a high level of local interest in the subject of UFO's, and presages future reporting which could be valuable in pursuit of Project MOON DUST.

ADDED: 13 January (from our private correspondent): Science fiction or science? A luminous object goes across the sky and falls down into the sea. This phenomenon took place on Thursday evening. Complete disagreement among the witnesses: some say that there was a big explosion, others assert that they didn't hear anything.

On Thursday, around 1930 hours, the sky above Agadir was crossed by a very luminous object flying in the northeast - southwest direction.

The white trail left by the object turned into a rainbow. The object fell down into the sea with a deafening sound, according to some witnesses.

Is it one of these rockets which go out of control from time to time? It is possible but the idea that it might be a meteorite seems to be prevailing among the population.
